Subject Index to Volume 273

A

ACAT, *see* **Acyl-CoA:cholesterol acyltransferase**

ACE, *see* **Angiotensin-converting enzyme**

Acetylcholine

effects

- on calcium currents in parathyroid cells, E880
- on forearm blood flow at exercise onset and recovery, H2388
- on intestinal wall movement, analysis in vitro, G776
- on intracellular calcium in esophageal smooth muscle, C1679
- on spinal resistance-sized small arteries, H2217

microdialysis, in conscious rat, H2850

reentrant wavefront instabilities induced by, in canine right atrium, H356

spontaneous release in mammalian neuromuscular junction, C1835

and stress-induced intestinal transport abnormalities, in rats, G486

in vasodilation triggered by motor nerves, H156

vasodilator response to, effect of tetraethylammonium on, R414

Acetylcholinesterase

expression in muscle, mechanical stimulation and, C2002

Acetyl-CoA carboxylase

in rat skeletal muscle, AICA ribose and, E1107

N-Acetylcytisine

effects on oxygen toxicity, L548

inhibition of cytokine-induced E-selectin and VCAM-1 expression, H817

protection against glutamate-induced cytotoxicity in C6 glial cells, R1771

Acid

dietary, and distal tubule acidification, F586

secretion

- pH-dependent, in cultured gas gland cells of eel, R1719
- renal, ouabain and, F857

Acid-base flux

sodium-coupled basolateral, in avian nephron, R1845

Acid-base status

see also **Acidosis; Alkalosis; pH, intracellular**

glutamate transporter EAAC1 in, F1023

and hydrogen ATPase regulation, in renal inner medullary collecting duct cells, C1194

renal response to, syntaxin isoforms in, F718

Acid-base transport

and calcitonin, in rabbit distal convoluted tubules, F97

α_1 -Acid glycoprotein

anti-inflammatory effects after intestinal ischemia in rats, G1031

sialyl Lewis^x-bearing, G1031

Acidification

intracellular, in avian reptilian-type nephron, R1845

urinary, in mammalian kidney, F857

Acidosis

see also **pH, intracellular**

adaptation to, in kidney cells, C558

and diaphragm contractile function, R630

and hydrogen ATPase regulation, in renal inner medullary collecting duct cells, C1194

metabolic

chronic, in carbonic anhydrase II-deficient mice, F234

and endothelial intercellular adhesion molecule 1, C1571

glutamate transporter EAAC1 in, F1023

respiratory, effects on bicarbonate transport in Henle's loop, F698

Acid secretion

gastric, *see* **Stomach, acid secretion**

Acid stress

and stimulation of α -melanocyte-stimulating hormone release by dopamine, R387

Acinar cells

pancreatic

cystic fibrosis transmembrane conductance regulator in, C442

mitogen-activated protein kinase cascade activation, C1472

permeabilized, amylase secretion, G655

regulated exocytosis in, G655

tyrosine phosphorylation in, differential effects of VIP and CCK, G1226

rat parotid gland, ryanodine receptor expression, C1306

Actin

F-actin

modulation of swelling-activated chloride current in cardiomyocytes, C1215

in vascular endothelium, C1764

interaction with titin, in cardiomyocytes, C662

α -sarcomeric

cardiac, C1801

postnatal appearance, C1801

skeletal muscle, C1801

smooth muscle α -actin, in pericytes of renal medulla, R1742

stress fiber assembly in rat glomerular mesangial cells, F283

Actin cytoskeleton, *see* **Cytoskeleton**

α -Actinin

gene expression in glomerulus, F150

Action-potential clamp

in guinea pig atrial cells, H1745

in isolated rabbit ventricular cells, H1

Action potentials

see also **Electrophysiology**

calcium, propagation, in normal rat kidney fibroblasts, C1900

cardiac

in dog, H1096

swelling-activated chloride currents and, C541

duration

in intact heart, H1205

in isolated rabbit ventricular cells, H1

repolarization, in urinary bladder smooth muscle, C110

restitution, in intact heart, passive electrical properties during, H1205

of ureteral myocytes, C962

Activator proteins

AP-1

in endothelial cells, C1506

and AT₁ receptor gene expression in vascular smooth muscle cells, H655

AP-2, in endothelial cells, C1441

Activin receptor-like kinase

ALK-5, gene expression in rat kidney development, F386

Activity

see also **Exercise; Physical activity**

adjuvant arthritis and, in rat, R1550

bouts, age and, in hamster, R2124

circadian rhythm of

age-related fragmentation of, in hamster, R2124

in aging mouse, R1957

Acute lymphoblastic leukemia

cell membrane glucocorticoid receptor

in, cell cycle regulation of, E571

Acute-phase response

hepatic, G1153

in IL-1 β knockout mice, R400

interleukin-8 and, E720

stress-induced, in rat, R1998

Acute respiratory distress syndrome

see also **Lung injury, endotoxin-induced**

nuclear factor- κ B regulation and, L185

pathophysiology, L889

phosphatidic acid metabolism in, L957

progression, nitric oxide in, L1167

Acyl-CoA:cholesterol acyltransferase

ontogeny and location, in human small intestine, G62

Acyl-CoA synthetase

mRNA, downregulation, cholate and, E37

Adaptive cytoprotection

gastric, G365

Adenine nucleotide translocator

expression, and maturational changes in sheep heart, H1977

in kinetic model of mitochondrial calcium handling, C717

Adenosine

in apoptosis of pulmonary artery endothelial cells, L485

cardioprotection, in ischemia-reperfusion, H1677

and coronary artery membrane potential, H2687

and coronary autoregulation, H1299

effector mechanism, in acute ischemic preconditioning of skeletal muscle, R887

effects on nitric oxide synthesis, in rat cardiomyocytes, H59

levels, during coronary occlusion, H945

in norepinephrine-induced coronary vasodilation, H557

priming effect on ATP-sensitive potassium currents in cardiomyocytes, H1637

Adenosine 3',5'-cyclic monophosphate

and actin filament organization in rat glomerular mesangial cells, F283

and calcitonin, in distal convoluted tubules, F97

and calcium currents in parathyroid cells, E880

calcium inhibition of, and pulmonary microvascular permeability, L22

Adenosine 3',5'-cyclic monophosphate (continued)

- and carbon monoxide production, in vascular smooth muscle, H317
- and cardiac electrophysiology, H2539
- in cholangiocytes
- bile acid modulation of, G518
- gastrin effects on, G1061
- in endothelin-1-induced ANP release in rat cardiomyocytes, E922
- and free cytosolic calcium in clonal gonadotrophs, E850
- and hepatic sodium-taurocholate co-transport, G842
- and inducible nitric oxide synthase in macrophages, L967
- and ionomycin-induced endothelial cell barrier dysfunction, L172
- mediation of α_{2D} -adrenergic receptor gene expression in vascular smooth muscle, H85
- and nitrite production by cardiomyocytes, H59
- and platelet-activating factor receptor expression in rat mesangial cells, F445
- pontine, in cholinergic REM sleep regulation, R1430
- and red blood cell filterability, C1828
- stimulation of feeding behavior, R107
- synthesis, hepatic regulation of, in cholestasis, G164

Adenosine 3',5'-cyclic monophosphate-response element binding protein, *see* **CREB**

Adenosine 5'-diphosphate

- changes, during intracellular calcium signaling, C1416
- endothelial-mediated dilation of cerebral arteries by, H1472

Adenosine kinase

- inhibitor, attenuation of hepatic leukocyte adhesion after hemorrhagic hypotension, G1297

Adenosine receptors

- A₁**
 - cardioprotective function in prolonged simulated ischemia, H501
 - in coronary artery, H2687
 - in regulation of heart rate, in mammalian embryos, R1374
 - in renal epithelial cells, and adenylyl cyclase regulation, F883
- A_{2a}**, in coronary artery, H2687
- A_{2b}**, in coronary artery, H2687
- A₃**, cardioprotective function in prolonged simulated ischemia, H501
- and airway smooth muscle relaxation, nitric oxide and, L581
- in late preconditioning against myocardial stunning, H1324
- in protein kinase C-mediated preconditioning of cardiomyocytes, H847
- and pulmonary vasorelaxation, ATP-sensitive potassium channels and, L950

Adenosinetriphosphatase

- calcium, *see* **Calcium ATPase**
- hydrogen-potassium, *see* **Hydrogen-potassium ATPase**
- sodium-potassium, *see* **Sodium-potassium ATPase**

Adenosine 5'-triphosphate

see also **Potassium channels, ATP-sensitive**

- activation of small-conductance calcium-activated potassium channels in murine colonic smooth muscle, C2010
- in alveolar type II cells, surfactant effects on, L339
- changes, during intracellular calcium signaling, C1416
- depletion
 - and ezrin dysfunction, C710
 - and mitochondrial permeability transition, C479
- effects on brown adipocyte activities, C679
- endothelial-mediated dilation of cerebral arteries by, H1472
- extra- and intracellular, in endothelium-dependent regulation of cerebrovascular tone, H878
- extracellular
 - in apoptosis of pulmonary artery endothelial cells, L485
 - effects on cardiac muscle, H1347
 - signal transduction by, in myeloid leukocytes, ecto-nucleotidases and, C973
- mass transfer in blood vessel wall, H464
- in P2Z purinoceptor permeabilization phenomenon, C1793
- regeneration, and contractile function in ischemic skeletal muscle, E233
- in skeletal muscle, contraction and, C306
- turnover, in vascular endothelial cells, C205

Adenovirus

- as gene transfer vector, H2091
- for endothelial nitric oxide synthase, H265
- targeting to alveolar type II cells, L741
- infection, risk factors for, L256

Adenylate cyclase

- activity in osteoblastic cells, aging and, E776
- and calcium currents in parathyroid cells, E880

Adenylyl cyclase

- activity
 - in airway smooth muscle, carbachol pretreatment and, L640
 - in coronary artery, H2687
 - calcium-inhibitable, and pulmonary microvascular permeability, L22
- expression
 - during development of heart failure, H707
 - in rat kidney, age and, C323
- isoforms
 - in rat kidney, age and, C323
 - and vasopressin enhancement of cAMP stimulation in vascular smooth muscle cells, H971
- regulation, in renal epithelial cells, F883
- and tyrosine phosphorylation in pancreatic acini, G1226

Adenylyl cyclase system

- in brown adipose tissue, triiodothyronine administration and, E247
- inhibitors, and insulin action in adipocytes, E254

- in osteosarcoma cells, glucocorticoid regulation of, E528

Adhesion biology

see also **Intercellular adhesion molecule 1**

- of endothelial cells, H2396
- in lung inflammation, L513

Adhesion molecules, *see* **Cell adhesion molecules; Intercellular adhesion molecule 1; Selectins**

Adipocytes

- brown
 - lipolysis and thermogenesis, adrenergic regulation of, C1136
 - P₂ purinergic receptor stimulation in, C679
 - insulin resistance in, after downregulation of G_i subtypes, E254
 - insulin signaling components, expression, fetal nutrition and, E46
 - lipolysis, endurance training and, E497
 - metabolism, endurance training and, E497

Adipose tissue

see also **Fat, body**

- accretion, in postpubertal rat, R1534
- adaptations to glucose oversupply, in rats, E1
- amino acid metabolism, assessment of, E613
- angiotensinogen gene expression in, R236
- brown
 - adenylyl cyclase activity in, thyroid status and, in rat, R762
 - adenylyl cyclase subtype gene expression in, thyroid status and, in rat, R762
 - adenylyl cyclase system in, triiodothyronine administration and, E247
 - in *Sminthopsis crassicaudata*, R161
 - sympathetic discharge to, and prepiriform cortex threonine level, R554
 - thermogenesis, leptin and, E226
 - thermogenesis, vagus nerve and, in rat, R784
 - and fertility, E231
 - glycerol production in, E584
 - lactate production in, E584
 - microdialysis of, E584, E613, E1033
 - steroid hormones and, in female rats, E355
 - subcutaneous, interstitial glycerol concentration in, in women, E1033
 - visceral, and insulin action in blacks with NIDDM, E425

Adolescents

- female, magnesium kinetics in, R710

ADP ribosylation factor

- and brefeldin A inhibition of intestinal smooth muscle contraction, C816

Adrenal glands

see also **Hypothalamic-pituitary-adrenal axis**

- ACTH sensitivity, neural modulation of, in rats, E363
- hormones, and fibronectin synthesis by type II pulmonary epithelial cells, L86

Adrenal medulla

- chromaffin cells, epinephrine release, in hypoglycemic rat, R1758
- leptin receptors in, in rats, E448

Adrenergic receptors

and colonic motor and sensory function, G997

during hyperventilation, G1135

α -Adrenergic receptors

α_1 -

hepatic, thyroid status and, E1063
and inotropic responses of neonatal rat hearts, H1113
and ischemic preconditioning of human myocardium, H902
and regulation of AT₁ receptor in vascular tissue, R1224
stimulation, and activation of protein kinase C isotypes in human airway, C937

α_2 -

in A5 and A6 noradrenergic cells, H2290
sensitivity, endurance training and, E497
stimulation, in NOS-inhibition hypertension, H2756

α_{2B} -

in renal epithelial cells, and adenyl cyclase regulation, F883

α_{2D} -

gene expression, in vascular smooth muscle, CRE-like response element and, H85
hepatic
stimulation, and hepatic glucose production during exercise, E831
thyroid status and, E1063
and lymphatic function, in rat, R331
vasoconstriction induced by, reduction of coronary flow oscillations, H2746

β -Adrenergic receptors

β_1 -

in brown adipocyte lipolysis and thermogenesis, C1136
in regulation of ion channels in cardiomyocytes, H1669

β_2 -

actions in adult cardiomyocytes, H1044
modulation of cardiac excitation-contraction coupling, H1611
in rat renal proximal tubule epithelial cells, and PKC activity, F193
in regulation of ion channels in cardiomyocytes, H1669
and tumor necrosis factor inhibition by catecholamines, E1203

β_3 -

in brown adipocyte lipolysis and thermogenesis, C1136
expression in brown adipose tissue, triiodothyronine administration and, E247
agonists, regulation of sodium-potassium ATPase activity, C893
cardiac, function in hypoxemic fetal sheep, R2022
desensitization, in tracheal smooth muscle, L556
functional, in cutaneous vasculature, H1038
hepatic, stimulation, and hepatic glucose production during exercise, E831
mediation of pulmonary vasorelaxation, ATP-sensitive potassium channels and, L950
sensitivity, endurance training and, E497

simulated microgravity and, in man, R93

stimulation

modulation of cardiac calcium channels, C1666

and myocardial contractility in mouse, H1283

in vascular capacitance response to carotid baroreceptor activity, H1713

Adrenocorticotrophic hormone (corticotropin)

adrenocortical sensitivity to, neural

modulation of, in rats, E363

plasma levels, in high-fat fed rats, E1168

response to intraperitoneal endotoxin, R1870

Adrenomedullin

effects on bone mass, E1113

in experimental congestive heart failure, R1392

and renal vasodilation, R716

Adult respiratory distress syndrome, see Acute respiratory distress syndrome

Aerobic capacity

in children, E809

Age

and adenyl cyclase in normal and Brattleboro rat kidney, C323

and cardiopulmonary interactions during standing, H2128

effects on circadian rhythm of activity, in hamster, R2124

and insulin-like growth factor mRNA expression during muscle regeneration, in rat, R353

and plasma leptin levels, in mouse, R113

Aging

aortic dynamics in, H96

and blood pressure, in women, H777

caloric restriction in, effects on high-density lipoprotein levels, E714

and coordinate luteinizing hormone-testosterone release, in healthy men, R1407

diurnal rhythm of corticotropin-releasing hormone and proopiomelanocortin mRNA in, suprachiasmatic nucleus transplants and, in rat, R1764

effects on circadian rhythm of activity, in mouse, R1957

endothelial dysfunction with, markers of, H1941

and fluid balance, in rat, R1441

and follicle-stimulating hormone serum concentrations, in men and women, E989

and gastric mucosal epidermal growth factor receptors, in rats, G389

and gastrointestinal response to nutrient infusion in small intestine, R755

heart rate variability and, H1841

and high-energy phosphates in myocardium, H418

and left ventricular function and remodeling after myocardial infarction, H2652

and luteinizing hormone serum concentrations, in men and women, E989

maximal metabolic rate and balance of substrate utilization in, E655

and muscle sympathetic nerve activity adjustment to oxygen level, in humans, R690

myosin heavy chain synthesis in, E790

and pressure diuresis and natriuresis response, in rat, R578

and stimulatory G proteins in osteoblasts, E776

and vasopressin response to dehydration, in rat, R35

and muscle sympathetic nerve activity adjustment to oxygen level, in humans, R690

myosin heavy chain synthesis in, E790

and pressure diuresis and natriuresis response, in rat, R578

and stimulatory G proteins in osteoblasts, E776

and vasopressin response to dehydration, in rat, R35

Airway

see also **Bronchi**

calcium homeostasis in, halothane effect on, C868

Calu-3 cells, calcium-stimulated chloride secretion, CFTR requirement, L1208

epithelial cells, PKC isotypes, activation, C937

epithelial repair

integrins and, L256

stimulated by neuropeptides in vivo, L1235

epithelium, volume transport across, C21

hyperresponsiveness, L1096

allergen-induced, cyclooxygenase metabolites and, L1118

endogenous nitric oxide and, L656

eosinophil accumulation around airway nerves and, L93

nitric oxide synthase and, in mice, L883

TNF- α and, L1020

inflammation, L1096, L1132

see also **Asthma**

arachidonic acid metabolism and, L331

in common cold, L749

IL-1 β and, L694

metalloproteinase in, L866

TNF- α and, L1020

lower, irritation, spinal cord neuronal responses to, in rat, R1147

parasympathetic innervation, development, in sheep, R121

protection

after toxin exposure, L1082

during swallowing, in humans, G854

reactivity, hyperoxic lung injury in newborn and, L40

relaxation, furosemide-induced, L211

remodeling, growth factors in, L10

responses, type I nitric oxide synthase and, in mice, L883

smooth muscle, see **Muscle, smooth**

surface fluid composition, C21

microanalysis, L895

Alanine

in muscle protein metabolism after exercise, E122

uptake, and hepatocellular chloride channel activation, G849

Albumin

synthesis, in head-injured patient, E898

transport, in skeletal muscle ischemia-reperfusion, H303

Alcohol

effects on thermoregulation, in mouse, R696

Aldose reductase

activity
counteracting organic osmolytes and, F1048

- Aldose reductase** (*continued*)
urea and methylamine effects on, F1048
- Aldose reductase inhibitor**
sucrose-fed diabetic rats treated with, electroretinogram in, E965
- Aldosterone**
actions, in prolonged fasting, F796
and epithelial sodium channel expression, C1650
in heart failure-prone rat, H228
and pressure escape with reduced renal perfusion pressure, R646
and proton conductance in kidney cells, C1673
- Alkaline phosphatase**
activity, renal ischemia and, F849
gene expression, in response to skeletal unloading, E1133
plasma levels, CCK-8 and, G381
- Alkalinization**
and adult ventricular myocyte contractility, H1044
intracellular, and low-conductance calcium-activated potassium channels, C230
- Alkalosis**
see also pH, intracellular
respiratory, effects on bicarbonate transport in Henle's loop, F698
- Allergic rhinitis**
mucoglycoprotein hypersecretion in, L1203
- Allergy**
and intestinal transport of undegraded proteins, G139
- Altitude**
high
adaptation to, and lactate paradox, R999
and cardiac expression of atrial natriuretic peptide, H411
mitochondrial function at, in rat, C852
- Alveolar cells**
see also Epithelial cells; Macrophages, alveolar
gelatinase production, L663
sodium-potassium ATPase isoforms in, differential expression of, L246
type I
in nitrogen dioxide-induced lung injury, L1228
phenotypic stabilization and responses to growth factors, L840
type II
adenovirus gene transfer vector targeting to, L741
ascorbate deficiency and oxidative stress in, L782
cell cycle in, L572
cNOS and ATP levels, surfactant effects on, L339
in culture, sulfation of extracellular matrix, L840
culture, with apical air surface, L347
cysteine and cystine transporters in, L1147
cytodifferentiation, L246
ET-1 production by, IL-1 β and, L193
Fas expression in, L64
fibronectin synthesis, adrenal hormones and, L86
functional IL-2 receptor expression, L495
 γ -glutamyltransferase activity in, hyperoxia and, L537
glycogen mobilization, in fetal lung development, L389
hyperplasia, GM-CSF and, L715
injury, in hyperoxia, L548
lipoprotein-stimulated surfactant secretion in, L634
migration, integrins and, L134
in silica-treated rats, SP-A gene expression in, L395
sodium-potassium ATPase, upregulation by dexamethasone, L825
wound-induced calcium waves in, L1242
- Alveolitis**
surfactant effects on alveolar macrophages and, L1258
- Alveolus**
aquaporins, subcellular distribution in rat, C1549
- American Journal of Physiology: Gastrointestinal and Liver Physiology**
editorial policy, G1
- Amidative peptide processing**
and vascular function, C1908
- Amiloride**
binding sites in intact epithelia, C1437
effects
on hepatic stellate cell proliferation, G39
in pregnant rat, R1031
- Amino acids**
acidic, renal reabsorption of, F1023
branched-chain, supplementation, during eccentric exercise, and immune system, E85
effects on renal dopamine secretion, in diabetic rat, R80
efflux, sweating-activated, in endothelial cells, C214
infusion, and dopamine metabolism, effects on glomerular filtration rate, F144
insulin-stimulated utilization, during development, in pigs, E305
and metabolic effect of exercise on muscle protein, E122
metabolism
in adipose tissue, assessment of, E613
in gut, of piglets, E408
in gut, of pigs, G1208
in gut, of sheep given lucerne forage, G1200
hepatic, in pigs, G1208
and protein intake, R972
uptake
and hepatocellular chloride channel activation, G849
in skeletal muscle, after weight-lifting exercise in rat, C246
- Amino acid sequence**
of cyclooxygenase-2 in rabbits, F18
- γ -Aminobutyric acid**
in dorsal raphe nucleus, role in control of REM sleep, R451
in nucleus of solitary tract, effects on blood pressure in baroreceptor-denervated rat, R1657
and parasympathetic reflex vasodilation, in cat, R168
in rat suprachiasmatic nucleus, vitamin B₁₂ and, R359
- γ -Aminobutyric acid receptors**
modulators, cytoprotective effects in renal proximal tubules, F869
- Aminoguanidine**
inhibition of inducible nitric oxide synthase, and immune-mediated myocardial dysfunction, H28
- p-Aminohippurate**
transport in opossum (OK) kidney cells, regulation by PTH, F674
- α -Amino-3-hydroxy-5-methyl-4-isoxazolepropionic acid receptors**
spinal, in episodic hypertension in conscious spinal rat, H1266
- 5-Aminoimidazole-4-carboxamide riboside**
effects on skeletal muscle metabolism in rats, E1107
- 4-Aminopyridine**
and ionic currents, in cardiomyocytes, H1
- Ammonia**
effect on calcium-activated chloride secretion in T84 intestinal epithelial monolayers, C634
secretion, renal, ouabain and, F857
- Ammonium**
permeability, in macula densa cells, F817
production, renal glutaminase flux and, E521
transport, in rat terminal inner medullary collecting ducts, F857
- Amniotic fluid**
response to umbilicoplacental embolization, in fetal sheep, R1094
- AMPA receptors**, *see* α -Amino-3-hydroxy-5-methyl-4-isoxazolepropionic acid receptors
- Amygdala**
in olfactory memory for mate, in prairie vole, R1683
- Amylase, pancreatic**
release, in rat, C101
secretion
CCK peptides and signal transduction in, G735
from α -toxin-permeabilized rat pancreatic acini, G655
survival during small bowel transit, G553
- Amylin**
functions, E1113
rat amylin-(8-37), and glucose and lipid metabolism, E859
- Amyloid**
mast cell adhesion induced by, C179
- Amyloidosis**
in Turkish hamster, R934
- Anaplerosis**
estimation using ¹³C NMR, E1228
- Anesthesia**
effects
on bladder hyperactivity induced by cerebral infarction, R1900
on calcium homeostasis in airways, C868

Anesthetics

- effects on nitric oxide and endothelium-derived hyperpolarizing factor in microcirculation, H618
- and fura 2 reporting of intracellular calcium in rat trabeculae, C2046
- inhalation, and parasympathetic reflex vasodilation, in cat, R168
- volatile, effect on calcium homeostasis in airways, C868

Angiogenesis

- in chronic airway inflammation, substance P receptors in, L565
- gene-targeting studies, H2091
- hypoxia-induced, vascular endothelial growth factor in, H628
- with ischemia after femoral artery occlusion, H1255
- in three-dimensional cell culture, C1109

Angiotensin

- see also Renin-angiotensin system*
- peptides, vascular responses to, E1059
- in proximal tubular fluid, kidney and blood in hypertensive transgenic rats, F246
- stimulation of catecholamine secretion from chromaffin cells, in trout, R49

Angiotensin-converting enzyme

- activity, in hindlimb vascular bed of cat, E1059
- aging-induced changes in, H1941
- in cardiac angiotensin II formation, species considerations, H1769
- cardiac expression, in volume overload-induced cardiac hypertrophy, H641
- in cardiac metabolism of bradykinin, H2263
- and ovarian steroidogenesis in frog, R2089

Angiotensin-converting enzyme inhibition/inhibitor

- cardioprotection by, H2263
- and duodenal secretion in rat, R942
- effects on heat shock protein expression in hypertrophied hearts, H526
- inhibition of cardiac hypertrophy, bradykinin-NO pathway in, H2659
- long-term effects on sodium excretion in hypertension, F104
- and natriuretic response to carotid baroreceptor activation, in hypertensive rat, R70
- in volume overload-induced cardiac hypertrophy, H641, H961

Angiotensin II

- see also Renin-angiotensin system*
- and arterial baroreflex resetting during development, R457
- and baroreflex function, R457
- and cardiac hypertrophy in fetal sheep, R1501
- cardiovascular effects
 - in heart failure, H2664
 - peripheral and central, separation of, H2620
 - in solitary tract nucleus, mediation by substance P, R28
- and dietary sodium supplementation, synergistic vascular effects, H1275
- direct central inhibition of renal sympathetic nerve activity, R554
- and duodenal secretion, R942
- effects
 - on intracellular calcium in renal arterioles, F84

- on proximal convoluted tubule bicarbonate absorption, in rabbit, F595
- and endothelial nitric oxide synthase expression, in pulmonary artery, L315
- formation, from ACE and chymase, species considerations, H1769
- inhibition, and ventricular remodeling in pressure-overload hypertrophy, H1824
- and ovarian steroidogenesis in frog, R2089
- and PLA₂ activity, F554
- and pressure escape with reduced renal perfusion pressure, R646
- and renal arteriole membrane potentials, F307
- and renal vascular responsiveness in hypertension, F877
- renal vasoconstrictor response, signal transduction pathways in, F274
- secretion, hemorrhage and, in rat, R558
- sensitivity to, in Lyon hypertensive rat, R1793
- in thirst and sodium appetite, in sheep, R187
- uterine arcuate artery response to, during gestation and postpartum, in rat, H1148
- vasoconstriction to, eicosanoids and, R293

Angiotensin II receptors

- AT₁
 - blockade, and cardiac hypertrophy in fetal sheep, R1501
 - central, during dehydration, in rat, E156
 - in hindlimb vascular bed of cat, E1059
 - immunohistochemical localization in rat kidney, F170
 - inhibition of basic fibroblast growth factor-dependent proliferation, C1324
 - promoter, PKC-dependent regulation of, in vascular smooth muscle cells, H655
 - regulation, in neonatal ureteral obstruction, R503
 - regulation, in vascular tissue, R1224
- AT_{1A}, deficiency and tubuloglomerular feedback, F315
- AT_{1B}, and neuronal potassium and calcium currents, C1040
- AT_{1R}, recycling, PLA₂ and, F554
- AT₂
 - immunohistochemical localization in trout chromaffin cells, R49
 - inhibition of basic fibroblast growth factor-dependent proliferation, C1324
 - regulation, in neonatal ureteral obstruction, R503
 - and renal prostaglandin F_{2α} formation in rat, R1103
- blockade, effects on proximal tubular fluid reabsorption, R510
- central, during dehydration, in rat, E156
- vascular, regulation by epidermal growth factor, C1241

Angiotensinogen

- gene expression, in adipose tissue, R236

***Anguilla anguilla*, *see* Eel, European 1,5-Anhydroglucitol**

- kinetic mass balance model for, E821

Anion channels

- blockers, C214
- volume expansion-sensing outward-rectifier, C755
- volume-sensitive, in adaptive responses to amino acid uptake, G849
- volume-sensitive organic osmolyte, *see* VSOAC

Anion exchange

- and oxidant injury in perfused lung, L296

Anion exchanger

- AE, expression in vascular smooth muscle, F1039
- AE2, immunolocalization in rat kidney, F601

Anion transport

- in rabbit colon, C148

Anorexia

- endotoxin-induced
 - in leptin-deficient (*ob/ob*) and leptin receptor-deficient (*db/db*) mice, R181
- in rat, R1193

Anoxia

- cell injury in, kinase inhibition and, C710
- effects on surface proteins of endothelial cells, L1141
- electroencephalography in, in turtle, R911
- plasma membrane disruption in, water and electrolyte influxes in, C1341
- tolerance
 - and intolerance, studies in fish, R307
- in turtle, glutathione systems and, R219

Antibiotics

- intestinal absorption, F706
- β-lactam, peptide transporter recognition of, in rat LLC-PK₁ cells, F706
- renal tubular reabsorption, F706

Antibody response

- metabolic costs of, in mouse, R1631

Anticoagulant

- sucrose-fed diabetic rats treated with, electroretinogram in, E965

Antihypertensive agents

- imidazoline receptors and, R1567, R1569, R1580

Antioxidants

- in developing lung epithelium, L417
- and endothelial dysfunction in smokers, H1644
- in hepatocytes, G7
- inhibition of agonist-induced monocyte adhesion to endothelial cells, H817
- and late preconditioning against myocardial stunning, H1651
- in sinusoidal liver cells, G1304
- thiol, protection against glutamate-induced cytotoxicity in C6 glial cells, R1771

Aorta

- adaptation
 - to aging, H96
 - to hypertension, H96
- anion exchanger AE expression in, F1039
- constriction, hypertensive response to, sympathetic blockade and, H2648

Aorta (continued)

- desensitization and norepinephrine receptor-G protein uncoupling in, in rat, H279
- endothelial cells
 - intracellular calcium, tunicamycin and, C1298
 - prostaglandin H synthase in, short-term regulation, C1749
 - shear-induced nuclear factor κ B in, C572
- endothelium-dependent relaxation, ceruloplasmin effects on, H2843
- pressure-diameter relationship, in hypercholesterolemia, H1142
- regional differentiation, in rat, H1478
- smooth muscle cells, sodium/hydrogen antiport, modulation by atrial natriuretic factor, C643

Aortic coarctation

- pressure overload produced by and cardiac hypertrophy, H113
- and natriuretic peptide expression, H113

Aortic impedance

- embryonic, characterization with lumped-parameter models, H19

Apolipoproteins

- apoA-1, and arterial vasomotion, H1215
- apoA-I gene, expression
 - copper and, C1362
 - in Hep G2 cells, C1362
- apoA-IV, intestinal production, capsaicin and, R981
- apoB-100, hepatic secretion of, cholesterologenesis and, E462

Apoptosis

- by asbestos and H_2O_2 , extracellular signal-regulated kinase in, L1029
- epithelial cell, in gastrointestinal tract, physiology and pathophysiology, G1174
- Fas-dependent, in alveolar epithelium, L64
- glucagon-like peptide-2 and, in mice, E77
- in human leukemic cells, E571
- intestinal, G253
 - damage-induced, G253
 - molecules involved in, G253
 - spontaneous, G253
- intracellular signaling events in, G795
- in lung epithelial cells exposed to reactive oxygen or nitrogen species, L789
- oxidant-induced in mesangial cells, quercetin protective effects, F206
- phosphatidylinositol 3-kinase activity and, L1220
- prevention, in renal progenitors, F757
- of pulmonary artery endothelial cells, extracellular ATP and adenosine in, L485
- pulmonary epithelial cell
 - hyperoxia and, L548
 - inhibition by dexamethasone, L921
- in renal proximal tubular cells, inhibition by lysophosphatidic acid, F575
- silica-induced, in alveolar macrophages, ICE family of proteases in, L760
- in skeletal muscle, with hindlimb unweighting, C579
- TGF- β 1 and, L1220
- tumor necrosis factor-mediated
 - hyaluronidase induction of, C1987

- in L929 cells, C1987
- in LNCaP cells, C1987

Approximate entropy

- for quantification of serial irregularity in serum hormone levels, E989

Aquaporin

- aquaporin-1, expression in erythroleukemia cells, C1562
- aquaporin-2
 - expression in obstructive nephropathy, F213
 - gene promoters, in rats and mice, F265
 - mutations, sensitivity to mercury inhibition of water transport, F451
 - syntaxis and, F718
- aquaporin-3, induction by corticosteroid, L1090
- cysteine residue substitution effects on structure-activity relationships, F451
- developmental patterns, in respiratory and glandular tissues of rat, C1541
- in respiratory and glandular tissues of rat
 - developmental patterns, C1541
 - subcellular distribution, C1549

Arachidonic acid

- bradykinin-stimulated release from Mardin-Darby canine kidney cells, C1605
- metabolism
 - airway epithelial stretch and, L1013
 - inflammatory cytokine-induced, L331
- role in afferent arteriolar response to angiotensin II, F274

L-Arginine

- and endothelial function in health and disease, E606
- and skeletal muscle blood flow, H405

Arginine-glycine-aspartic acid (RGD) sequence

- and myogenic tone in renal afferent arterioles, F768

Arginine vasopressin, see Vasopressin

Arrhythmias

- cardiac ion channel structure-function relationships and, H511
- generation, in myocardial ischemia-reperfusion, H1119
- after ischemia-reperfusion, and cardiac action of xanthine, C909
- mechanisms, in dog, H805
- in preconditioned pig hearts, H2804

intracellular macromolecules in, C360
and low-density lipoprotein binding and internalization in hepatocytes, C1409

Central nervous system, *see also* Brain
endothelin-1 in, cardiovascular effects, H1177

Cephalosporins
peptide transporter recognition of, in rat LLC-PK₁ cells, F706

Ceramides
production, in TNF-induced oxidative stress, G7

Cercartetus nanus, *see* Eastern pygmy-possum

Cerebral arteries
constriction, melatonin-induced, in rat, H1530
endothelium-dependent relaxation, tetrahydrobiopterin availability and, H718
endothelium-mediated dilation, in rat, H1472
hypoxia-induced dilation, nitric oxide and opioids in, H1807
middle
blood flow velocity, H2209
nitric oxide-synthesizing perivascular nerves in, R661
occlusion, bladder hyperactivity induced by, in rat, R1900
nitric oxide release, estrogen and, H2248

Cerebral blood flow
see also **Autoregulation, cerebral**
activity-dependent, laminar analysis of, H1166
brain injury in newborn and, H2639
estrogen and, H2248
fetal, during hypoxia, H1994
during hypotension, ATP-sensitive potassium channels in, H1342
hypoxia-induced dilation in, H1807
in meningitis, leukocytes and, H380
in newborn, near-infrared monitoring of, H682
nitric oxide and, in humans, R2005
potassium channels and, in rat, R583
regional, H1994
regulation, in rat, H878
vasoregulation in, in rat, H434

Cerebral blood volume
in newborn, near-infrared monitoring of, H682

Cerebral infarction
bladder hyperactivity induced by, R1900

Cerebral microcirculation
endothelial cyclooxygenase-2 in, C277

Cerebral vessels
ATP-sensitive potassium channels in, H878
nitric oxidergic innervation, in pig, H2192

Ceruloplasmin

effects on vasorelaxation, H2843

Cesium

and heart rate, H2155

CGP-42112

anti-inflammatory effects, C826
biochemical effects in human macrophages, C326

CGP-48506

effects in isolated rabbit heart, H2708

CGP-48664

and intestinal smooth muscle contractility, C77

CGP-42112 receptors

on human monocytes, C826

Chaenocephalus aceratus, see **Icefish**

Charybdotoxin

structural homologue of, C289

Chemokines

colonic epithelial cell, and neutrophil recruitment in ulcerative colitis, G75
gene expression, in human hepatocytes, G322
in liver disease, G602

Chemotaxis

mesangial cell
IGFBP-5 and, F899
regulation, F931
neutrophil, and oxidant-mediated lung injury, L957

Chemotherapy

and bradykinin-induced increase in macromolecular efflux from hamster oral mucosa, R1254
potentiation, C687

Chick embryo

aortic impedance, characterization, lumped-parameter models for, H19
cardiovascular development, H19
defective heart in, contractile force and calcium metabolism in, H1464
heart cell aggregates, bursting behavior during fixed-delay stimulation, C331
vascular system, arterial wave propagation in, H1523
ventricular/vascular uncoupling in, H2861

Chickens

calcium-sensing receptors, cloning, expression, and tissue localization, R1008
heart, posthatching development, R518
jejunal function, posthatching development, R1086
kidney, reptilian-type nephron, intracellular pH regulation in, R1845

Children

aerobic capacity in, E809
with congenital heart disease, left ventricular parallel conductance during cardiac cycle in, H295

Chinese hamster ovary cells

CCK-B receptor function in, C1449

Chionodraco rastrospinosus, see **Icefish**

Chloride/bicarbonate exchange

AE anion exchanger in, F1039
AE2 anion exchanger in, and distribution in kidney, F601
in bovine retinal pigment epithelium, C456
in cholangiocytes, regulation, G303

sodium-independent, in vascular smooth muscle, F1039

Chloride channels

see also **Chloride currents**

acidophilic, in humans, C384
in basolateral renal medullary membranes, F1030
calcium-activated, and early repolarization in dog ventricle, H1096
in cardiomyocytes, β -adrenergic receptors in regulation of, H1669
in cholangiocytes, and biliary secretion, G1108
ClC, cloning and functional expression of, C1176
ClC-2G(2 α), human pH- and PKA-activated, characterization, C384
conformational changes, produced by ATP hydrolysis, C1278
in fish gill cells, C874
in HeLa cells, C999
hepatocellular, activation by alanine uptake, G849
of nonpigmented ciliary epithelial cells, adenosine stimulation of, C1354
outward-rectifier, volume expansion-sensing, C755
in pancreatic duct cells, G204
potentiation by genistein, C989
protein kinase-regulated, in humans, C384
in rabbit colon, C148
rbClC-Ka, and chloride transport in medullary thick ascending limb, F1030
of small intestinal enterocytes, in guinea pig, G1141
and volume regulation, in bovine pigmented epithelial cells, C1435
volume-sensitive
characterization, C57
in rabbit kidney, F680

Chloride currents

see also **Chloride channels**

calcium-activated
in intestinal epithelial cells, ammonia effect on, C634
in smooth muscle, muscarinic signaling pathway for, C509
in vascular smooth muscle, activation by metabolic inhibition, C520
cardiac, cAMP-activated, and G_s protein, H2539
and cardiomyocyte function, in newborn rabbit, H837
in human colonic cancer cell line, C1186
in human gliomas, cell cycle modulation of, C1290
in myocytes from infarcted heart, H1386
swelling-activated
in cardiac action potential, C541
modulation by F-actin, in cardiomyocytes, C1215
volume-activated, in HeLa cells, C999
volume-sensitive, in bovine pigmented epithelial cells, C1435

Chloride ions

conductance, in secretory epithelial cells, C426
extracellular, modulation of VSOAC and halide permeabilities in HeLa cells, C999
influx, and cell death in renal proximal tubules, F869

intestinal secretion

ammonia effect on, C634
inhibition by clotrimazole, C531
secretion
in airway epithelium, C21
calcium-stimulated, in airway cells, CFTR requirement, L1208
in cystic fibrosis, studies in mouse, C734
dipeptide-induced, in proximal tubule cells, C1623
in gene-targeted mouse model of cystic fibrosis, G258
in human colonic cancer cell line, C804
transport
in airway epithelium, regulation by C-type natriuretic peptide, L1065
in renal medullary thick ascending limb, F1030
in renal proximal tubules, F179
in small intestinal villus enterocytes, G1141

Cholangiocytes

chloride/bicarbonate exchange, regulation, G303
gastrin receptors, in rats, G1061
proliferation, in response to bile acids, G518
secretion
purinergic stimulation of, in rats, G1108
regulation, G303
secretory response to bile acids, G518

Cholate

effects on high-fat diet-induced hyperglycemia and obesity, E37

Cholecystokinin

see also **Luminal cholecystokinin-releasing factor**

activation of p70^{60k} in rat pancreatic acini, C101
in brain-gut axis, in rat, R2059
effects on tyrosine phosphorylation in pancreatic acini, G1226
in lipid-induced gastric fundal relaxation, G118
and mitogen-activated protein kinase cascade, C1472
octapeptide
and carbohydrate intake, R972
and plasma alkaline phosphatase, G381
and protein intake, R972
and pancreatic secretion, in rats, G679
peptides, signal transduction, and pancreatic secretion, G735
in postprandial regulation of gastric and pancreatic lipase secretion, G374
release
dietary lectins and, in rats, G946
lipase and, G612

Cholecystokinin receptors

see also **Gastrin/CCK-B receptors**
CCK-A, vagal, and pancreatic secretion in rats, G679
CCK-B, function, cell type dependence of, C1449

Cholera toxin

effects on airway epithelial volume flow, C21

Cholestasis

cAMP synthesis in, hepatic regulation of, G164

- epithelial cell apoptosis and, G1174
during hepatic regeneration, G621
- Cholesterol**
blood/serum levels, *see Hypercholesterolemia*
esterification, in humans, during development, G62
formation, inhibition, effects on hepatic apoB-100 secretion, E462
intake, effects on vascular relaxation in spontaneously hypertensive rat, H647
intracellular transport, in retosomes, C1075
metabolism, C1075
plasma levels, in chronic renal failure, F925
synthesis, development, in humans, G62
uptake, during intestinal development in rats, dietary lipids and, G713
- Cholesterol 7 α -hydroxylase**
CYP7A gene, bile acid response elements in, G508
- Choline acetyltransferase**
in guinea pig pancreatic neurons, G1273
- Cholytaurine**
transport, in elasmobranch, G1023
- Chondrocytes**
intracellular calcium oscillations in, flow-induced, C30
- Chromaffin cells**
catecholamine secretion, angiotensin and, in trout, R49
inwardly rectifying potassium channels, cyanide suppression of, mechanism for, C137
- Chronotropism**
in diabetes, H1888
negative
of endothelin isopeptides, in cardiac muscle, H119
of ryanodine, ionic basis of, H2481
positive, C-type natriuretic peptide and, in dog, H1933
- Chrysemys picta belli**, *see Turtles*
- Chylomicron remnants**
metabolism, in smoke-exposed rats, G158
- Chylomicrons**
clearance, in chronic renal failure, F925
metabolism, in smoke-exposed rats, G158
- Chymase**
in cardiac angiotensin II formation, species considerations, H1769
- Chymotrypsin**
effects on survival of human pancreatic enzymes in small bowel, G553
survival during small bowel transit, G553
- Ciliary epithelium**
of eye
cytoplasmic pH responses in, C1700
functional coupling in, C1876
nonpigmented, chloride channels, adenosine stimulation of, C1354
pigmented and nonpigmented, coupling, C1876
- Cilostazol**
sucrose-fed diabetic rats treated with, electroretinogram in, E965
- Circadian clock**
activity-dependent entrainment
in degus, R1058
in mouse, R265
aging, responsiveness to melatonin, in mice, R1855
suppression, persistent T lymphocyte rhythms with, in rat, R1891
- Circadian pacemaker**
human, resetting response to light during subjective day, R1800
- Circadian rhythms**
see also Diurnal rhythms
of activity, social cues and, in diurnal rodent, R797
and aging, in mammals, R1957
and cardiac effects of autonomic nervous system, H1761
of cardiac output, in spontaneously hypertensive rat, H66
entrained
melatonin and, in Siberian hamster, R1540
variations in, R1058
of locomotor activity in rats, portacaval anastomosis and, G1218
in malnutrition, suprachiasmatic nucleus and, in rat, R1321
and neonatal sleep regulation, in rat, R472
neuroimmunological, under constant light or darkness, R1891
of plasma corticosterone, in rat, R153
- Circulation**
cerebral, *see Cerebral blood flow*
coronary, *see Coronary blood flow*
enterohepatic, *see Enterohepatic circulation*
hepatic, endothelin-1 and, G1036
renal, in dogs, F667
- Cirrhosis**
hepatic, and sodium transport in thick ascending limb of Henle's loop, in rat, R568
- Cisapride**
blockage of HERG human cardiac potassium channel, H2534
- Citrate**
transport, by sodium-dicarboxylate cotransporter NaDC-2, G267
- Citric acid cycle**
and anaplerosis in heart, E1228
- L-Citrulline**
conversion to L-arginine, in porcine cerebral vessels, H2192
- c-Jun NH₂-terminal kinase**
activity, in hepatic stellate cells, G804
- Clofibrate**
effects on intestinal chloride secretion, C531
- Clonazepam**
and intracellular calcium in cardiomyocytes, C37
- Clonidine**
antihypertensive effects, imidazoline receptors and, R1567, R1569, R1580
- Clostridial toxin**
protein targets in renal epithelial cells, F1054
- Clostridium difficile**
toxins
enterotoxigenicity, inhibition by IL-11, in rat ileum, G333
epidermal growth factor and, G1014
human monocyte stimulation by, IL-8 release and neutrophil activation by, G1333
- Clotrimazole**
effects on calcium-activated potassium currents in vascular smooth muscle cells, C45
inhibition of intestinal chloride secretion, C531
- Clusterin**
gene expression in rat models of autosomal dominant polycystic kidney disease, F357
- Coagulation**
gene-targeting studies, H2091
- Cocaine**
effects
on intracellular calcium in cardiomyocytes, H893
on myocardial contraction, H893
- Cold acclimation**
effects on cardiac muscle, in fish, R252
and nonshivering thermogenesis in avian muscle, R1638
serotonergic neuromodulation in, in hamster, R1291
vagus nerve and, in rat, R784
- Colitis**
Clostridium difficile, pathophysiology, G1014, G1333
lipocortin 1 expression and secretion in, R623
mucosal damage in, IL-11 effects on, G333
myoelectric and contractile activity in, G1233
pseudomembranous, pathophysiology, G1333
- Collagen**
perimysial, microstructural model of, H1576
in rat tail tendon, and macromolecular mobility in interstitium, H2794
type I, synthesis in intestinal smooth muscle, IGF-I and, G875
type IV, expression in human colonic subepithelial myofibroblasts, G1341
- Collateral conductance**
and femoral artery occlusion in rabbit, H1255
- Collateral vessels**
and femoral artery occlusion in rabbit, H1255
- Collectins**
see also Surfactant proteins
serum, anti-influenza activity, L1156
- Colon**
ENA-78 in, source of, G75
human
adrenergic effects in, G997
motor and sensory function in hyperglycemia, G859
mucosa, *Clostridium difficile* toxin-induced damage, G1014
hypoplasia, during total parenteral nutrition, G559
inhibitory action of neurotensin in, nitric oxide and, in rats, G491
mechanosensory perception, hyperglycemia and, G859
motility
in colitis, G928
serotonin and, G68

Colon (continued)

- motor function
 - adrenergic modulation of, G997
 - hyperglycemia effects on, in humans, G859
- myoelectric and contractile activity, in inflammation, G1233
- sensory function
 - adrenergic modulation of, G997
 - hyperglycemia effects on, in humans, G859
- smooth muscle, contractility, in colitis, G928
- sulfate secretion, in rabbit, C148
- tone
 - adrenergic modulation of, G997, G1135
 - hyperglycemia and, G859

Colon cancer

- chemoprotective effects of ursodeoxycholate and, G131
- epithelial cell apoptosis and, G1174

Complement

- α_1 -acid glycoprotein and, after intestinal ischemia in rats, G1031
- in liver disease, G602

Compliance

- arterial, exercise and, H2186
- pulmonary
 - cortisol effects on, L1126
 - in SP-B-deficient neonatal mice, L875
- pulmonary vascular, serotonin and, L142

Computer simulation

- of cardiac electrophysiology, H446

Congenital heart disease

- children with, left ventricular parallel conductance during cardiac cycle in, H295

Congestive heart failure, see Heart failure

Connectin

- in cardiomyocytes, C662
- in myofibrils, from rabbit, C266

Connecting filaments

- in myofibrils, from rabbit, C266

Connexins

- rat connexin43 and human connexin37 heteromeres, C1386

Contractile proteins

- cardiac
 - phosphorylation, H2415
 - remodeling, H2105
 - and cardiac hypertrophy, H1440
- gene families, C1801

Convection

- of drug, in brain, R1810

Cooling inotropy

- simulation, H2891

Copper ions

- and *apoA-I* gene expression in Hep G2 cells, C1362

Copper-zinc superoxide dismutase

- transgenic mice overexpressing, intestinal ischemia-reperfusion in, C1130

Coronary arteries

- constriction, and myocardial damage, H2508
- endothelium-dependent relaxation, gender differences in, H2325
- function, peroxide resistance of endoplasmic reticulum calcium pumps and, C1250
- membrane potential, adenosine and, H2687

- narrowing, in mouse, H2508

occlusion

- myocardial bioenergetics during, H1452
- reactivity distal to, H1879

Coronary blood flow

- see also **Coronary arteries**
- autoregulation, H257, H1299
- collateral, in myocardial ischemia, H2296
- ET-1 and, in vivo, H1239
- functional heterogeneity in, H2083
- longitudinal position matrix and, H2832
- myogenic constriction, H257
- norepinephrine-induced vasodilation in, adenosine and, H557
- oscillations, vasoconstriction and, H2746
- phasic, H2746

Coronary microcirculation

- hyperosmotic vasodilation, H104
- leukocyte accumulation in, low-flow reperfusion after myocardial ischemia and, H1154
- myogenic constriction in, H257

Coronary vasculature

- intramyocardial, triad arrangement, functional advantage of, H1003
- longitudinal position matrix, in pig, H2832
- vasodilation
 - glutathione-induced, mechanism, H1231
 - norepinephrine-induced, adenosine in, H557

Corpus cavernosum

- neurogenic pressor response of, H2141

Corticosteroids

- aquaporin 3 induction by, L1090
- effects on β - and α -adrenergic glycogenolysis in female rat liver, R153
- induction of intestinal sucrase-isomaltase gene expression, G83

Corticosterone

- dietary fat-induced increases, and hypothalamic-pituitary-adrenal axis activity, E1168
- and epithelial sodium channel expression, C1650
- response to intraperitoneal endotoxin, R1870
- in response to novel environment, in pregnant rat, R1053
- response to stress, maternal deprivation and, in adult rat, R1332

Corticotropin-releasing factor

- mRNA, food deprivation and, in Djungarian hamster, R768

Corticotropin-releasing hormone

- mRNA, diurnal rhythm in aging rat, suprachiasmatic nucleus transplants and, R1764
- transport from brain, effects on peripheral production of β -endorphin by spleen, E1083

Cortisol

- effects on fetal lung growth, L1126
- in metabolic response to stress hormone infusion, E674
- and renal hemodynamics, R1972

COS cells

- sodium-potassium ATPase, site-directed mutagenesis, C1981

Counterregulatory hormones

- in regulation of GLUT-4 and hexokinase II gene transcription, E682

C-reactive protein

- production in hepatocytes, interleukin-8 and, E720

Creatine kinase

- brain
 - effects on liver regeneration in transgenic mice, C741
 - induction, by basic fibroblast growth factor, during myogenesis, C223
- isoenzymes, effects on liver regeneration in transgenic mice, C741
- kinetics, in experimental low phosphocreatine and ATP in normoxic heart, C1397
- mitochondrial, effects on liver regeneration in transgenic mice, C741

CREB

- phosphorylation, and hepatic stellate cell activation, G1094

CRE-like response element

- mediation of $\alpha_2\beta$ -adrenergic receptor gene expression in vascular smooth muscle, H85

CRF, see Corticotropin-releasing factor

CRH, see Corticotropin-releasing hormone

Cricopharyngeus muscle

- electromechanical function of, in cat, G470

Crohn's disease

- and IGFBP-5 in intestinal smooth muscle, G875

Cross-bridge cycling

- detachment phase, H2044
- calcium dynamics in, C85
- and Frank-Starling mechanism in cardiac muscle, H2428
- kinetics, in intact heart, H1509
- power stroke and, H2044
- during unloaded shortening in myocardium, H2415

Cross-bridges

- weakly bound, in myofibrils, C266

5-CT, see 5-Carboxyamidotryptamine

Cyanide

- activation of calcium-activated chloride currents, in vascular smooth muscle cells, C520
- suppression of inwardly rectifying potassium channels in chromaffin cells, mechanism for, C137

Cyclic nucleotides

- see also **Adenosine 3',5'-cyclic monophosphate**
- and carbon monoxide production in vascular smooth muscle, H317

Cyclin

- cyclin A, in alveolar type II cells on Matrigel in presence of KGF, L572
- cyclin D, in alveolar type II cells on Matrigel in presence of KGF, L572
- cyclin D1, and lung cancer cell growth, L941

Cyclin-dependent kinase

- cdk1, in alveolar type II cells on Matrigel in presence of KGF, L572
- cdk4, in alveolar type II cells on Matrigel in presence of KGF, L572

Cyclin kinase inhibitors

- p21, downregulation, in pressure-overload hypertrophy, H1358

p21^{WAF1/CIP1}, in alveolar type II cells on Matrigel in presence of KGF, L572
 p27, downregulation, in pressure-overload hypertrophy, H1358
 p27^{KIP-1}, in alveolar type II cells on Matrigel in presence of KGF, L572
Cyclooxygenase
 activity
 airway epithelial stretch and, L1013
 and endothelium-dependent relaxation in coronary arteries, H2325
COX-2
 in cerebrovascular prostaglandin receptor regulation, in newborn pig, R1283
 cloning, gene expression and tissue distribution in rabbits, F18
 and ET-1 production by type II pneumocytes, L193
 expression, in bladder, F538
 expression, protein kinase C- ζ isoform and, C130
 and fibroblast growth, C1466
 and PGE₂ production by bradykinin, in airway smooth muscle, L1132
 in rat nephron development, F994
 upregulation, in cerebral microvascular endothelial cells, C277
 expression in human colonic subepithelial myofibroblasts, G1341
 inhibition
 and duodenal function in rats, G1077
 and nitric oxide synthesis, in human platelets, H1854
 and regional differentiation in rat aorta, H1478
 metabolites, and allergen-induced airway hyperresponsiveness, L1118
 and vasoactive properties of EETs, H333
Cyclosporin A
 effects, on kallikrein-kinin system, F783
CYP7A gene
 bile acid response elements in, G508
Cysteine
 transport, in alveolar type II cells, L1147
Cysteine S-conjugates
 activation of NF- κ B transcription factors, F136
Cystic fibrosis
 airway in
 glycosylation in, L913
 integrin receptor upregulation in, L256
 and chloride transport in lung, C384
 cholinergically mediated gland secretions and, L1208
 gene-targeted mouse models of, intestinal physiology and pathology in, G258
 mucoglycoprotein hypersecretion in, L1203
 sodium/hydrogen exchange in airway epithelia in, L148
 sweat secretory coil in, abnormal β -S cell in, C426
Cystic fibrosis transmembrane conductance regulator
 activation, L127
 by genistein, C747
 and calcium-stimulated chloride secretion in airway cells, L1208

and chloride transport in airway epithelium, regulation by C-type natriuretic peptide, L1065
 conformational changes, produced by ATP hydrolysis, C1278
 Δ F508-CFTR, potentiation by genistein, C989
 first nucleotide binding fold (NBF1), and ROMK2-CFTR interaction, F843
 FLAG epitope positioned in external loop of, and biophysical properties, C2080
 function, in cystic fibrosis and normal cells, L913
 in gene-targeted mouse model of cystic fibrosis, G258
 gene transfer studies, in mouse, C734
 immuno and functional characterization, C442
 M2-901, biophysical properties of, C2080
 R domain, phosphorylation sites, L127
 in renal epithelium, C548
 in sweat secretory coil, C426
Cystine
 transport, in alveolar type II cells, L1147
Cytochalasin D
 effects on cardiac sodium channel availability and activation, H1832
Cytochrome oxidase
 activity, in myocardial ischemia, H1544
Cytochrome P-450
 metabolite, and dilation of resistance vasculature, H1848
 signal transduction pathway, role in afferent arteriolar response to angiotensin II, F274
Cytokines
 and airway inflammation, L1020
 eccentric exercise and, E85
 effects
 on activated hepatic stellate cells, G804
 on leucine metabolism, E1052
 endothelial barrier dysfunction related to, nitric oxide and, H2565
 in Fsp1-mediated epithelial-mesenchymal transformations, F563
 gene expression
 by alveolar macrophages, in interstitial lung disease, L676
 in caerulein pancreatitis, in mice, G696
 after hemorrhagic or endotoxic shock, G314
 in human hepatocytes, G322
 human airway smooth muscle interleukin production in response to, L648
 IL-6-type, production, in human airway smooth muscle cells, L648
 induction by endotoxin and muramyl dipeptide, in guinea pig, R1529
 in intestinal inflammation, G1333
 in liver disease, G602
 mitochondria as target of, G7
 and mucosal damage in colitis, G333
 and oxidant-mediated lung injury, L957
 proinflammatory activity, R1885
 regulation, C826
 and protein synthesis in head-injured patient, E898

regulation, hyaluronic acid-specific, by uterine fibroblasts, C1151
 and T helper cell subset responses, in spontaneously hypertensive rat, cholera toxin adjuvant and, R1509
 and TNF activity, E1203
 and zymosan-induced inflammation in IL-1 β knockout mice, R400
Cytokinesis
 and posthatching development of chicken cardiomyocytes, R518
Cytomegalovirus
 and sodium/hydrogen exchange in human fibroblasts, C1739
Cytoskeleton
 and cardiac sodium channel availability and activation, H1832
 changes, during PMN deformation in pulmonary capillaries, L733
 endothelial cell, in endotoxin-induced lung injury, L217
 proximal tubule cell, disruption during reperfusion, F1003
 regulation of endothelial tight junctions, H286
 in shear stress-induced endothelial nitric oxide production, H347
 in vascular endothelium, C1764

D

Deer mice
 immunocompetence in, gender differences in, R655
Deferoxamine mesylate
 effects on microvascular permeability, H747
Degenerins
 properties of, G571
Deglutition, see Swallowing
Degus
 free-running rhythms
 and phase-response curves, R278
 social cues and, R797
 phase shifts of light-dark cycle in, R278
 reentrainment after, intraspecies variation in, R739
 rhythm chronotypes in, R1058
Dehydration
 in aging rat, R1441
 central angiotensin II receptors and, in rats, E156
 and vasopressin secretion, in rat, R35
Dehydroepiandrosterone
 protective effect against obesity and insulin resistance, in rat, R1704
Desipramine
 and norepinephrine uptake blockade, R16
Desmethylinipramine
 [³H], as molecular microsphere for measurement of nerve blood flow in diabetes, E164
Deuterium oxide
 in quantifying gluconeogenesis during fasting, E1209
Development
 and adaptation to hypoxia, in rat, R1734
 erythropoietin production and erythropoiesis during, R1829
 insulin-stimulated amino acid utilization during, in pigs, E305
 intestinal lipid enzymes during, G62

Development (continued)

intestinal transport and fluidity during, R1086

of lung, *see* **Lung, development**

renal sodium-phosphate cotransporter and, R928

sucrase-isomaltase gene regulation during, in transgenic mice, G83

Dexamethasone

and acidic pH, effects on sodium-phosphate cotransport in OK cells, F396

aquaporin 3 induction by, in airway epithelial cells, L1090

effects

on fructose metabolism, in humans, E315

on hepatic glucose production, in humans, E315

inhibition of pulmonary epithelial cell apoptosis, L921

modulation of inducible nitric oxide synthase expression, G1290

and monocyte TNF receptor expression, E1203

prenatal exposure to

and adrenocortical response in rat offspring, R1669

and brain monoaminergic system in rat offspring, R1669

regulation of epithelial sodium channel genes in human fetal lung, L227

regulation of $G_{\alpha_{11}}$ expression and PLC activity in osteosarcoma cells, E528

upregulation of sodium-potassium ATPase in rat alveolar epithelial cells, L825

Dextran

measurements of glomerular sieving coefficients, comparison to Ficoll, F430

Diabetes insipidus

aquaporin-2 expression in obstructive nephropathy, F213

TIMP-1 secretion from, L866

colonic, ENA-78, G75

gastrointestinal, apoptosis in, G1174

intestinal

see also **Intestinal cells, Caco-2**

calcium-activated chloride secretion, ammonia effect on, C634

calcium-sensing receptors in, C1168

epithelial cell kinase-B61 regulation of, G824

function, regulation of, G1341

growth and differentiation, G565, G824, G979

inducible nitric oxide synthase, ursoxycholate and, G131

intestinal growth factors and, G3, G824

migration, G824

normal and pathological, new tools for studying, G759

nuclear factor κ B activation in, C1160

response to *Vibrio cholerae* infection, G1160

T84, disruption by tyrosine phosphorylation, G812

T84, monolayers, penetration by bacterial toxin, G1349

in intestinal inflammation, G769

pH-dependent proton secretion, in swim bladder gas gland, of eel, R1719

pulmonary

apoptosis, inhibition by dexamethasone, L921

ICAM-1 expression in, *Pneumocystis carinii* and, L1103

molecular and phenotypic responses to reactive oxygen or nitrogen species, L789

SP-C endocytosis by, L159

renal

see also **Kidney cells, LLC-PK₁**

adenyl cyclase regulation in, F883

calcium signaling during osmo-mechanical stress, F120

H⁺ secretion, F1054

monkey kidney, hydroxyapatite crystal adhesion, F224

peptide transport systems, reviews, F1

PGE₂-mediated cytoprotection in, F507

polarity, F883, F1003

polarized, adenyl cyclase regulation in, F883

potassium channels, F825

rat glomerular, ZO-1 expression, F984

rat podocyte slit diaphragm, ZO-1 expression, F984

tight junctions between, C434

tracheal, sodium-potassium-chloride cotransport, C1632

Epithelial-mesenchymal transformations

Fsp1-mediated, F563

Epithelium

A6

chloride channel stimulation by prostaglandin E₂, C548

ClC chloride channels, cloning and functional expression of, C1176

sodium transport, C434

airway

calcium signaling in, L363

HSP27 in, L401

interactions with mesenchyme,

TGF- β receptors and, L355

ion transport, regulation by C-type natriuretic peptide, in mice, L1065

lining layer antioxidants, and nitrogen dioxide-induced extracellular

reactive oxygen species, L1265

osmotic water permeability, L1090

repair, integrins and, L256

repair, stimulated by neuropeptides in vivo, L1235

sodium/hydrogen exchange, in cystic fibrosis, L148

sodium/hydrogen exchanger in, distribution, L148

stretch, and prostanoid synthesis, L1013

transferrin gene expression regulation in, L417

volume transport across, C21

alveolar

adenovirus gene transfer vector targeting to, L741

cell culture, L347

Fas-dependent apoptosis in, L64

fluid clearance, and hemorrhagic shock, L296

nitrogen dioxide-induced damage, L1228

SP-A in, in guinea pig, L900

turnover, L64

bile duct, secretion in, regulation, G303
 biliary, gastrin effects on, G1061
 bronchial
 granulocyte colony-stimulating factor
 production in, in hemorrhagic
 shock, L1058
 HSP27 in, L401
 ciliary, see **Ciliary epithelium, of eye**
 colonic, *Clostridium difficile* toxin-in-
 duced damage, G1014
 esophageal, luminal hypertonicity and,
 in rabbits, G647
 gastric, calcium receptor, in *Necturus*,

 gastrointestinal, apoptosis in, G253
 gill, of seawater fish, chloride channels
 in, C874
 intact, amiloride binding sites in, C1437
 intestinal
 bacterial toxin penetration of, mecha-
 nism, G1349
 barrier function, disruption by tyro-
 sine phosphorylation, G812
 barrier function, epithelial cell ki-
 nase-B61 regulation of, G824
 neoplasia, G979
 permeability to proteins, G139
 stress and, G486
 ion transport, in endometrium, C67
 jejunal, NHE3 expression during ontog-
 eny, in rat, C1937
 lining fluid, γ -glutamyltransferase ac-
 tivity in, hyperoxia and, L537
 mammalian, histone-induced damage
 of, C1925
 nasal, ion transport, in cystic fibrosis,
 studies in mouse, C734
 nasopharyngeal, aquaporins, subcellu-
 lar distribution in rat, C1549
 pancreatic ductal, anion secretion, G204
 in promotion of diversity in small intes-
 tine, G565
 pulmonary, γ -glutamyl transpeptidase-
 related enzyme induction in, L1082
 small intestinal, chloride transport,
 G1141
 sodium channels, C434
 expression, steroid hormone-depen-
 dent, C1650
 tight, in mammal, C1925
 tight junctions, regulation, C1378
 tracheal, cell proliferation, stimulated
 by neuropeptides in vivo, L1235
 transformation to fibroblasts, Fsp1-me-
 diated, F563
 water and urea permeability, mucins
 and, F67
Epoxyeicosatrienoic acid
 cerebrovascular responses to, in neonatal
 piglets, H333
E-prostanoid receptors
 in renal epithelial cells, F507
ERK, see Extracellular signal-regu-
lated kinase
Erythrocytes
 aggregation, species comparisons,

 cellular properties, species compari-
 sons, H2604
 effects of iron supplementation on, in
 phlebotomy-induced anemia in
 newborn lamb, R2124
 filterability, regulation, C1828
 function, in dynamic exercise, in hu-
 mans, H1787

high- K^+ , volume regulation, in dog,
 R991
 and hypotonicity, at 3 atm abs air, R259
 interaction with endothelial cells, in
 diabetes, E369
 potassium-chloride cotransporter, blood
 parameters and, C1811
 production, developmental regulation,
 R1829
 urea transporters, reviews, F321
 velocity, leukocytes and, H2884
Erythroleukemia cells
 Aqp1 expression in, C1562
Erythropoiesis
 developmental regulation of, R1829
 fetal liver, changes demonstrated by
 echo-planar magnetic resonance
 imaging, G965
Erythropoietin
 developmental regulation of, R1829
 gene expression, in inflammation, in
 rat, R1067
Escherichia coli
 enteropathogenic, activation of nuclear
 factor κ B in intestinal epithelial
 cells, C1160
 verotoxin-1, penetration of intestinal
 epithelium, G1349
E-selectin
 cytokine-induced expression, inhibition
 by *N*-acetylcysteine, H817
 expression in gene-targeted mice,
 H1903
 and leukocyte-endothelial cell adhesion,
 H2490
Esophagus
 bolus transport in, dynamics of, G958
 epithelium, luminal hypertonicity and,
 in rabbits, G647
 multiple intraluminal impedancometry
 in, G958
 smooth muscle, intracellular calcium,
 regulation, C1679
Estrogen
 antihypertensive mechanisms mediated
 by, R1908
 and blood pressure, in women, H777
 and cerebral artery nitric oxide release,
 H2248
 and endometrial blood flow, H2009
 and endothelium-dependent relaxation
 in coronary arteries, H2325
 and growth hormone, effects on bone
 mass, in ovariectomized rats with
 hypophysectomy, E734
 and inducible nitric oxide production in
 rat, H506
 and lipid metabolism, in female rats,
 E355
 and nitric oxide synthase activity in fe-
 tal pulmonary endothelium, L119
 ovarian production, angiotensin-con-
 verting enzyme and, in frog, R2089
 and regulation of C-type natriuretic
 peptide gene expression, in mouse
 uterus, H2672
 and regulation of endothelial nitric ox-
 ide synthase and ET-1, H1962
Estrogen receptors
 endothelial, and estrogen-stimulated
 eNOS activity in fetal lung, L119
Estrus
 in rodents, R1683

Ethanol
 absorption, in humans, for assessment
 of ethanol metabolism, G951
 effects on thermoregulation, in mouse,
 R696
 ingestion, toxic mediators of, G184
 metabolism, human, assessment of,
 G951
Ethnicity
 and aerobic capacity in children, E809
Euglycemic hyperinsulinemic clamp
 insulin action during, rat amylin-
 (8-37) and, E859
Euthyroid sick syndrome
 cardiac function and gene expression in,
 E951
Excitatory postsynaptic potentials
 cholinergic, and rectal myenteric neu-
 rons, G49
Exercise
 aerobic, and fat metabolism and weight
 loss, in obese older women, E149
 and arterial compliance, H2186
 autonomic control after, sinoatrial de-
 nervation and, H2738
 and blood pressure, H2186
 and cardiac afferents, H1606
 dynamic, cardiovascular response to, in
 acute anemia in humans, H1787
 eccentric, and immune system, E85
 effects
 on muscle energy metabolism, C172
 on muscle protein, hyperaminoacide-
 mia and, E122
 via electrically stimulated leg cycling, in
 tetraplegic subjects, effects on body
 composition, R1072
 fat oxidation during, lipolysis and, E768
 fatty acid oxidation during, regulation
 by carbohydrate metabolism, E268
 forearm blood flow in, H2388
 functional hyperemia in, H156
 before and during gestation, effects on
 maternal and neonatal outcomes,
 in diabetic rats, E727
 glucose turnover during, plasma volume
 and, E297
 glycerol turnover during, plasma vol-
 ume and, E297
 glycogen-lowering, and fat oxidation
 change in response to high-fat diet,
 E623
 and gut and liver proteolysis in dogs,
 E1073
 heart rate variability during, power
 spectral analysis of, effect of auto-
 nomic blockade on, R495
 hepatic glucose production during, he-
 patic adrenergic stimulation and,
 E831
 intense, glucoregulation during, in hu-
 mans, E348
 and leucine kinetics, in healthy human
 males, E394
 muscle blood flow during, H405
 muscle fructose transport and GLUT-5
 in, E543
 and muscle glucose transport, E220
 muscle glycogenesis after, in humans,
 E416
 and muscle IGF-I protein, in rat, R1557
 muscle metabolism during, ^{31}P mag-
 netic resonance spectroscopy of,
 R999

Exercise (continued)

- muscle temperature in, and metaboreflex, H2436
- nocturnal, and phase shifts of human circadian rhythms, E536
- plasma volume during, and substrate turnover, E297
- pressor reflex, H2899
- regional blood flow during, in canine heart failure model, H2452
- regulation of glucose transport in skeletal muscle, E1039
- resistance, muscle protein synthesis and breakdown after, E99
- substrate metabolism during, in elderly, E655
- tachycardia caused by, modulation by vasopressin in nucleus of solitary tract, R1271
- treadmill regimen, for identification of cardiovascular phenotypes in transgenic mice, H1595
- vasodilation during, H2186
- voluntary, cholinergic modulation during, in cat, R393
- weight-lifting, and skeletal muscle hyperplasia, in rat, C246

Exercise training

- and blood pressure, in women, H777
- endurance, and cardiac calcium current characteristics, H1193
- hemodynamic effects in spontaneously hypertensive rat, H2627
- and induction of endothelial cell nitric oxide synthase, H2575
- and reflex cardiac autonomic control, H2613

Exocytosis

- and H⁺ secretion in renal epithelial cells, F1054
- regulated, in pancreatic acini, G655

Exosurf

- enhancement of adenovirus gene transfer vector targeting, L741

Extracellular fluid volume

- chronic changes in, renal adaptations to, F892

Extracellular matrix

- bone, IGFBP-5-(201-218) and, E1005
- fibronectin deposition into, adrenal hormones and, L86
- IEC-6 cell attachment to, polyamines and, G175
- in intestinal inflammation, G769
- and mast cell adhesion, C179
- proteins, expression in human colonic subepithelial myofibroblasts, G1341
- sulfation, by type II pneumocytes in culture, L840

Extracellular signal-regulated kinase

- see also* **Mitogen-activated protein kinase**

- activation, during lung tissue injury, L459
- activity, in hepatic stellate cells, G804
- in apoptosis by asbestos and H₂O₂, L1029

Eye

- see also* **Iris**

- blood flow to, nitric oxide and, in humans, R2005
- ciliary epithelium, functional coupling in, C1876

- corneal endothelium, fluid and ion transport in, C1480
- pigmented ciliary epithelium, *see* **Ciliary epithelium, of eye**
- retinal pigment epithelium
 - bovine, intracellular pH regulation in, C456
 - bovine, potassium currents, C790
 - bovine, volume regulation in, C1435
 - calcium modulation of myo-inositol transport in, protein kinases and, C671

Ezrin

- dysfunction, initiation by unopposed phosphatase action, C710

F

Fanconi's syndrome

- pathophysiology, F790

Fas

- expression in pulmonary alveolar type II cells, L64
- pulmonary epithelial cell apoptosis induced by, inhibition by corticosteroid, L921

Fasting

- see also* **Food deprivation**
- gluconeogenesis during, quantification, E1209
- and gut and liver proteolysis in dogs, E1073
- and plasma leptin levels, in mouse, R113
- plasma leptin responses to, E644
- potassium excretion in, F796

Fat, body

- see also* **Adipose tissue; Obesity**
- effects on heart rate spectral analysis with glucose load, E471
- and metabolic response to exercise, E768
- response to partial lipectomy, in hamster, R2117

Fat, dietary

- satiation potential, in rat, R1916

Fatigue, muscle

- and energy metabolism, C172
- extracellular potassium and, C598
- in fast-twitch skeletal muscle, of rabbit, C297

Fat-storing cells

- hepatic, *see* **Liver, stellate cells**

Fatty acid-binding protein

- and cytoplasmic codiffusion of fatty acids, C859
- hepatic, expression, regulation, G289
- small intestinal, expression, regulation, G289

Fatty acid ethyl esters

- in vivo metabolism, in rats, G184

Fatty acids

- cytoplasmic codiffusion of, C859
- facilitated cytoplasmic transport of, C859
- free
 - fatty acid ethyl ester hydrolysis to, G184
 - kinetics, in response to isoproterenol, in women, E108
 - metabolism, renal, E650
- hepatic, pressor mechanisms of, R324
- inhibition of heparin-releasable LPL, in myocardial cells, E759
- kinetics, in fish, R2046

- metabolism, in cultured renal cells, C1732
- omega-3, oral delivery, G184
- oxidation
 - blockade, development of independent ingestive responding to, in rat, R1649
 - during exercise, regulation by carbohydrate metabolism, E268
 - hepatic, and food intake, R442
 - in rat skeletal muscle, AICA ribose and, E1107
- plasma levels, in high-fat fed rats, E1168
- regulation of fatty acid-binding protein expression in small intestine, G289
- transplacental transport, C1596
- uptake, in dysfunctional myocardium, H2473

Feeding

- see also* **Food intake**

- leptin-mediated effects and, E202
- lipoprivic, ontogeny in rat, R1649

Feeding behavior

- see also* **Food intake**
- in lean and obese rat, neuropeptide Y release and, R2112
- regulation, in rat, R972
- stimulation by cAMP, R838

Female protein

- in Turkish hamster, R934

Females

- see also* **Gender differences**

- interstitial glycerol in subcutaneous adipose tissue in, E1033
- lipid deposition in, steroid hormones and, in rats, E355
- postmenopausal, exercise, weight loss, and fat metabolism in, E149
- regional lipolytic responses to isoproterenol in, E108

Femoral artery

- occlusion, angiogenesis with, H1255

Ferrets

- cardiomyocytes, effect of cocaine and methylecgonidine on, H893
- capillary muscles, length and calcium sensitivity, H1068
- vascular smooth muscle cells, calcium-activated potassium currents, inhibition by clotrimazole, C45

Ferritin

- gene expression, G636
- regulation by intracellular iron, G275

Fertility

- critical fatness hypothesis, E231

Fetus

- arterial and cardiopulmonary baroreflexes, ontogeny, R457
- cerebral blood flow, during hypoxia, H1994
- growth restriction
 - in rat, R1031
 - in sheep, R1094
- human
 - liver changes demonstrated by echoplanar magnetic resonance imaging, G965
 - noninvasive assessment, G965
- hypoxia, cardiovascular response to, H2351
- lung
 - elastin gene expression in, L410
 - epithelial sodium channel genes, glucocorticoid regulation of, L227

glycogen phosphorylase isozyme expression in, L389
 growth, cortisol effects on, L1126
 insulin-like growth factor binding protein expression, L1174
 maturation, glucocorticoid-induced, L1048
 mesenchymal cells, EGF mitogenesis in, transforming growth factor- β isoforms and, L374
 surfactant utilization by, L55
 transitional circulation, estrogen and, L119
 uptake of intra-amniotic surfactant, L55
 malformations, nitric oxide-independent, in rat, R1031
 mammalian
 growth, E336
 heart rate regulation in, adenosine A_1 receptors in, R1374
 hypoxemic, cardiac β -adrenergic receptor function in, R2022
 hypoxemic, growth, R1094
 iodine uptake by thyroid in, E1121
 metabolism, during norepinephrine infusion, E336
 nutrition, and insulin signaling in adipocytes, E46
 pressure-overload cardiac hypertrophy, angiotensin II in, R1501
Fever
 adjuvant arthritis and, in rat, R1550
 circumventricular organs and, R1690
 endotoxin-induced
 attenuation by PKC inhibitors, in rat, R873
 in guinea pig, R1529
 heat stress and, R858
 hypothalamic-pituitary-adrenal axis in, in pig, R1046
 vagus nerve and, in rat, R407, R777
 vasopressin in, in pig, R1046
 IL-1 β -induced, in vagotomized rat, R1246
Fibrinogen
 colocalization with gold-labeled LDL on platelets, C118
 synthesis, in head-injured patient, E898
Fibroblast growth factor
 acidic, in lung fibrosis, L451
 basic
 induction of BCK during myogenesis, C223
 in myocardial vascular smooth muscle cells, H628
 secretion by ureteric bud, F757
 vascular smooth muscle cell responsiveness to, in cirrhotic rats, G883
Fibroblast growth factor receptors
 in pulmonary fibrosis, L451
Fibroblasts
 adventitial, in bovine pulmonary artery, growth, PKC isozymes in, L1276
 growth, regulation, C1466
 human uterine, hyaluronic acid-specific regulation of cytokines, C1151
 isolated from spheroids, mitochondrial function, C1487
 neonatal rat lung, gene expression, peroxisome proliferators and, L1249
 normal rat kidney, calcium action potentials, propagation, C1900
 proliferation, in fetal rat lung, hyperoxia and, L726

sodium/hydrogen exchange, cytomegalovirus infection and, C1739
 Swiss 3T3, CCK-B receptor function in, C1449
 synovial, electrophysiology of, interleukin-1 β and, R1822
Fibroblast-specific protein
 Fsp1
 antisense oligomers, effects on cell motility and phenotype, F563
 in epithelial-mesenchymal transformations, F563
Fibronectin
 and bronchial epithelial cell attachment and survival, L684
 effects on activated hepatic stellate cells, G804
 expression in human colonic subepithelial myofibroblasts, G1341
 mast cell adhesion to, C179
 release, in airway epithelial cells, L701
 synthesis, adrenal hormones and, L86
Ficoll
 in measurements of glomerular sieving coefficients, comparison to dextran, F430
Finite element analysis
 of cardiac mechanics, in dog, H1968
 of drug transport in brain, R1810
 of mechanical blood-tissue interaction in skeletal muscle, H1587
Fish
 cardiac muscle, effects of thermal acclimation on, R252
 saltwater, gill, chloride channels in, C874
Fitness
 in children, E809
'Flipase'
 in hepatocyte membranes, G1312
Flora, see Bacteria
Fluid balance
 in aging rat, R1441
 myocardial, and mechanical workload of heart, H271
Fluid-electrolyte balance
 renal potassium excretion and, F825
Fluid flow
 effects on intracellular calcium, in chondrocytes, C30
Fluid intake
 dorsomedial medulla and, in rat, R1299
14(R,S)-Fluoro-6-thia-heptadecanoic acid
 18 F-labeled, as probe of fatty acid uptake in dysfunctional myocardium, H2473
Flutamide
 and organ function in males, after trauma-hemorrhage, H2919
Focal adhesion kinase
 p125, and ionomycin-induced endothelial cell barrier dysfunction, L172
Follicle-stimulating hormone
 photoperiod and, in hamster, R2032
 serum level, effects of age on, in men and women, E989
Food deprivation
 see also **Fasting**
 effects on hypothalamic neuropeptide Y and corticotropin-releasing factor mRNA, in Djungarian hamsters, R768

Food intake
 see also **Fasting; Feeding; Feeding behavior; Meal size; Satiety**
 adverse effects of intestinal infusion of sodium oleate, R1779
 dorsomedial medulla and, in rat, R1299
 endotoxin and IL-1 β and, in rat, R1193
 and hepatic vagal afferent activity, R442
 immune changes after, in humans, R548
 and intestinal apolipoprotein A-IV production, R981
 macronutrient-induced satiety and, in rat, R1916
 plasma leptin responses to, E644
 prepiriform cortex and, R554
 regulation, R833
 hepatic vagal afferent activity and, R442
 in response to partial lipectomy, in hamster, R2117
 restraint stress effects on, time of day and, in rat, R1612
 restriction, effects on cardiac mechanics, H2333
Food intolerance
 and intestinal transport of undegraded proteins, G139
Formate
 exchange during chloride transport in proximal tubules, F179
Fos
 and baroreflex sensitivity, H2200
 expression
 in locus ceruleus, dorsal vagal complex, and paraventricular nucleus, in response to intestinal lipid, in rat, R2059
 in rat stomach, G661
 in myenteric neurons, after activation of motor activity, G498
Fractals
 and chaotic agonist-induced vasomotion, H909
 and middle cerebral artery flow velocity, H2209
 and ventricular response to atrial fibrillation, H2811
Frank-Starling mechanism
 in cardiac muscle, H2428
Frogs
 esophagus, mucociliary cell membranes, sodium-potassium ATPase in, C1842
 ovary
 prostaglandin production, modulation by ACE and angiotensin II, R2089
 steroidogenesis, modulation by ACE and angiotensin II, R2089
 ryanodine receptors, niflumic acid and, C1588
 skeletal muscle, sarcoplasmic reticulum, C1588
 skin, basolateral membrane capacitance in, potassium transport and, C1995
Fructose
 metabolism, dexamethasone and, in humans, E315
 transport, muscle, and GLUT-5 protein, E543
 uptake, during intestinal development in rats, dietary lipids and, G713

Fructose 1,6-bisphosphate
and hepatocyte permeability to potassium, C473

FTHA, *see* **14(R,S)-Fluoro-6-thia-heptadecanoic acid**

Fundulus heteroclitus, *see* **Killifish**

Fura 2
intracellular calcium reporting
in myenteric neurons, G1359
in rat trabeculae, C2046

Fura Red
observations of calcium transient alterations in blood-perfused heart using, H2161

Furosemide
airway relaxation induced by, L211

G

GABA, *see* **γ -Aminobutyric acid**

Galanin
localization in sympathetic neurons of dog liver, E1194

Gallus domesticus, *see* **Chickens**

Gas chromatography-mass spectrometry
of neutrophil-mediated lipid peroxidation, C653

Gastric, *see* **Stomach**

adenylyl cyclase, in rat kidney, age and, C323
alkaline phosphatase, in response to skeletal unloading, E1133
angiotensinogen, in adipose tissue, R236
AT₁ receptor, in vascular smooth muscle cells, H655
bcl-2, in transfected Madin-Darby canine kidney cells, F300
brain natriuretic peptide, in heart, regulation by stretch and ET-1, H2678
calcyclin, in acute ischemic kidney failure, F380
carbonic anhydrase IV, in carbonic anhydrase II-deficient mice, F234

c-fos
in caerulein pancreatitis, in mice, G696
in response to skeletal unloading, E1133
and signal transduction in gastric acid secretion, G1263

clusterin, in rat models of autosomal dominant polycystic kidney disease, F357

c-myc, hepatic stellate cell activation and, G1094

COX-2, in rabbit tissues, F18

C-type natriuretic peptide, in mouse uterus, regulation by estrogen, H2672

cytokine
after hemorrhagic or endotoxic shock, G314
in human hepatocytes, G322
differential, induced by dietary phosphate, F801

Egr-1, in murine renal medullary cells, hypotonicity and, F837

elastin, in lung, endogenous retinoids and, L410

endothelial cell nitric oxide synthase, in exercise-trained pig, H2575

endothelin-1, in heart failure, in rat, H1727

erythropoietin, in inflammation, in rat, R1067

in euthyroid sick syndrome, E951

Fas, in alveolar type II cells, L64

fatty acid-binding protein, regulation, G289

ferritin, G636

glucose-6-phosphatase
in mice, IL-6 and, E262
sepsis-induced depression of, in rat, R1709

glucose transporter, IGF-I effects on, in diabetic rats, F27

GLUT-1, in L6 muscle cells, E68

GLUT-3, in L6 muscle cells, E68

GLUT-4, in rat skeletal muscle, E682

glutamine synthetase, in endotoxemia, L1182

heme oxygenase
in caerulein pancreatitis, in mice, G696
induction by nitric oxide, L980
in vascular smooth muscle, H317

hexokinase II, in rat skeletal muscle, E682

HSP-72, induction by hyperosmotic stress, inner medullary collecting ducts, transgenic mice, F9

IL-10, by alveolar macrophages, in interstitial lung disease, L676

inducible nitric oxide synthase
endotoxin-mediated, H164
glucocorticoids and, G1290

insulin-like growth factor-I, after training, in rat, R1557

interleukin, in caerulein pancreatitis, in mice, G696

intestinal epithelial cell, G979

matrix Gla protein, TGF- β 1-induced, in embryonic lung culture, L282

metallothionein, in caerulein pancreatitis, in mice, G696

myoglobin, in heart tissue, and cardiac performance in icefish, R100

myosin heavy chain
in low-T₃ syndrome, E951
regulation in neonatal rat heart cells, C394

natriuretic peptide receptor, in rats with DOCA-salt hypertension, C1427

in neonatal rat lung fibroblasts, peroxisome proliferators and, L1249

neuronal nitric oxide synthase, C1868

nitric oxide synthase, in rat, R905

osteocalcin, in response to skeletal unloading, E1133

phospholipase A₂, transcriptional regulation in hepatic sepsis, G706

p27^{Kip1}, glucose effects on in mouse models of diabetic nephropathy, F348

platelet-activating factor receptor, cAMP effects on, in rat mesangial cells, F445

sarcoplasmic reticulum calcium-binding protein, in low-T₃ syndrome, E951

sodium-potassium ATPase, in vascular smooth muscle cells, C1088

SP-A
in guinea pig lung, L900
in silica-treated rats, L395

sucrose-isomaltase, regulation in transgenic mice, G83

TGF- β receptor, in rat kidney development, F386

tissue plasminogen activator, in endothelial cells, C1441

transferrin, regulation during lung development and injury, L417

transin, in hepatic stellate cells, G804

tumor necrosis factor- α , by alveolar macrophages, in interstitial lung disease, L676

uncoupling protein, leptin and, E226

vascular endothelial growth factor, uteroplacental, in pregnancy, H938

villin, controlled spatiotemporal expression of, G759

Zis, in juxtaglomerular cells, F731

Gene promoters

laminin γ 1-chain gene, multiple transcription initiation sites, F411

Gene-targeting studies

of blood vessel formation, H2091
of cardiac contractile protein remodeling, H2105
of cardiovascular disease, H2091
of endothelial cell adhesion molecule expression in mouse, H1903
of phospholamban, in mice, C1

Gene therapy

cationic liposome-mediated transfection and, H387
lung-directed, L256, L741
for restenosis, H2091
SECR-mediated gene transfer system and, G545

Gene transfer

by cationic liposome-mediated transfection, H387
of endothelial nitric oxide synthase, H265
normalization of ion transport in murine cystic fibrosis nasal epithelium, C734
receptor-mediated, in hepatoma cell line, G545

Genistein

cystic fibrosis transmembrane conductance regulator activation by, C747
potentiation of Δ F508-CFTR channel activity, C989

Gerbils

vestibular dark cells, P_{2U} receptor inhibition of potassium secretion in, C2022

Gestation, see Pregnancy**Glioblastoma**

chloride currents in, C1290

Gliquidone

action, modulation by forskolin, E52

Glomerular filtration rate, see Kidney, glomerular filtration rate**Glomeruli, see Kidney, glomerulus****GLP, see Glucagon-like peptides****Glucagon**

circulating, changes, and hepatic glucose disposition, E488
effects on hepatic glycogenolysis, inhibition, and gluconeogenesis, E868
and glucoregulation during intense exercise, in humans, E348
and nonshivering thermogenesis in avian muscle, R1638
in response to endotoxin, sensory nerves and, E228
secretion, effect of gliquidone on, E52

Glucagon-like peptides**GLP-1**

effects on gastric emptying, G920
inhibition of gastric emptying, E981
insulinotropic effects, E981

GLP-2

human [Gly²], and intestinal response to growth factors, G1252
intestinal growth-promoting properties, in mice, E77
intestintrophic properties of, G3, G1252
prevention of gut hypoplasia during TPN, G559
upregulation of jejunal SGLT-1 transport activity, R1965

Glucocorticoid receptor

membrane, in human leukemic cells, cell cycle regulation of, E571

Glucocorticoids

in developmental expression of IGF system in lung, L1174

effects

on fructose metabolism, in humans, E315
on hepatic glucose production, in humans, E315
and epithelial sodium channel genes in human fetal lung, L227
and glutamine synthetase gene expression in septic lung, L1182
and lipid metabolism, in female rats, E355
lymphocytolysis, E571
modulation of inducible nitric oxide synthase expression, G1290
plasma levels, in high-fat fed rats, E1168
prenatal exposure to
and adrenocortical response in rat offspring, R1669
and central monoaminergic systems in rat offspring, R1669
and pulmonary epithelial cell apoptosis, L921
regulation of $G\alpha_{q-11}$ expression and PLC activity in osteosarcoma cells, E528
regulation of renal medulla urea transporter, F949
and surfactant components, in immature lambs, L1048
upregulation of taurocholate uptake in ileum, G197

Glucokinase

and hepatic glucose production, E743

Gluconeogenesis

during fasting, quantification, E1209
glucokinase and, E743
in response to stress hormone infusion, E674

Glucose

absorption, in chronic ileitis, G913
and cardiac glucose transporter regulation, H1309
cycling, glucokinase and, E743
energy production from, in rat small intestine, G968
extracellular, and cardiac excitation-contraction coupling, H2876
gastric emptying of, gastric branch vagotomy and, R1786
hepatic disposition, glucagon changes and, E488
hepatic production
abnormal regulation of, by hyperglycemia, glucokinase and, E743
dexamethasone and, in humans, E315
in dogs, E1194
during exercise, hepatic adrenergic stimulation and, E831
in hypoglycemia, E1178
modeling, E192
portal and peripheral insulin action on, E972
reproducibility, E192
homeostasis
regulation, lactate in, R2072
in sepsis, R1709

induction of mesangial cell hypertrophy, mouse models of diabetic nephropathy, F348

infusion, tissue-specific adaptations to, in rats, E1

ingestion, heart rate spectral analysis after, E471

insulin secretory bursts in response to, quantification, deconvolution methodology, E908

intragastric infusion, gastric emptying during and after, gastric branch vagotomy and, R1786

kinetics, in fish, R2046
local cerebral level, determination, E839

metabolism

amylin-(8-37) and, in rats, E859
assessment, two-compartment minimal model intravenous glucose tolerance test for, E1024
cerebral, dynamic magnetic resonance spectroscopy of, E1216
in diabetic rats, effects on maternal and neonatal outcomes, E727
during exercise, E268
in insulin-resistant skeletal muscle, differential effects of lipoic acid stereoisomers on, E185
intramuscular, in rats, E139
in postpubertal rat, R1534
in rats with liver cirrhosis, IGF-I effects on, E1189
renal, E650
sensory nerve involvement in, E328
in skeletal muscle, lithium vs. insulin action on, E514

plasma levels

see also **Hyperglycemia; Hypoglycemia**

in high-fat fed rats, E1168

production

during fasting, E1209
in humans, E284
during intense exercise, in humans, E348

in response to endotoxin, sensory nerves and, E328

in regulation of glycogen synthase, in rats, E479

transport

in adipocytes, E254
cerebral, dynamic magnetic resonance spectroscopy of, E1216
in insulin-resistant skeletal muscle, E185
in muscle, epinephrine and, C1082
in muscle, exercise regulation of, E1039
in muscle, exercise-stimulated, nitric oxide and, E220
in muscle, protein kinase C activation and, E28

turnover

during exercise, plasma volume and, E297
in humans, E284

uptake

by heart, during and after ischemia, insulin and, H2170
during intestinal development in rats, dietary lipids and, G713
in jejunum, during posthatching development in chicken, R1086

Glucose (continued)

- in response to endotoxin, sensory nerves and, E328
- utilization, cerebral, determination, E839
- and vascular endothelial growth factor expression, H2224
- α -D-Glucose pentaacetate**
 - insulinotropic action, E1090
- Glucose-6-phosphatase**
 - activity, sepsis-induced depression of, in rat, R1709
 - gene expression
 - in mice, IL-6 and, E262
 - sepsis-induced depression of, in rat, R1709

Glucose tolerance

- impaired, postmenopausal women with, insulin secretion in, E701

Glucose tolerance test

- intravenous, two-compartment minimal model, E1024

Glucose transporters

- see also **Sodium-dependent glucose transporter**

GLUT-1

- expression, in L6 muscle cells, E68
- placental, developmental increases in, in sheep, R1132
- regulation in cardiac muscle in vivo, H1309

GLUT-3

- expression, in L6 muscle cells, E68
- placental, developmental increases in, in sheep, R1132

GLUT-4

- gene transcription, regulation of, E682
- in muscle, E1039
- in muscle, electrical stimulation and, E688
- in muscle, epinephrine and, C1082
- regulation in cardiac muscle in vivo, H1309
- sarcolemmal, and exercise, E220
- translocation, and cardiac insulin signaling in obesity, E59
- translocation, protein kinase C activation and, E28

GLUT-5

- in brush-border membranes, R1965
- muscle fructose transport and, E543
- cardiac, regulation in vivo, H1309
- expression, in L6 muscle cells, regulation, E68
- gene expression, IGF-I effects on, in diabetic rats, F27
- in heart and skeletal muscle, with chronic hypoxia, in rat, R1734

Glutamate

- and cysteine and cystine uptake in alveolar type II cells, L1147
- cytotoxicity, protection against, by thiol antioxidants, R1771
- and excitatory drive of rostral ventrolateral medullary neurons, R487
- in rat suprachiasmatic nucleus, vitamin B₁₂ and, R359
- stimulation of diagonal band of Broca, cardiovascular responses to, H540
- transport, in regulation of renal glutaminase flux in vivo, E521

Glutamate transporter

- EAAC1, localization in rat kidney, F1023

Glutaminase

- phosphate-dependent, in rat neutrophils, C1124

Glutamine

- conversion to glutamate, renal glutaminase flux and, E521
- energy production from, in rat small intestine, G968
- status, in muscle, in burn-injured rats, ornithine α -ketoglutarate effects on, E557
- uptake, renal glutaminase flux and, E521
- utilization in rat neutrophils, C1124

Glutamine synthetase

- gene expression, in endotoxemia, L1182

γ -Glutamyltransferase

- activity
 - hyperoxia-induced changes in, L537, L548
 - renal ischemia and, F849

γ -Glutamyl transpeptidase-related enzyme

- in tracheal cells, L1082

Glutathione

- and anoxia tolerance, in turtle, R219
- and catalase, in sinusoidal liver cells, G1304
- coronary vasodilation caused by, mechanism, H1231
- intestinal synthesis of, in piglets, E408
- in lung, hyperoxia and, L537, L548
- transport, in mitochondria, G7

Glutathione peroxidase

- and endothelial permeability, C1581
- and late preconditioning against myocardial stunning, H1651

Glutathione reductase

- and late preconditioning against myocardial stunning, H1651

Glycerol

- interstitial, in subcutaneous adipose tissue, in women, E1033
- production, in adipose tissue, E584
- turnover, during exercise, plasma volume and, E297

Glycerophosphorylcholine

- effects on aldose reductase activity, F1048

Glycine

- cytoprotective effects against hypoxic injury, C1783

Glycocalyx

- and microvascular blood flow resistance, H2272

Glycogen

- and adaptation to high-fat diet, E623
- depletion, in exercise, C172
- metabolism, glucokinase and, E743
- and myocardial ischemia, H2170
- and postischemic cardiac performance, H1187
- in response to endotoxin, sensory nerves and, E328
- synthesis
 - glucagon changes and, E488
 - insulin-mediated, in postpubertal rat, R1534
 - in muscle, after exercise, in humans, E416
 - in muscle, with cirrhosis, IGF-I effects on, E1189
 - in rats, in vivo, E139
 - in skeletal muscle, lactate and, R2072

Glycogenolysis

- change from β - to α -adrenergic, induced by corticosteroids, R153
- in fetal lung development, L389
- hepatic, in response to stress hormone infusion, E674
- with sucrose feeding, E17
- in uremia, E17

Glycogen phosphorylase

- isozymes, expression in developing rat lung, L389

Glycogen phosphorylase α

- hepatic activity, in uremia, E17

Glycogen synthase

- activity
 - glucagon changes and, E488
 - hepatic, in uremia, E17
 - in rat skeletal muscle, lithium action on, E514

Glycolysis

- activation, in human muscle, C306
- in isolated rat enterocytes, G968
- muscle
 - lactate and, R2072
 - in rats, in vivo, E139
 - and myocardial ischemia, H2170
 - palmitate and, in cultured renal cells, C1732
 - in postpubertal rat, R1534
 - in vascular endothelial cells, C205

Glycosaminoglycans

- and vascular wall mechanics, H952

Glycosylation

- in cystic fibrosis and normal cells, L913

G δ -6976

- and inotropic responses of neonatal rat heart, H1113

Goblet cells

- mucin secretion, protein kinase C and calcium activation of, L201
- trefoil peptide expression and secretion, regulation, G348

Golden hamster, see Hamsters, Syrian

Goldfish

- anoxia in, and calcium homeostasis in hepatocytes, R307

Gonadotropin-releasing hormone

- photoperiod and, in hamster, R2032

GP515

- attenuation of hepatic leukocyte adhesion after hemorrhagic hypotension, G1297

G protein-coupled receptors

- downregulation, G586
- signal transduction by, G586
- desensitization, G586

G protein receptor kinase

- expression, during development of heart failure, H707
- rat GRK6 splice variants, molecular cloning of, C953

G proteins

- in adenyl cyclase system in brown adipose tissue, triiodothyronine administration and, E247
- and cardiac calcium current inhibition, H250
- coupling to calcium-sensing receptors, F129
- G α_{q-11} , expression in osteosarcoma cells, glucocorticoid regulation of, E528
- G β_1 , downregulation, and insulin resistance in adipocytes, E254
- histamine H₂-receptor and, G987

- mediation of lipoprotein-stimulated surfactant secretion in alveolar type II cells, L634
- mRNA expression, in renal vasculature, in hypertension, F877
- in muscarinic signaling pathway in smooth muscle, C500, C509
- in neuroblastoma cells, C612
- and norepinephrine receptor function in rat aorta, H279
- opening of nonselective cation channels through, in smooth muscle cells, C500
- pertussis toxin-sensitive, H1669
- in atrial cells, H1745
- renal dopamine DA₁ receptor coupling with, in rat proximal tubules, F53
- Rho, in cAMP-induced actin stress fiber disassembly, in rat glomerular mesangial cells, F283
- signaling, in vascular smooth muscle cells, C1241
- and signal transduction in pancreatic acini, G1226
- stimulatory (G_s)
- in osteoblasts, aging and, E776
- and reduction in mechanical response to β -agonists in tracheal smooth muscle, L556
- in regulation of cardiac chloride current, H2539
- Granulocyte colony-stimulating factor**
- production in bronchial epithelium, in hemorrhagic shock, L1058
- Granulocyte macrophage colony-stimulating factor**
- enhancement of lung growth and type II cell hyperplasia, L715
- and surfactant metabolism, L709
- Gravity**
- and regional pulmonary perfusion, in rabbit, R1465

- H-89**
- effects on free cytosolic calcium in clonal gonadotrophs, E850
- Haemophilus influenzae type b**
- meningitis, cerebral autoregulation and hyperemia in, H380

Hair cells

mammalian type I vestibular, sodium-potassium-chloride cotransporter in, C1972

Haloenol lactone suicide substrate

effects on apical angiotensin II-mediated PLA₂ activity, F554

Halothane

and calcium homeostasis in airways, C868
and calcium sensitivity in airway smooth muscle, L80
and fura 2 reporting of intracellular calcium in rat trabeculae, C2046
and nitric oxide and endothelium-derived hyperpolarizing factor in microcirculation, H618
and parasympathetic reflex vasodilation, in cat, R168
pharmacology, L80

Hamsters

cardiomyocytes, voltage-dependent calcium currents, inhibition by extracellular ATP, H250
cheek pouch arteriole, cumulative conducted dilation in, H310
cholestasis in, hepatic regulation of cAMP synthesis in, G164
circadian rhythm of activity in, age-related fragmentation of, R2124
cold-acclimated, serotonergic neuromodulation in, R1291
Djungarian, food deprivation in, effects on hypothalamic neuropeptide Y and corticotropin-releasing factor mRNA, R768
Golden, *see* **Hamsters, Syrian**
gonadotropin-releasing hormone mRNA-containing cells, photoperiod and, R2032
hibernating
mesenteric arterial tone in, control of, H148
serotonergic neuromodulation in, R1291
oral mucosa, microcirculation in, R1254
partial lipectomy in, fat pad-specific responses to, R2117
Siberian
effects of midline thalamic lesions in, R226
nonphotic zeitgebers, R1540
skeletal muscle ischemia-reperfusion injury in, H989
Syrian, and Turkish hamster, comparisons, R934
Turkish
female protein, amyloidosis, and hormonal carcinogenesis in, R934
and Syrian hamster, comparisons, R934

Haptotaxis

alveolar epithelial cell migration by, L134

Head injury

muscle and liver protein synthesis after, E898

Heart

rat model, G1218

Hepatic growth factor

and branching tubulogenesis in embryonic kidney, F463

Hepatocyte growth factor

elimination mechanisms, in rats, E891
receptor-mediated endocytosis of, E891
uptake, E891

Hepatocyte nuclear factor-1 α

guanylin gene transcription regulation by, G833

Hepatocytes

acute-phase protein production, interleukin-8 and, E720
bile salt transporters, regulation during hepatic regeneration, G621
calcium and potassium homeostasis in, during anoxia, R307
canalicular plasma membrane, phosphatidylcholine transport across, G1312
cell death, ATP depletion and, C479
cytosolic calcium, in axolotl, C1526
glucagon-induced cAMP synthesis, regulation by bile acids, G164
inducible nitric oxide synthase gene expression, glucocorticoids and, G1290
and inflammatory response in liver, G322
low-density lipoprotein binding and internalization, osmolarity and, C1409
LPS-stimulated, antioxidant status in, G1304
membranes, ATP-independent long-chain phosphatidylcholine translocator in, G1312
metabolic downregulation, C473
permeability to potassium, fructose 1,6-bisphosphate and, C473
pH, extracellular, and hepatocellular damage, G1118
pH-dependent reperfusion injury, mitochondrial permeability transition in, C1783
purine metabolism in, regulation, G239
sodium-taurocholate cotransport, regulation, G842

Hepatoma cells

model of oxidant stress-induced cellular necrosis, AP-1 activation and, G795
SECR-mediated gene transfer into, G545

HERG

blockage, by cisapride, H2534

Hexamethylenetetramine

in estimating gluconeogenesis during fasting, E1209

Hexanoate

oxidation, in diabetic rat heart, H52

Hexokinase II

gene transcription, regulation of, E682

Hibernation

mammalian, ischemia tolerance in, R1861
metabolic rate reduction during, in marsupial, R2097

serotonergic neuromodulation in, in hamster, R1291

High-density lipoproteins

HDL₂, levels, caloric restriction and, E714

stimulation of surfactant secretion in alveolar type II cells, G proteins and, L634

Hindlimb suspension

and cytosolic calcium, in rat vascular smooth muscle, H2867

Histamine

calcium response to, in CF/T43 cells, L363
and cell proliferation, C2037
chaotic vasomotion induced by, membrane ion transport and, H909
endogenous, and visceral afferent activity during ischemia, H1135, H2726
inhibitory paracrine effect on somatostatin secretion, in gastric fundus, G106
in portal vein plasma and mesenteric lymph, during ischemia-reperfusion, H1135
secretion, in gastric fundus, G106
vasodilator response to, mechanism of, in cat, H928

Histamine receptors

H₂
activation, stimulation of c-fos transcription, C2037
biology, G987
H₃, in gastric fundus, G106

Histidyl-proline diketopiperazines

and pancreatic secretion, E1127

Histones

H₃, gene expression, in cholangiocytes, G518
mammalian epithelial damage induced by, C1925

Hormone replacement

and blood pressure, in women, H777

Hormone-sensitive lipase

activity, endurance training and, E497

Horses

erythrocyte aggregation and membrane structural correlates, H2604
erythrocyte potassium-chloride cotransporter, blood parameters and, C1811
tracheal smooth muscle, capsaicin-induced relaxation, L997

Host defense

 - calcium-sensing receptors in, C1168

nuclear factor κ B activation in, C1160
epithelial tight junctions, regulation, C1378
fibrogenesis, IGF-I in, G875
growth, and proglucagon-derived peptides, G3
guanylin and uroguanylin signaling in, G93
human, mucin biosynthesis, G296
indomethacin-induced inflammation, dietary diosgenin and, G355
injury, caused by infusion of sodium oleate, effects on food intake, R1779
ischemia-reperfusion injury, in transgenic mice overexpressing copper-zinc superoxide dismutase, C1130
microcirculation, sympathetic neurogenic constriction in, endothelium-derived nitric oxide and, H426
motility
in acute enteric inflammation, G447
in endotoxemia, G727
in tapeworm infestation, G480
mucin biosynthesis, G296
NHE3 expression during ontogeny, in rat, C1937
parathyroid hormone effects in, in rat, C1349
response to growth factors alone and in combination with human [Gly²]GLP-2, G1252
and epithelial cell growth and differentiation, G3
secretion, signaling pathways for, G93
smooth muscle
contractility, polyamines and, C77
contraction, inhibition by brefeldin A, C816
excitation-contraction coupling in, C77
sodium/hydrogen exchanger isoforms in, in rat, C1496
stress-induced transport abnormalities, cholinergic nerves and, G486
transit, in tapeworm infestation, G480
transplanted, intrinsic nervous system in, chronic allograft rejection and, G413
wall movements, analysis in vitro, G776
Intestine, large, see Colon
Intestine, small
bladder reconstruction from, motor response characteristics and, G147
cell migration in, polyamines and, G175
diversity in, promotion, G565
enterocytes, chloride channels, in guinea pig, G1141
fatty acid-binding protein, expression, regulation, G289
growth, glucagon-like peptide-2 and in diabetes, E815
in mice, E77
inflammation, calcium channel blocker effects on, G785
lipid enzymes, during development, G62
mucosal cells, energy supplies, in rats, G968
myenteric neurons, response to chemical stimulation of mucosa, G422
nutrient infusion into, effects on appetite and pyloric motility, age and, R755
PAF-induced injury, in mice, G56
survival of human pancreatic enzymes in, G553
zero-stress state, and strain, in guinea pigs, G865

Intracellular adhesion molecule 1
expression in gene-targeted mice, H1903
Iodine
deficiency, during pregnancy, E1121
uptake, by maternal and fetal thyroid, E1121
(\pm)-1-(4-Iodo-2,5-dimethoxyphenyl)-2-aminopropane hydrochloride
interaction with thyrotropin-releasing hormone, at dorsal vagal complex, R1607
Ion channels
cardiac, structure and function of, H511
in gene-targeted mouse model of cystic fibrosis, G258
renal, characterization, in rat cortical collecting ducts, F404
stretch-activated, in chondrocytes, C30
Ionic models
of electrical activity of embryonic chick heart cell aggregates, C331
Ionomycin
endothelial cell permeability induced by, L172
Ion transport
in alveolar epithelium, hypoxia and, L797
membrane, and chaotic agonist-induced vasomotion, H909
normalization in murine cystic fibrosis nasal epithelium, using gene transfer, C734
in rat intestine and kidney, C1496
Iris
arterioles
electrical properties of, in rat, H2465
neuropeptide Y in, in rat, H2119

inorganic phosphate transport in *gy* mice, F113

ischemic damage in, F849

sodium-potassium ATPase, dopamine-induced endocytosis, C1458

tubulogenesis, growth factors and, F463, F961

tubuloglomerular feedback, *see Tubuloglomerular feedback*

angiotensin II receptor blockade and, R510

effector mechanism, in rat, R1414

TxA₂/PGH₂ receptor expression, salt loading and, F976

urinary concentrating capacity, F9

vasculature, localization of vasopressin receptors in, R243

vasodilation, adrenomedullin and, in rabbit, R716

Kidney cells

adaptation to osmotic stress, C902

A6 distal nephron

chloride channels, stimulation by prostaglandin E₂, C548

ClC chloride channels, cloning and functional expression of, C1176

BSC-1, *see Epithelial cells, renal, monkey kidney*

of cortical collecting duct

A-type intercalated, intracellular pH regulation in, F340

bicarbonate secretion, kallikrein and, F807

bradykinin-stimulated cytosolic phospholipase A₂ phosphorylation in, F907

inward-rectifier potassium channels, molecular identification of, F825

embryonic, growth factors and branching tubulogenesis, F463

epithelial, *see Epithelial cells, renal*

glycolysis, palmitate and, C1732

of inner medullary collecting duct

adaptation to hypotonic stress, F837

H⁺ secretion, clostridial toxins and, F1054

hydrogen ATPase, functional upregulation by lethal acid stress, C1194

juxtaglomerular

differentiation, F731

Zis gene expression in, F731

LLC-PK₁

adenylyl cyclase regulation in, F883

mechanisms of cysteine S-conjugate cytotoxicity, F136

peptide transporters, recognition of β -lactam antibiotics, F706

PGE₂-mediated cytoprotection in, F507

PTH/PTHrP receptor desensitization, E383

retinoic acid regulation of sodium-dependent cotransporters, F438

sodium-glucose cotransport, protection and enhancement by heat stress, F530

macula densa, apical membrane ionic permeability, F817

Madin-Darby canine

bicarbonate secretion, kallikrein and, F807

bradykinin-stimulated arachidonic acid release, C1605

calcium-sensing receptors coupling to G proteins, F129

epithelial permeability, mucins and, F67

hydroxyapatite crystal adhesion, F224

hypertonic induction of β_1 -integrin in, C902

inducible expression of *bcl-2* gene by *lac* operator-repressor system in, F300

proton secretion, F499

MDCK, *see Kidney cells, Madin-Darby canine*

medullary pericytes, smooth muscle α -actin in, R1742

mesangial

bradykinin-stimulated tubulin and MAPK phosphorylation in, F916

cAMP and platelet-activating factor receptor expression, in rats, F445

cAMP-induced actin stress fiber disassembly in, F283

Kidney cells (continued)

- cyclooxygenase-2 expression, protein kinase C ζ isoform and, C130

Limb reduction deficits

in rat, R1031

Lipases

see also **Hormone-sensitive lipase;**

Lipoprotein lipase

gastric, secretion, postprandial regulation of, G374

hepatic, activity, in smoke-exposed rats, G158

pancreatic

secretion, postprandial regulation of, G374

survival during small bowel transit, G553

and regulation of gastrointestinal function, in humans, G612

Lipids

absorption, intestinal, G18

accumulation, in muscle, with chronic glucose oversupply, in rats, E1 and cardiac glucose transporter regulation, H1309

deposition, steroid hormones and, in female rats, E355

dietary, and intestinal transport ontogeny, G713

digestion, in humans, G374

duodenal, gastric responses to, G721

gastric fundal relaxation induced by, regulation, G118

intestinal, and *c-fos* induction in locus ceruleus, dorsal vagal complex, and paraventricular nucleus, R2059

intracellular transport, in enterocytes, G18

metabolism

amylin-(8—37) and, in rats, E859

in diabetic rats, effects on maternal and neonatal outcomes, E727

exercise and weight loss and, in obese older women, E149

peroxidation

neutrophil-mediated, assessment, C653

in pulmonary endothelial cells, prevention by metallothionein, L856

Lipocortin 1

expression and secretion in gut inflammation, R623

Lipocytes

hepatic, see **Liver, stellate cells**

Lipofibroblasts

pulmonary, L1249

Lipoic acid

protection against glutamate-induced cytotoxicity in C6 glial cells, R1771

stereoisomers, differential effects on glucose metabolism in insulin-resistant skeletal muscle, E185

Lipolysis

in brown adipocytes, adrenergic regulation of, C1136

during exercise, E297

carbohydrate metabolism and, E268

and fat oxidation during exercise, E768

in humans, E584

insulin resistance in adipocytes and, E254

regional, in response to isoproterenol, in women, E108

Lipopolysaccharide, see Endotoxin

Lipoprotein lipase

activity

endurance training and, E497

in female rats, E355

in smoke-exposed rats, G158

expression, in chronic renal failure, downregulation by secondary hyperparathyroidism, F925

heparin-releasable, inhibition by fatty acids, in myocardial cells, E759

skeletal muscle, overexpression, and prevention of diet-induced obesity, R683

Liposome-DNA complexes

endothelial cell uptake of, in mouse, H387

Lipoxygenase

and intestinal P-selectin expression in ischemia-reperfusion, G1326

signal transduction pathway, role in afferent arteriolar response to angiotensin II, F274

5-Lipoxygenase

in THP-1 cells, regulation by activated lymphocytes, C2057

5-Lipoxygenase-activating protein

in THP-1 cells, regulation by activated lymphocytes, C2057

Lithium

and sodium-dicarboxylate cotransporter NaDC-2, G267

Liver

in acute phase response, G1153

α_1 -adrenoceptor responsiveness, thyroid status and, E1063

alcohol-induced injury, mitochondrial glutathione depletion in, G7

apoB-100 secretion, cholestero-genesis and, E462

bile formation and secretion, purinergic stimulation of, G1108

blood flow

in dogs, E1194

endothelin-1 and, G1036

cell death, ATP depletion and, C479

chloride channel activation in, alanine uptake and, G849

cirrhosis

and glucose metabolism, IGF-I effects on, E1189

and sodium transport in thick ascending limb of Henle's loop, in rat, R568

disease, pathogenesis, cellular adhesion molecules in, G602

elasmobranch, bile acid transport, G1023

epithelial cells, apoptosis, G1174

ET_A and ET_B receptors, and ET-1-induced portal vein contraction, G1036

ethanol metabolism in, in humans, G951

fatty acid-binding protein, expression, regulation, G289

fetal, changes, demonstrated by echoplanar magnetic resonance imaging, G965

fibrogenesis

inducible nitric oxide synthase in, G124

nitric oxide in, G124

stellate cell activation and, G1094

function

after trauma-hemorrhage, flutamide and, in males, H2919

in sepsis, in rat, R1709

glucose disposition, glucagon changes and, E488

glucose production

abnormal regulation of, by hyperglycemia, glucokinase and, E743

dexamethasone and, in humans, E315

in dogs, E1194

in hypoglycemia, E1178

modeling, E192

portal and peripheral insulin action on, E972

reproducibility, E192

glucose uptake, portal and peripheral insulin action on, E972

glycogen content, IL-6 and, in mice, E262

glycogen metabolism

with sucrose feeding, E17

in uremia, E17

glycogenolysis

and gluconeogenesis, E868

in response to stress hormone infusion, E674

hGH-induced insulin resistance, rat amylin-(8—37) and, E859

human, inflammation, and proinflammatory cytokine expression, G322

indocyanine green clearance, in perfused rat liver preparation, G227

inflammation

antioxidant status in, G1304

cellular adhesion molecules in, G602

detoxification in, nitric oxide synthesis and, G530

and proinflammatory cytokine expression, in humans, G322

injury

inducible nitric oxide synthase in, G124

nitric oxide in, G124

insulin-sensitive enzymes, in offspring of protein-restricted rat dams, G899

iron content, effects of iron supplementation on, in phlebotomy-induced anemia in newborn lamb, R2124

leucine metabolism in, in TNF- α and endotoxin-treated rats, E1052

leukocyte adhesion in, after hemorrhagic hypotension, adenosine kinase inhibitor GP515 and, G1297

microvasculature, ICAM-1 expression, in rat, H138

nitric oxide synthase gene expression, in hypoxic rat, R905

phospholipase A₂ expression, transcriptional regulation in sepsis, G706

pit cells, in liver disease, G602

protein synthesis, in head-injured patient, E898

proteolysis, in exercise and fasting, in dog, E1073

regeneration

after partial hepatectomy, G621, G905

in transgenic mice, creatine kinase isoenzymes and, C741

reperfusion injury, nitric oxide and, G1007

septic

neutrophil sequestration in, G1169

nitric oxide, peroxynitrite and reactive oxygen species in, G1118

phospholipase A₂ expression, transcriptional regulation, G706

Liver (continued)

- sinusoidal cells, nitric oxide production via iNOS, in liver injury and fibrogenesis, G124
- sodium-taurocholate cotransport, regulation, cAMP in, G842
- Stat signaling pathway activation, after burn injury, G1153
- stellate cells

- in vascular endothelium, C1764

Medulla oblongata

- dorsomedial lesion, and fluid intake in rat, R1299
- inputs to nucleus accumbens, R2080
- neurons, intracellular pH response to hypercapnia in, R433
- ventral, in cardiovascular control, imidazoline receptors and, R1572
- ventrolateral
 - inputs to nucleus accumbens, R2080
 - rostral, catechol changes after systemic carbon dioxide changes, R947
 - rostral, glutamate-mediated control of, R487
 - rostral, substance P and, in rat, R805
 - serotonin changes in, during muscle contraction, H2899
 - sympathoinhibition in, by imidazoline drugs, R1567, R1569, R1580

α -Melanocyte-stimulating hormone

- release, stimulation by dopamine, during acid stress in tilapia, R387

Melatonin

- binding sites, in thalamic nuclei, R226
- effects on rat cerebral arteries, H1530
- and host defense, in mouse, R1631
- nocturnal onset, and primary sleep gate, R364
- and photic disruption of circadian rhythms, in Siberian hamster, R1540
- plasma levels, and phase-shifting effects of nocturnal exercise, in humans, E536
- responsiveness of aging circadian clock to, in mice, R1855

Membrane potential

see also **Electrophysiology**

- in human colonic cancer cell line, C1186

Membrane potential (*continued*)

- microvillous, from first trimester human placenta, R1519
- renal arteriolar, angiotensin II effects on, F307
- of synovial fibroblasts, IL-1 β and, R1822

Membranes, brush-border

- jejunal, developmental changes in, R1086
- marker enzymes, effect of renal ischemia on, F849
- morphogenesis, G759
- NHE3 expression during intestinal ontogeny, in rat, C1937
- SGLT activity in, R1965
- in skate and shark, R134
- taurocholate transport, regulation, G197

Memory

- short-term, neural substrate, R479

Men, see Gender differences

Meningitis

- cerebral autoregulation and hyperemia in, leukocytes in, H380

Mercaptoacetate

- hepatic infusion, effects on afferent hepatic vagal activity, R442

Mercury

- amalgam, and renal function, R1199
- inhibition of aquaporin-2 water transport, F451

Mesangial cells

- cyclooxygenase-2 expression, protein kinase C- ζ isoform and, C130
- inducible nitric oxide synthase expression, protein kinase C- ζ isoform and, C130

Mesenchymal cells

- in intestinal inflammation, G769

Mesenchyme

- airway epithelium interactions with, TGF- β receptors and, L355
- fetal lung, EGF mitogenesis in, transforming growth factor- β isoforms and, L374

Mesenteric arteries

- function, chondroitin-dermatan sulfate-containing proteoglycans and, H952
- nitric oxide production, and endotoxin-induced acute-phase hypotension, H164
- synergistic effects of high-sodium diet and angiotensin II administration on, H1275
- tone, control of, in hibernation, H148

Mesocricetus auratus, see Hamsters, Syrian

Mesocricetus brandti, see Hamsters, Turkish

Mesonephros

- erythropoietin production in, R1829

Messenger RNA

see also Gene expression

- AE anion exchanger, in vascular smooth muscle, F1039
- cardiac angiotensin-converting enzyme, in volume overload-induced cardiac hypertrophy, H641
- G protein, expression in renal microvessels, in hypertension, F877
- platelet-activating factor, cAMP effects on, in rat mesangial cells, F445
- preprotachykinin gene-1, expression in rat alveolar macrophages, L1073
- renin, glomerular and proximal tubule, dietary NaCl and, F892

Metabolic compartmentation

- in piglets, E408

- in pigs, G1208

Metabolic rate

- in hibernating marsupial, R2097
- sleeping, gender differences in, in elderly, E321
- and swim stress-induced analgesia, in mouse, R337
- during torpor, in marsupial, R2097

Metabolism

- anaerobic, and postischemic cardiac performance, H1187
- winter adaptation, in Siberian hamsters, effects of midline thalamic lesions, R226

Metallothionein

- gene expression, in caerulein pancreatitis, in mice, G696
- inhibition of oxidant-induced endothelial cell injury, L856

Metanephrogenic mesenchyme

- and ureteric bud, reciprocal interactions in kidney development, F757

Metanephros

- erythropoietin production in, R1829

Methacholine

- cumulative conducted vasodilation in response to, H310

Methionine

- deficiency, and tumor growth, in rats, E10

Methodologies

see also Immunohistochemistry; In situ hybridization; Spectral analysis

- for arterial tonometry, H478, H494
- for arteriovenous difference technique, E613
- for automated video analysis of intestinal wall movements, G776
- for blood conductivity measurement, H2520
- for blood flow measurements with radioactive microspheres, L264
- for canine tracheal smooth muscle permeabilization, L80
- for capillary electrophoresis determination of airway surface fluid composition, L895
- for cardiac output measurement in small animals, H2520
- for cDNA cloning, F790
- for cDNA transfection, F706
- for chronic systemic glucose infusion, in rats, E1
- for confocal fluorescence microscopy, in renal afferent arterioles, F768
- for confocal microscopy
- in chick cardiomyocytes, C1215
- of pancreatic intermediate endocrine-acinar cells, C1641
- in parathyroid cells, E630
- in rat microvessels, H138
- in rat portal vein, H2867
- in vascular endothelial cells, C1775
- for cross-spectral analysis of systolic blood pressure and interpulse interval, H1291
- for cryospectrophotometric measurement of microvascular oxyhemoglobin saturations, H2910
- for data analysis
- by frequency-domain analyses, H1909
- by spike-triggered averaging, H1909
- for electrocardiography during social stress, in rat, H1754

- for electron beam computed tomography of tubular flow, F667
- for electron microscopic analysis of platelet-bound gold-labeled LDL, C118
- for electron probe microanalysis, of mitochondrial calcium in intact heart, H1432
- for electrophoretic mobility shift assay, C572
- for endocardial mapping, H356
- for enzyme-linked lectin assay, L913
- for enzyme-linked oligonucleotide-sorbent assay, F877
- for epitope unmasking, in AE2 anion exchanger immunolocalization, F601
- for flow cytometry
- of fibroblasts, C1487
- of human glioma cells, C1290
- for fluorescence recovery after photobleaching, C859
- for identification and functional assay of calcium receptor in *Necturus* gastric mucosa, G1051
- for immunocytochemistry
- of aquaporins, in respiratory and glandular tissue of rat, C1549
- of pancreatic intermediate endocrine-acinar cells, C1641
- in renal medullary pericytes, R1742
- for immunoelectron microscopy, of aquaporins, in respiratory and glandular tissue of rat, C1549
- for immunofluorescence of ROMK protein in rat kidney, F739
- for immunomicroscopy, in AE2 anion exchanger in kidney, F601
- for intravital microscopy
- in fetal mouse, H1368
- in hamster, H989
- in rats, G1297
- for ion microscopy imaging of renal magnesium handling, F939
- for isolation of defined nephron segments, F650
- for juxtaglomerular cell purification, F731
- for laser confocal microscopy, in rat microvessels, H138
- for laser-Doppler flowmetry, H1038
- of cerebral blood flow in rat, H1166
- for laser-Doppler imaging, H1038
- for manometry, during swallowing, G1071
- for mapping of ventricular tachycardia, H1377
- for measurement
- of glomerular sieving coefficients, F430
- of renal arteriolar membrane potentials, F307
- for microcalorimetry, in vascular endothelial cells, C205
- for microdialysis
- of adipose tissue, E584, E613, E1033
- of catecholamines in rat, R1758
- of GABA in dorsal raphe nucleus, R451
- of interstitial glycerol, in women, E1033
- of interstitial norepinephrine, H1107
- intradermal, H1038
- of nitric oxide in skeletal muscle, H405

- of norepinephrine and acetylcholine, in rat, H2850
- for microdissection
 - of defined nephron segments, F650
 - of renal medullary pericytes, R1742
- for microfluorometry, of sodium/hydrogen exchanger in airway epithelia, L148
- for micropuncture of renal distal tubules, in rats, F586
- for microsome preparation from isolated-perfused lung, L72
- for molecular cloning of rat GRK6 splice variants, C953
- for multiple intraluminal impedanceometry in esophagus, G958
- for multivariable analysis, G1218
- for muscimol microinjections in cat, H1909
- for neural recordings in cat, H1909
- for noninvasive determination of pulse-wave velocity in mouse, H494
- for Northern blot analysis, of adenylyl cyclase in rat kidney, C323
- for protein metabolism studies, in sheep given lucerne forage, G1200
- for quantitative analysis of ammonium permeability in macula densa cells, F817
- for quantitative histochemistry, C371
- for recording tissue ion content and blood flow in rat renal medulla, F658
- for retrograde transneuronal viral labeling, H2926
- for scanning electron microscopy of cortical collecting duct cells, F650
- for single-bolus kinetic measurements using noncleared reference indicator, R828
- for site-directed mutagenesis
 - of CFTR, L127
 - of sodium-potassium ATPase, C1981
- for three-dimensional cell cultures, C1109
- for ventricular volume measurement, in children with congenital heart disease, H295
- for videomicroscopy, in porcine heart failure model, H183
- for Western blot analysis
 - of α -actin in renal medullary pericytes, R1742
 - of sarcoplasmic reticulum calcium ATPase in ventricular myocardium, H12
 - of vasopressin receptors in renal cortical and medullary circulation, R243
- Methotrexate**
 - and bradykinin-induced increase in macromolecular efflux from hamster oral mucosa, R1254
- Methoxamine**
 - inotropic response to, in neonatal rat heart, H1113
- Methylamines**
 - effects on aldose reductase activity, F1048
- N-Methyl-D-aspartate**
 - and bladder hyperactivity induced by cerebral infarction, R1900
- N-Methyl-D-aspartate receptors**
 - glycine site, and eating behavior, in rat, R790
- spinal, in episodic hypertension in conscious spinal rat, H1266
- Methylecgonidine**
 - effects
 - on intracellular calcium in cardiomyocytes, H893
 - on myocardial contraction, H893
- Methylglucose**
 - radiolabeled, in local brain glucose level determination, E839
- α -Methylhistamine**
 - effects on somatostatin and histamine secretion in gastric fundus, G106
- MGAT**, *see* **Monoacylglycerol acyltransferase**
- Mice**

Mice (continued)

- swim stress-induced analgesia, metabolic correlates, R337
- thermoregulation in, ethanol and, R696
- transgenic, *see Transgenic mice*
- two-cell embryos, cytosolic pH in, C405
- uterus, C-type natriuretic peptide gene expression in, regulation by estrogen, H2672
- viable yellow (A^{vy}), adipose tissue, angiotensinogen gene expression in, R236
- X-linked hypophosphatemic rickets models, F489

Microcirculation

- blood flow resistance in, H2884
- cerebral
 - endothelin-1- and hematoma-induced alteration of, lysophosphatidic acid in, R703
 - responses to epoxyeicosatrienoic acid, in neonatal piglets, H333
- coronary
 - hyperosmotic vasodilation, H104
 - leukocyte accumulation in, low-flow reperfusion after myocardial ischemia and, H1154
 - myogenic constriction in, H257
- cutaneous, autonomic control and, H1867
- effects of vasoactive intestinal peptide in liposomes, R287
- in hamster oral mucosa, R1254
- intercellular adhesion molecule 1 expression in, in rat, H138
- nitric oxide and endothelium-derived hyperpolarizing factor in, anesthetics and, H618
- pulmonary, leukocyte entrapment, H2361
- response to acetylcholine release from motor nerves, H156

Microdialysis, *see* Methodologies, for microdialysis

Microgravity

- and cardiovascular β -adrenergic receptors, R93
- and human muscle tone, microvibration and physiological tremor, R86

Microspheres

- molecular, for measurement of nerve blood flow in diabetes, E164
- particulate, for measurement of nerve blood flow in diabetes, E164

Microtubules

- polymerization, promotion by trimethylamine *N*-oxide, R669

Microtus ochrogaster, *see* Prairie voles

Microvasculature

- intestinal, postischemic, P-selectin expression in, G1326
- mesenteric, nitric oxide synthesis in, and TNF- α -induced leukocyte rolling, G628
- pathophysiology, endothelial cell monolayers as model of, G1189
- pulmonary, permeability, L22
- renal
 - angiotensin II and norepinephrine signal transduction pathways, F274
 - angiotensin II sensitivity, F84
 - anion exchanger AE expression in, F1039
 - responsiveness in hypertension, F877

Microvessels

see also Arterioles; Capillaries; Venules

- blood flow resistance, endothelial surface layer and, H2272
- endothelial tight junctions, modulation by cytokines, cytoskeletal regulation of, H286
- hydraulic conductivity
 - see also* Permeability, microvascular
 - nitric oxide synthase inhibitors and, H747
- hyperpermeability, signal transduction of, H2442
- individually perfused, permeability, H747
- relaxation, potassium channels and, H76

Microvibration

- microgravity and, in skeletal muscle, R86

Migrating myoelectric (motor, motility) complexes

- calcium channel blocker effects on, G785
- colonic, in inflammation, G1233

Milk

- stasis, and mammary tight junctions, R379

Mitochondria

- ADP kinetics, in hypoxic rat, C852
- calcium handling, in pancreatic β -cell, C717
- function, in rat fibroblasts isolated from spheroids, C1487
- glutathione transport in, G7
- metabolic state, oxygen sensitivity, C1613
- oxygen kinetics, in hypoxic rat, C852
- respiration, in hypoxic rat, C852
- subsarcolemmal, oxidative phosphorylation through cytochrome oxidase, in ischemia, H1544

Mitochondrial permeability transition

- adenosine triphosphate depletion and, C479
- in pH-dependent reperfusion injury to hepatocytes, C1783

Mitogen-activated protein kinase *see also* Extracellular signal-regulated kinase

- activation, during lung tissue injury, L459
- cascade, activation by cholecystokinin and epidermal growth factor, C1472

 contractile function
 aging and, E790
 during ischemia, rest to steady-state transition period, E233
 contraction
 extracellular potassium and, in mouse, C598
 and glucose transport, E220, E688
 and lactate uptake, E239
 and MCT1 expression, E239
 signaling pathways induced by, GLUT-4 in, E1039
 cooling, and muscle metaboreflex, H2436
 cyclic nucleotide-gated channels, single gene producing, E1140
 denervated, lysosomal proteolysis in, in rat, R1562
 differentiation, gene expression during, C223
 excitation-contraction coupling, C85
 low-frequency stimulation and, C297
 in mouse, C1915
 fast- and slow-twitch, regulation of calcium handling in, in mouse, C1915
 fast-twitch
 low-frequency stimulation of, adaptation to, C297
 power production in situ, optimal shortening velocities for, C1057
 in rat, C198
 fatigue, during ischemia, E233
 fiber types, electrical stimulation, and GLUT-4 translocation to T tubules, E688
 flow-induced arterial dilation in, in rat, H2423
 fructose transport, and GLUT-5 protein, E543
 glucose metabolism, E139
 lithium vs. insulin action on, E514
 glucose transport
 exercise regulation of, E1039
 exercise-stimulated, nitric oxide and, E220
 protein kinase C activation and, E28
 glucose transporters
 with chronic hypoxia, in rat, R1734
 GLUT-4, and hexokinase II gene transcription in, regulation of, E682
 GLUT-4, phosphorylation, epinephrine and, C1082
 glucose uptake
 AICA riboside and, in rats, E1107
 epinephrine and, C1082
 glycogen synthase, differential regulation by insulin and glucose, in rats, E479
 glycogen synthesis
 after exercise, in humans, E416
 with cirrhosis, IGF-I effects on, E1189
 lactate and, R2072
 human
 activation of glycolysis in, C306
 microgravity effects on, R86
 hydraulic conductivity in vivo, H2774
 hyperplasia, after weight-lifting exercise in rat, C246
 hypertrophy, after resistance exercise, E99

insulin-resistant, glucose metabolism, differential effects of lipoic acid stereoisomers on, E185
 insulin sensitivity and lipid metabolism, rat amylin-(8-37) and, E859
 intramuscular pressure, simulation, H1587
 iron content, effects of iron supplementation on, in phlebotomy-induced anemia in newborn lamb, R2124
 ischemia-reperfusion, transitory changes in microvascular permeability during, H303
 ischemia-reperfusion injury, leukocyte plugging and edema in, H989
 ischemic, contractile function, rest to steady-state transition period, E233
 ischemic preconditioning of, ATP-sensitive potassium channels in, H44
 lactate production in, E584
 length dependence of staircase potentiation in, in rat, C198
 leucine pools, functional heterogeneity in humans, E564
 MCT1 expression, chronic contraction and, E239
 mechanical blood-tissue interaction, simulation, H1587
 mechanical work, determinants of, C1049
 mechanics, finite-element simulation of, H1587
 membrane potential, extracellular potassium and, in mouse, C598
 metabolic regulation during exercise, ³¹P magnetic resonance spectroscopy of, R999
 metabolism, C306
 microvessels, response to acetylcholine release from motor nerves, H156
 myocytes, mitochondrial metabolic state, oxygen sensitivity, C1613
 myosin heavy chain
 isoform plasticity, in rat, C944
 synthesis, and sarcoplasmic protein in, aging and, E790
 new fiber formation in, time course of, C246
 overloaded fibers, coordinated expression of myosin heavy chain isoforms and metabolic enzymes in, C371
 oxygen delivery to, in dynamic exercise, in humans, H1787
 phosphocreatine content, postexercise, C172
 plasticity, C579
 power production in situ, optimal shortening velocities for, in rat, C1057
 protein
 metabolic effect of exercise on, hyperaminoacidemia and, E122
 synthesis, in head-injured patient, E898
 turnover, after resistance exercise, E99
 protein kinase C, in fat-fed rats, E915
 regeneration
 insulin-like growth factor mRNA expression during, in rat, R353
 after weight-lifting exercise in rat, C246
 remodeling, with hindlimb unweighting, C579

α -sarcomeric actin, postnatal appearance, C1801
 sarcoplasmic reticulum, in frog, C1588
 slow-twitch
 phospholamban and, C1
 power production in situ, optimal shortening velocities for, C1057
 sodium channels, E1140
 spaceflight and, C1690
 substrate oxidation during exercise, E268
 substrate turnover during exercise, plasma volume and, E297
 sympathetic nerve activity, temperature and, H2436
 T tubules, GLUT-4 in, electrical stimulation and, E688
 types, heterogeneity, E479
 work in, C1049, C1057

Muscle, smooth

α -actin, in pericytes of renal medulla, R1742
 action potentials, outward potassium currents and, C962
 airway
 adenosine receptor-mediated relaxation, nitric oxide and, L581
 adenylyl cyclase activity in, carbachol pretreatment and, L640
 antiproliferative action of sphingosine in, C928
 calcium ATPase in, L322
 calcium homeostasis in, L322
 calcium responses in, TNF- α and, L1020
 calcium sensitivity, halothane and, L80
 capsaicin-induced relaxation, in horse, L997
 cGMP regulation in, L807
 contraction, mediated by muscarinic receptors, nitric oxide and, L531
 guanylyl cyclases in, L807
 HSP27 phosphorylation in, L930
 IL-11 production, L648
 mitogenesis, synergistic stimulation by lysophosphatidic acid and epidermal growth factor, L10
 muscarinic stimulation, calcium sensitization during, PKC and, L775
 parasympathetic innervation, in sheep, R121
 phosphatidylinositol 3-kinase activity in, EGF-stimulated, modulation by TGF- β 1, L1220
 sodium/calcium exchange in, L322
 calcium current density and force in, C1714
 circular, calcium current activated by motilin in, G404
 colonic, contractility, in colitis, G928
 contraction, tyrosine phosphorylation in, G247
 coronary, heterogeneity of L-type calcium current density in, H2083
 esophageal, intracellular calcium, regulation, C1679
 gastric
 cholinergic neurotransmission in, nitric oxide and, G456
 inducible nitric oxide synthase, G1101
 gastrointestinal
 neuronal nitric oxide synthase gene expression, C1868

small-conductance calcium-activated potassium channels in, activation by ATP, C2010

high- and low-voltage-activated calcium currents, modulation by calcium, C883

intestinal
contractility, polyamines and, C77
contraction, inhibition by brefeldin A, C816
in endotoxemia, G727
excitation-contraction coupling in, C77
IGFBP-5 in, G875

myosin heavy chain expression, and unloaded shortening in single cells, C1259

neuropeptide Y₁ receptor function, suppression by nitric oxide, C618

nonselective cation channels, muscarinic M₂ receptor activation of, C500

pulmonary artery
hypoxia-induced proliferative cell phenotype in, L234
responses to diphenyleneiodonium and hypoxia, L603

in renal arteries, pregnancy-induced changes, in rats, R22

of resistance arterioles, ET-1 effects on, potassium channels and, G1087

tracheal
β-adrenergic receptor desensitization in, L556
ATP-sensitive potassium channels, muscarinic inhibition of, L478
PGE₂-elicited contraction, EP₁ receptor blockade and, L626

urinary bladder, calcium-activated potassium channels, C110

Muscle sympathetic nerve activity
adjustment to oxygen level, age and, in humans, R690
estimation, norepinephrine spillover technique for, R16
frequency domain characteristics, in heart failure and healthy humans, R205
during head-down neck flexion in humans, R1142

Mus musculus, see Mice

Myeloperoxidase
activity, and skeletal muscle ischemic tolerance, H44

Myocardial infarct/infarction
adenosine and 5'-nucleotidase levels during, H945
calcium-dependent outward current in myocytes from epicardial border zone in, H1386
heart rate control after, H2240
late preconditioning against, nitric oxide and, in rabbit, H2931
left ventricular function and remodeling after, in aging rat, H2652

size
limitation, taurine depletion and, H1956
myocardial temperature and, H220
reduction, adenosine-mediated, H1677

vasoconstriction of skeletal muscle arterioles in, H1502

Myocardial ischemia
see also Ischemia-reperfusion; Myocardium, stunning
adenosine and 5'-nucleotidase levels during, H945
calcium transient alternans in, H2161
collateral flow in, right atrial pressure and, H2296
contractile function during, inorganic phosphate and coronary perfusion pressure and, H566
and endothelin-1 regulation of coronary blood flow, R41
glucose uptake in, insulin and, H2170
in hemorrhagic shock, energy metabolism and blood flow distribution in, H600
in humans, H902
low-flow reperfusion after, and leukocyte accumulation in rat coronary microcirculation, H1154
and oxidative phosphorylation through cytochrome oxidase, H1544
prolonged, bioenergetics during, H1452
regional, protective effect of taurine depletion in, H1956
repetitive, metabolism in, H1395

Myocardium
architecture, and electrophysiology, H446
atrial, contractile function, H2498
autocrine/paracrine regulation, in heart failure, H1727
bioenergetics, during prolonged ischemia, H1452
blood flow
distribution, in myocardial ischemia in hemorrhagic shock, H600
during exercise, in canine heart failure model, H2452
modeling, H2062
regional, H2296
bovine, ATP diphosphohydrolase in, H673
calcium currents, endurance training and, in rat, H1193
caveolin subtypes in, subcellular distribution, C1957
collateralized, blood flow to, endothelin-1 regulation of, in pig, R41
contraction, effect of cocaine and methylecgonidine on, H893
creatine kinase kinetics, at low phosphocreatine and ATP, C1397
dysfunctional, fatty acid uptake in, H2473
edema, defense against, H1408
endothelin-1 metabolism, H1239
energetics, H756
function, age-related changes in, H2652
growth, in volume hypertrophy, mechanical regulation, in rat, H1198
hypothermia, in acute myocardial infarction, protective effects, H220
ischemia-reperfusion injury, sodium/hydrogen exchange in, H2232
ischemic preconditioning, in humans, H902
mechanics, during ventricular filling, H1576
oxygen consumption, H756, H1977
after countershock, H583
in isolated rabbit heart, H1032
and pressure-volume area, in isolated canine heart, H1688

protection, in anoxia-reoxygenation, ANP and, H244

sarcoplasmic reticulum calcium
ATPase, in heart failure, H12

senescent, high-energy phosphates in, H418

stunned
mechanical interaction with normal myocardium, H2146
ryanodine receptor dysfunction in, H796

stunning
late preconditioning against, H1651
late preconditioning against, adenosine receptors in, H1324
repetitive, metabolism in, H1395

temperature
in acute myocardial infarction, H220
and contractile efficiency, H2891
ventricular, contractile function, H2498

Myocytes
cardiac, *see Cardiomyocytes*
gastric
high- and low-voltage-activated calcium currents, feedback mechanisms, C883
intracellular calcium, calcium current and, C1947
human uterine, large-conductance potassium channels, C1721
skeletal muscle, mitochondrial metabolic state, oxygen sensitivity, C1613
ureteral, electrophysiology, C962
ventricular, *see Cardiomyocytes*

Myofibrillar degradation
in burn-injured rats, ornithine α-ketoglutarate effects on, E557

Myofibrils
passive tension and stiffness, in rabbit, C266
relaxation, C266
viscoelasticity, in rabbit, C266

Myofibroblasts
human colonic subepithelial, extracellular matrix proteins and cyclooxygenases expressed in, G1341
pulmonary, L1249

Myogenesis
BCK gene expression during, C223

Myoglobin
expression, effects on cardiac performance in icefish, R100

Myometrium
contractions, intracellular mechanisms underlying, E665

Myosin heavy chain
gene expression
in low-T₃ syndrome, E951
regulation in neonatal rat heart cells, C394

isoforms
in overloaded rat muscle fibers, C371
plasticity, single-fiber and whole muscle analysis, C944
in smooth muscle, and unloaded shortening in single cells, C1259
in tachycardia-induced heart failure, H921

synthesis, in aging, E790

Myosin light chain
dephosphorylation, and actin stress fiber disassembly in rat glomerular mesangial cells, F283

Myosin light chain (continued)

- phosphorylation
 - insulin secretion and, E782
 - and regulation of epithelial tight junctions, C1378
 - by stimulated neutrophils, H981
- regulatory
 - phosphorylation, in rat gastrocnemius muscle, C198
 - phosphorylation in airway, halothane and, L80

Myosin light-chain kinase

- and ionomycin-induced endothelial cell barrier dysfunction, L172
- in myosin light-chain phosphorylation and insulin secretion, E782

Myosins

- class I
 - Acanthamoeba*, C347
 - biochemical properties of, C347
 - brush-border, C347
 - Dictyostelium*, C347
 - Drosophila*, C347
 - fungal isoforms, C347
 - vertebrate amoeboid-type, C347
 - as molecular motors, C347
 - unconventional, C347

N

NADPH oxidase

- activity
 - oxidative stress and, L1042
 - in reoxygenation versus ischemia, in rat lung, L1112

Na⁺-K⁺-ATPase, see **Sodium-potassium ATPase**

Nasopharynx

- aquaporins, in rat, C1541

Natriuresis

- captopril effects on, in spontaneously hypertensive rat, R70
- diltiazem-induced, dopamine receptors and, in spontaneously hypertensive rats, R317
- in heart failure, H2372
- nitric oxide and angiotensin II interactions and, in rat, R1676
- pressure, in aging rats, R578
- renal medullary blood flow in regulation of, R1

Natriuretic peptide receptors

- gene expression, in rats with DOCA-salt hypertension, C1427

Natriuretic peptides

- atrial, see **Atrial natriuretic peptide**
- autocrine-paracrine role, in heart failure, H2406
- brain, see **Brain natriuretic peptide**
- and cardiac function, H2406
- C-type
 - chronotropic and inotropic effects, H1933
 - gene expression in mouse uterus, regulation by estrogen, H2672
 - guanylyl cyclase receptors for, and shark rectal gland, R1400
 - ion transport regulation by, in murine airway epithelium, L1065
 - renal and vascular effects in humans, R1457
 - metabolism, in heart failure, H2372
 - in pressure-overload hypertrophy, H113
 - and venous function in trout, R527

Natural killer cells

- eccentric exercise and, E85

Near-infrared spectroscopy

- of cerebral tissue oxygen saturation and blood volume, in newborn piglet, H682

Necturus maculosus

- gastric mucosa, calcium receptor in, G1051

Neoplasia

- intestinal epithelial, G979

Nephrolithiasis

- hydroxyapatite crystals adherence to renal epithelial cells, F224

Nephrotic syndrome

- and cytoskeletal protein expression in glomeruli, F150
- and glomerular sieving coefficients of dextran and Ficoll, in humans, F430
- in systemic lupus erythematosus, F158

Neuroblastoma cells

- bradykinin calcium signals in, cholinergic modulation, C612
- neuropeptide Y₁ receptor function, suppression by nitric oxide, C618

Neurohypophysis

- blood flow to, H1994

Neuroimmunology

- in mouse, E1083

Neurokinin receptors

- NK₁
 - in chronic airway inflammation, L565
 - submucosal, characterization, G670

Neurokinins

- NKA
 - and duodenal function, G1077
 - and ileal secretomotor responses in guinea pig, G1127
- NKB, and ileal secretomotor responses in guinea pig, G1127

Neurons

- A5 noradrenergic
 - α_2 -adrenergic autoreceptors, H2290
 - autoactivity, H2280
 - persistent sodium current, H2280
 - subthreshold membrane potential oscillations, H2280
- A6 noradrenergic, α_2 -adrenergic autoreceptors, H2290
- dorsal root ganglion, activation by eosinophils, L1096
- enteric, Fos immunoreactivity, after activation of motor activity, G498
- myenteric
 - Fos immunoreactivity, after activation of motor activity, G498
 - of intestinal transplants, chronic allograft rejection and, G413
 - intracellular calcium, activity-dependent changes in, G1359
 - nitric oxide synthase gene expression, C1868
 - rectal, pelvic inputs to, G49
 - of small intestine, response to chemical stimulation of mucosa, G422
- norepinephrine uptake in skeletal muscle, R16
- nucleus accumbens, medullary inputs to, R2080
- pancreatic, properties of, in guinea pigs, G1273
- pontine
 - chemical inactivation, H1909

- and 10-Hz rhythm in sympathetic nerve discharge, H1909
- potassium and calcium currents, AT_{1a} receptors and, C1040
- sensory, intrinsic, of gut, G422
- submucosal secretomotor, in guinea pig ileum, G1127
- ventral respiratory group, response to vestibular stimulation, in cat, R1946

Neuropeptide Y

- and diet selection in rat, R2040
- mRNA, food deprivation and, in Djungarian hamster, R768
- in rat iridial arterioles, H2119
- release
 - from PC-12 cells, autoreceptor-mediated, H1737
 - regulation in lean and obese rat, R2112
- and restraint stress effects on metabolism and energy balance, R1612

Neuropeptide Y receptors

- NPY₁, suppression by nitric oxide, C618
- NPY₂, in PC-12 cells, and neuropeptide Y release, H1737

Neurosteroids

- cytoprotective effects, in rabbit renal proximal tubules, F869

Neurotensin

- inhibitory action in colon, nitric oxide and, in rats, G491

Neutrophils

- α_1 -acid glycoprotein and, after intestinal ischemia in rats, G1031
- activation, with monocyte stimulation by *Clostridium difficile* toxins, G1333
- adherence, and oxidant-mediated lung injury, L957
- adhesion to endothelial cells, xanthine and, G342
- alveolar, in acute lung injury, L104
- bronchoalveolar, preprotachykinin gene-1 mRNA in, L1073
- chemotaxis
 - and oxidant-mediated lung injury, L957
 - in ulcerative colitis, G75
- glutamine utilization, in rat, C1124
- from human lung, IL-8 receptor down-modulation on, L618
- in ischemia-reperfusion injury, nitric oxide-releasing aspirin derivative effects on, G1246
- in ischemia-reperfusion lung injury, L46
- in liver, in inflammation, G1169
- in liver disease, G602
- in myocardial reperfusion injury, adenosine-mediated cardioprotection and, H1677
- and L-NAME-induced capillary filtration, G1320
- phosphorylation of endothelial cell myosin by, H981
- respiratory burst, C653
- shape changes in pulmonary capillaries, L733

Newborn

- alveolar macrophages, PKC-dependent gelatinase secretion in, L989
- arterial and cardiopulmonary baroreflexes, ontogeny, R457
- ascorbate disposition kinetics in, R1585

- brain injury, endothelin effects on ATP-sensitive potassium channel function after, H2639
- calves, somatotrophic axis in, E130
- cerebral tissue oxygen saturation and blood volume, near-infrared monitoring of, in piglet, H682
- corticosteroid production, adrenal vasoactive intestinal peptide and, in rat, R1163
- hyperoxic lung injury in, L40
- lipoprivic feeding in, in rat, R1649
- lung, fibroblast gene expression in, peroxisome proliferators and, L1249
- mammalian
- cardiomyocyte sodium/calcium exchange and contraction in, H837
 - cerebrovascular prostaglandin receptor regulation in, cyclooxygenase-2 in, R1283
 - hemodynamic effects of hemorrhage in, H339
 - respiratory control in, H1977
- phlebotomy-induced anemia in, effects of iron supplementation on, R2124
- pig, insulin-stimulated amino acid disposal in, E305
- preterm, *see* **Preterm newborn**
- pulmonary catecholamine clearance and spillover at birth, L264
- pulmonary hypertension in
- atrial natriuretic factor and, L289
 - endothelin-1 and, L72
 - hypoxia-induced, L289
- sleep regulatory mechanisms, development, in rat, R472
- sodium-potassium ATPase upregulation in, in guinea pigs, F254
- SP-B-deficient, respiratory failure in, L875
- tumor necrosis factor- α tolerance in, in rat, R1158
- ureteral obstruction, AT₁ and AT₂ receptors in, R503
- NHE**, *see* **Sodium/hydrogen antiporter (sodium/hydrogen exchanger)**
- NIDDM**, *see* **Diabetes mellitus, non-insulin-dependent (NIDDM)**
- Nifedipine**
- and calcium influx in renal arterioles, F84
- Niflumic acid**
- and ryanodine receptors, in frog, C1588
- Nitric oxide**
- see also* **Endothelium-derived relaxing factor**
- and adenosine receptor-mediated relaxation of airway smooth muscle, L581
 - and airway contraction mediated by muscarinic receptors, L531
 - and arterial hemodynamics, H1816
 - in blood pressure regulation, H2756
 - and bovine pulmonary arterial relaxation, L437
 - and brain injury in newborn, H2639
 - and cerebral fluorocarbon-induced hyperemia, H1994
 - and cholinergic neurotransmission in gastric muscle, in rabbits, G456
 - in dynamic sympathetic regulation of blood pressure, H38
 - endogenous, and allergic bronchial hyperresponsiveness in guinea pigs, L656
 - in endometrial blood flow regulation, H2009
 - and endothelial cell expression of poly(I-C)-induced leukocyte adhesion molecules, H2490
 - endothelium-derived, and sympathetic neurogenic constriction in intestinal microcirculation, H426
 - expired, type I nitric oxide synthase and, in mice, L883
 - and forearm blood flow at exercise onset and recovery, H2388
 - and gelatinase activity, L445
 - and glucocorticoid-induced renal vasodilation, R1972
 - and glucose transport, in skeletal muscle, E220
 - in glutathione-induced coronary vasodilation, H1231
 - in heat stress, in rat, H1537
 - and hemodynamic effects of intracoronary vascular endothelial growth factor, H1317
 - and hemorrhage-triggered blood pressure fluctuations, in rat, R58
 - and hepatic reperfusion injury, G1007
 - and hydrogen peroxide-mediated endothelial permeability, C1581
 - and hypercapnia, in humans, R2005
 - and hyperosmotic vasodilation in coronary microcirculation, H104
 - and hypotensive effect of PDGF-BB, H1719
 - in hypoxia-induced hypothermia, in rat, R967
 - in hypoxia-induced pial artery dilation, H1807
 - induction, in osteoblasts, by fluid flow, E751
 - induction of heme oxygenase-1 gene expression, L980
 - in inhibition of cardiac hypertrophy by perindopril, H2659
 - and inhibitory action of neurotensin in rat colon, G491
- interactions
- with angiotensin II, effects on pressure diuresis and natriuresis, R1676
 - with endothelin, in regulation of stretch-induced atrial natriuretic peptide secretion, R301
 - and intestinal P-selectin expression in ischemia-reperfusion, G1326
 - in ischemia-reperfusion lung injury, L504
 - and late preconditioning against myocardial infarction, in rabbit, H2931
 - in liver injury, G124
 - and mechanical activity in spinal resistance-sized small arteries, H2217
 - modulation of allograft myocardial function, H28
 - and neurogenic pressor response of corpus cavernosum, H2141
 - in paraventricular nucleus, and renal sympathetic nerve activity, R864
- production
- endothelial, flow-induced, H347
 - endotoxin-induced, estrogen and, H506
 - in lung injury, endothelial cell heterogeneity in, L275
 - during *Vibrio cholerae* infection, G1160
- pulmonary diffusing capacity of, in rabbit, R2055
- in pulmonary epithelial cells, L789
- in rat cremaster muscle microcirculation, anesthetics and, H618
- regulation of P-selectin expression in endothelial cells, H740
- release
- agonist-induced, in pulmonary vasculature, L588
 - basal, in pulmonary vasculature, L588
 - in resistance vasculature, H1848
 - and responsiveness of collateral-dependent coronary arteries, H1879
 - in resuscitative effect of diaspirin cross-linked hemoglobin after hemorrhage in rat, H827
 - in septic liver, G1118
 - signaling pathway, in *Drosophila melanogaster* Malpighian tubules, R823
 - single-breath diffusing capacity, in rabbit, R2055
 - and skeletal muscle blood flow, at rest and during exercise, H405
 - suppression of neuropeptide Y₁ receptor function, C618
- synthesis
- in cardiomyocytes, adenosine and, H59
 - in cardiomyocytes, cytokine-induced, H665
 - cerebrovascular, in pig, H2192
 - endotoxin-mediated, in murine macrophages, C1030
 - inhibition, L588
 - inhibition, and cardiovascular dynamics, H38
 - in macrophages, and CD14, C1030
 - in rat middle cerebral artery, R661
 - and xenobiotic metabolism, G530
 - and TNF- α -induced leukocyte rolling, G628
 - and TNF- α -induced vascular barrier dysfunction, H2565
 - in vasodilator response to histamine, H928
 - vasodilatory response to, in microvessels, H76
 - in vasopressin and oxytocin release, during osmotic stimulation in rat, R1024
- Nitric oxide synthase**
- activation, in endothelial cells, C1908
 - aging-induced changes in, H1941
 - cardiac, in hypertensive rat genetically prone to heart failure, H1223
 - and cardiomyocyte contractile function, H1403
 - in cardiomyocytes, β -adrenergic modulation of, C1371
 - cerebral kinetics, maturation and, in spontaneously hypertensive rat, R1367
 - constitutive
 - in alveolar type II cells, surfactant effects on, L339
 - gene expression, C1868 - endothelial
 - age-dependent augmentation, in genetic rat model of heart failure, H1223
 - estrogen and, in fetal lung, L119
 - expression in pulmonary artery, angiotensin II and, L315

Nitric oxide synthase (continued)

- gene transfer of, H265
- in hypertension, L113
- induction in exercise-trained pig, H2575
- regulation, gender differences in, H1962
- gene expression, in rat, R905
- in guinea pig pancreatic neurons, G1273
- inducible
 - and cardiac allograft contractile and electrophysiological function, H28
 - in cardiomyocytes, H59, H665
 - endotoxin-mediated expression, H164
 - expression, protein kinase C- ζ isoform and, C130
 - gene expression, glucocorticoids and, G1290
 - and hepatocellular damage, G1118
 - intestinal epithelial, ursodeoxycholate and, G131
 - in liver injury, G124
 - in macrophages, regulation, C1882, L967
 - and stress response, L1
 - and TNF- α -induced leukocyte rolling, G628
 - upregulation, after NF- κ B activation, L1002
- induction, in gastric smooth muscle, G1101
- inhibition
 - and cytokine-related vascular permeability, H2565
 - and endotoxin-induced vascular permeability, H2565
 - hypertension induced by, vascular responsiveness to α_2 -adrenergic stimulation in, H2756
 - and NNMU-induced lung injury, L1167
- inhibitors
 - effects in pregnant rat, R1031
 - modulation of microvessel permeability, H747
 - and liver leukostasis after gut ischemia-reperfusion, G1007
- neuronal
 - and airway responses in mice, L883
 - gene expression, C1868
 - and opioids, in hypoxia-induced pial artery dilation, H1807
 - in signal transduction of microvascular hyperpermeability, H2442
- type I, and airway responses in mice, L883
- Nitrites**
 - production, by cardiomyocytes, H59
- Nitrogen balance**, see **Proteins, turnover**
- Nitrogen dioxide**
 - lung injury due to
 - alveolar type I cell damage in, L1228
 - genetic modeling of susceptibility to, in mice, L595
 - reactive oxygen species generated in, L1265
- Nitroglycerin**
 - and carotid diameter in humans, H1629

and hepatic stellate cell activation, G1094

PEPT2 cotransporter

renal, C1623

Peptide transporters

kidney epithelial cells, structure-activity relationships, reviews, F1
recognition of β -lactam antibiotics, in rat LLC-PK₁ cells, F706

Peptide YY

effects on neurons of dorsal motor nucleus of vagus, R213
Y₂ agonist PYY-(13-36), effects on neurons of dorsal motor nucleus of vagus, R213

Peptide YY receptors

distribution in kidney, F545
and renal function, F545
and renal hemodynamics, F545
subtypes, in rat and rabbit kidneys, F545

Perindopril

inhibition of cardiac hypertrophy, bradykinin-NO pathway in, H2659

Peristalsis

and bladder reconstruction from human ileum, G147
intestinal, and *c-fos* expression in myenteric neurons, G498

Peritoneum

hydrostatic pressure in, effects on in vivo hydraulic conductivity, H2774

IgG diffusion in muscle in, H2783

Permeability

of BeWo cell monolayers, C1596
bicarbonate, in Henle's loop, F698
capillary

cytoskeletal rearrangement and, H286

ET-1 and, in vivo, H1239

nitric oxide and, H2565

prostacyclin and, H200

vascular endothelial growth factor and, H687

endothelial

see also **Leukocyte-endothelial cell adhesion**

under energy depletion, H608

hydrogen peroxide-mediated, nitric oxide and, C1581

platelets and, H2304

thrombin receptor activation and, C1756

of human cervical cells, retinoids and, C1707

intestinal, G139

stress and, G486

microvascular

nitric oxide synthase inhibition and, G1320, H747

plasma protein osmotic pressure and, H997

signal transduction of, H2442

during skeletal muscle ischemia-reperfusion, H303

vascular endothelial growth factor and, H687

paracellular, in rabbit esophageal epithelium, G647

pathways, in HeLa cells, C999

of pulmonary endothelium, L22, L31

in chronic airway inflammation, L565

in endotoxin-induced lung injury, L217

ionomycin-induced, mechanisms of, L172

pulmonary microvascular, L22

pulmonary vascular, staphylococcal enterotoxin B and, L31

vascular, assessment in normal human circulation, H1049

venular, in hypercholesterolemic rat, H854

Peromyscus, see Deer mice

Peroxide

and endoplasmic reticulum calcium pumps, C1250
sarco(endo)plasmic reticulum calcium pump SERCA3 isoform resistance to, C420

Peroxisome proliferator-activated receptors

expression, in rabbit and human urinary tract, F1013

Peroxisome proliferators

effects on fibroblast gene expression in neonatal rat lung, L1249

Peroxynitrite

and gelatinase activity, L445
molecular and phenotypic responses of lung epithelial cells to, L789
and nitric oxide-induced relaxation of bovine pulmonary artery, L437
in septic liver, G1118

Persistent vegetative state

systolic blood pressure and interpulse interval in, H1291

PEX gene

mutations, F489
positional cloning of, F489

Pex gene

murine, F489

P-glycoprotein

endocytic recycling of, and drug resistance of cancer cells, C687
and phosphatidylcholine transport in hepatocyte membranes, G1312
and volume-sensing outward-rectifier chloride channels, C755

pH

blood, effects on erythrocyte potassium-chloride cotransporter, C1811
cytosolic, in two-cell mouse embryos, C405

extracellular

effects on intracellular pH in isolated rat taste buds, C1008

and Madin-Darby canine kidney cell proton extrusion, F499

gastric, monitoring device, for free-ranging animals, G748

gradient, in lung lamellar bodies, L427

human chloride channel activated by, C384

intra- and extracellular, motor responses of cerebral vascular smooth muscle cells to, H434

intracellular

and calcitonin, in distal convoluted tubules, F97

effect on low-conductance calcium-activated potassium channels, C230

in isolated rat taste buds, C1008

in rabbit collecting duct cells, regulation, F340

in rat aortic smooth muscle cells, atrial natriuretic factor and, C643

in rat terminal inner medullary collecting duct, ouabain and, F857

recovery, in OMCD₁ cells, C558

regulation, in avian reptilian-type nephrons, R1845

regulation, in bovine retinal pigment epithelium, C456

regulation, in renal inner medullary collecting duct cells, C1194

response to hypercapnia, in medullary neurons, R433

in vascular smooth muscle, regulation, F1039

and sodium-phosphate cotransport in opossum kidney cells, F396

Phalloidin

effects on cardiac sodium channel availability and activation, H1832

Pharyngeal sensation, see Pharyngeal water stimulation

Pharyngeal water stimulation

upper esophageal sphincter contractile reflex triggered by, G854

Pharyngo-UES contractile reflex

in humans, G854

Pharynx

function, in swallowing, G1071

Phase resetting

and bursting behavior in embryonic chick heart cell aggregates, C331

Phase response curves

in diurnal rodents, R278

in humans, R1800

Phase shifts

in diurnal rodents, reentrainment after, R278, R739

in humans, R1800

of photic cycle, in Siberian hamster, R1540

Phenylalanine

dietary intake, effects on renal dopamine secretion, in diabetic rat, R80

metabolism, splanchnic, in piglets, G1208

in muscle protein metabolism after exercise, E122

Phenylephrine

and aortic diameter in hypercholesterolemic rabbit, H1142

cardioprotection, in ischemia-reperfusion, H725

and carotid diameter in humans, H1629

inotropic response to, in neonatal rat heart, H1113

response to, in uterine arcuate artery, during gestation and postpartum, in rat, H1148

Pheochromocytoma (PC)-12 cells

neuropeptide Y release
autoreceptor-mediated, H1737

regulation, H1737

Phodopus, see Hamsters, Djungarian

Phodopus sungorus, see Hamsters, Siberian

Phorbol 12,13-dibutyrate

and inotropic responses of neonatal rat heart, H1113

Phosphatases

inhibition, and Kv1.3 channels, C622

unopposed action, and ezrin dysfunction, C710

Phosphates

see also **Inorganic phosphate**

dietary, gene product regulated by, F801

high-energy

in human skeletal muscle, C306

in muscle energy metabolism, C172

Phosphates (*continued*)

- and myocardial bioenergetics during prolonged ischemia, H1452
- in senescent myocardium, H418
- homeostasis, in health and disease, F489
- renal transport, R928
- in mouse models of X-linked hypophosphatemia, F113
- renal wasting of, in X-linked hypophosphatemic rickets, F489

Phosphatidylcholine

- complexes with apoA-1, and arterial vasomotion, H1215
- transporter, in hepatocyte membranes, G1312

Phosphatidylinositol

- signaling pathway
- for calcium influx during osmo-mechanical stress, F120
- in myometrial contractions, E665

Phosphatidylinositol 3-kinase

- activity in airway smooth muscle cells, EGF-stimulated, modulation by TGF- β 1, L1220
- in cardiac insulin signaling cascade, E59
- and lysophosphatidic acid, in renal proximal tubular cells, F575
- and mesangial cell proliferation and migration, F931

Phosphocreatine

- in single muscle fibers, postexercise, C172
- in skeletal muscle, contraction and, C306

Phosphoenolpyruvate carboxykinase

- in mice, IL-6 and, E262

Phospholamban

- and cardiac function
- in mouse, H2826
- in rat, H695
- and fast- and slow-twitch skeletal muscle, C1915
- and slow-twitch skeletal muscle, C1

Phospholipases

- PLA₂
- activity, apical angiotensin II-mediated, F554
- in afferent arteriolar response to angiotensin II, F274
- calcium-independent, apical angiotensin II receptor recycling and, F554
- cytosolic, and Madin-Darby canine kidney cells, C1605
- cytosolic, in inflammatory cytokine-induced arachidonic acid metabolism, L331
- cytosolic, phosphorylation, bradykinin-stimulated, in rabbit CCD cells, F907
- expression, transcriptional regulation in hepatic sepsis, G706
- and fibroblast growth, C1466

PLC

- activity in osteosarcoma cells, glucocorticoid regulation of, E528
- in pancreatic islets, IL-1 β and, E942
- in thyroid cells, TNF- α and, E638
- PLD, activity in rat heart, ischemic preconditioning and, H1860
- and extracellular calcium, effects on renal potassium channels, F421

Phospholipids

- peroxidation, neutrophil-mediated, assessment, C653

Phosphorylation

- HSP27, in smooth muscle, L930
- oxidative, in perfused rat tail artery, C834
- p47^{phox}, L1042
- tubulin, bradykinin-stimulated, in mesangial cells, F916
- tyrosine

Pyruvate dehydrogenase

- activity, in intact heart, H1432
- in muscle glucose metabolism, in rats, E139

Q

Q-T interval

- prolongation
 - cisapride-induced, H2534
 - left stellate ganglion stimulation and, H1696

Quercetin

- bioflavonoids, protection of mesangial cells from apoptosis, F206

Quinapril

- in volume overload-induced cardiac hypertrophy, H641

R

Rabbits

- acute enteric inflammation in, sensory afferents and, G447
- acute myocardial infarction in, myocardial hypothermia and, H220
- airway smooth muscle, adenosine receptor-mediated relaxation, nitric oxide and, L581
- aorta
 - endothelium-dependent relaxation, ceruloplasmin effects on, H2843
 - wall characteristics, in early atherosclerosis, H1142
- atrioventricular node myocytes, electrotonic interactions in, H767
- baroreflexes, closed-loop identification of open-loop transfer characteristics of, H1024
- cardiac angiotensin II formation in, H1769
- chronic ileitis in, sodium-glucose cotransport inhibition in, G913
- colon, sulfate secretion, C148
- COX-2 gene expression, cloning and tissue distribution, F18
- esophageal epithelium, effects of luminal hypertonicity on, G647
- femoral artery occlusion, angiogenesis with, H1255
- fetal lung, uptake of intra-amniotic surfactant, L55

heart

- atrioventricular nodal facilitation in, mechanism of, H1658
- CGP-48506 and EMD-57033 in, H2708
- heat shock preconditioning in, H2458
- left ventricular isovolumic relaxation, ejection and, H2696
- left ventricular pressure response to volume changes, H2044
- nonmechanical oxygen consumption, estimation of, H1032

kidney

- cortical collecting duct cells, bradykinin-stimulated cytosolic phospholipase A₂ phosphorylation in, F907
- localization of double-pore K channel KCNK1 in, F663
- macula densa cells, apical membrane ionic permeability, F817
- maxi potassium channel α -subunit, cloning and characterization, F615
- nephron segments, isolation, F650
- OCRL-1 in, cDNA cloning and localization of, F790
- peptide YY receptors in, F545
- proximal convoluted tubule bicarbonate absorption, luminal angiotensin II and, F595
- proximal tubules, cytoprotective effects of neurosteroids in, F869
- vasodilation, adrenomedullin and, R716
- volume-sensitive chloride channels, F680
- late preconditioning against myocardial stunning, adenosine receptors in, H1324
- liver, ET_A and ET_B receptors, and ET-1-induced portal vein contraction, G1036
- with meningitis, cerebral autoregulation and hyperemia in, leukocytes and, H380
- myocardial ischemia in, calcium transient alternans in, H2161
- myocardial ischemia-reperfusion in, nitric oxide and, in rabbit, H2931
- myofibrils, passive tension and stiffness, C266
- newborn, cardiomyocyte sodium/calcium exchange and contraction in, H837
- pregnant, baroreflex control of heart rate in, R960
- pulmonary artery, norepinephrine-induced contraction, H1075
- regional pulmonary perfusion in, R1465
- renal blood flow, sympathetic modulation of, R597
- responses to sleep deprivation, IL-1 inhibition and, R677
- single-breath diffusing capacity of nitric oxide in, R2055
- skeletal muscle
 - cyclic nucleotide-gated channels in, E1140
 - fast-twitch, low-frequency stimulation of, adaptation to, C297
- spinal resistance-sized small arteries, dilation, nitric oxide and prostaglandin dependence, H2217
- stomach, cholinergic neurotransmission in, nitric oxide and, G456

- urinary bladder epithelium, histone-induced damage, in mammal, C1925
- urinary tract, peroxisome proliferator-activated receptor distribution in, F1013
- vasopressin-induced neurohumoral interaction via area postrema in, effects on body fluid and blood pressure, R1696
- ventricular cells, Wenckebach-like rhythms, transient outward current and, H1

Raf

- in rat pancreatic acinar cells, C1472

Rainbow trout, see Trout

Raja erinacea, see Skate

Rana pipiens, see Frogs

Rana ridibunda, see Frogs

Rapamycin

- and p70^{s6} activation by cholecystokinin, C101

ras

- and mitogenic signaling in vascular smooth muscle cells, H1920
- in rat pancreatic acinar cells, C1472

Rats

- acute lung injury model
 - alveolar neutrophils in, L104
 - alveolar type I cells in, L1228
 - phosphatidic acid metabolism in, L957
- adipose tissue, amino acid metabolism, assessment of, E613
- adjuvant arthritis in, functional, inflammatory, and degenerative parameters in, R1550
- adrenalectomized, glutamine synthetase gene expression in endotoxemia, L1182
- adrenal medulla, leptin receptors in, E448
- adrenocortical sensitivity to ACTH, neural modulation of, E363
- aging
 - endothelial cell dysfunction in, H1941
 - fluid balance in, R1441
 - and gastric mucosal epidermal growth factor receptors, G389
 - left ventricular function and remodeling after myocardial infarction, H2652
 - and pressure diuresis and natriuresis response, R578
- airway inflammation in, angiogenesis with, substance P receptor upregulation in, L565
- airway surface fluid composition, microanalysis, L895
- alveolar epithelial cells, sodium-potassium ATPase isoforms in, differential expression of, L246
- alveolar macrophages, preprotachykinin gene-I mRNA encoding tachykinins in, L1073
- alveolar type I cells, in nitrogen dioxide-induced lung injury, L1228
- alveolar type II cells
 - cell cycle, on Matrigel in presence of KGF, L572
 - in culture, sulfation of extracellular matrix, L840
 - cysteine and cystine transporters in, L1147

- functional IL-2 receptor expression, L495

- injury, in hyperoxia, L548
- sodium-potassium ATPase, upregulation by dexamethasone, L825

- amylin-(8-37), and glucose and lipid metabolism, E859

- anterior pituitary, ATP receptors in, C1963

- antibody-induced proteinuria, and decreased podocyte ZO-1, F984

aorta

- desensitization of norepinephrine receptor function in, H279
- dynamics, in hypertension and aging, H96
- regional differentiation, H1478

aortic coarctation model

- hypertension in, sympathetic nervous system and, H2648

- pulmonary vascular regulation in, L113

- aortic smooth muscle cells, sodium/hydrogen antiport, modulation by atrial natriuretic factor, C643

- aquaporin-2 gene promoter in, F265

- arterial smooth muscle, sodium pump, IGF-I regulation of, E113

- arterioles, acetylcholine-induced dilation, H1848

- autonomic nervous system, function, fluctuations in, H786

- autosomal dominant polycystic disease in, F357

- baroreceptor-denervated, blood pressure regulation in, GABA in, R1657
- baroreflexes

- excitatory drive of rostral ventrolateral medullary neurons and, R487
- tonic inhibition by Fos protein, H2200

- blood calcium levels, hypothalamic control of, R1492

- blood conductivity measurement, as index of cardiac output, H2520

blood pressure

- hemorrhage-triggered fluctuations in, R58

- 0.4-Hz rhythm, R1878

- and renal sympathetic nerve activity, R851

brain

- angiotensin system, during dehydration, E156

- monocarboxylate transporter MCT1 in, E207

- brain-gut axis in, R2059

- brown adipocytes, lipolysis and thermogenesis, adrenergic regulation of, C1136

- brown adipose tissue, adenylyl cyclase system in, triiodothyronine administration and, E247

- burn-injured, ornithine α -ketoglutarate effects in, E557

- calcium appetite, polyethylene glycol-induced, R587

- calcium deficiency in, sodium chloride intake and, R423

- cardiac angiotensin II formation in, H1769

- cardiac expression of atrial natriuretic peptide, during chronic hypoxia, H411

- cardiac hypertrophy in, and heat shock protein expression, H526

Rats (continued)

- cardiac muscle, glucose transporters, regulation in vivo, H1309
- cardiac output
 - blood conductivity measurement as index of, H2520
 - measurement, H2520
- cardiomyocytes
 - calcium handling after calcium overload, H573
 - endothelin-1-induced ANP release, cAMP and calcium influx in, E922
 - energy metabolism, H756
 - metabolic downregulation, H756
 - mitochondrial calcium measurement in, C37
 - nitric oxide synthesis, adenosine and, H59
 - sodium-bicarbonate cotransport in, H2596
 - tetrahydrobiopterin synthesis, induction of, H665
- cardiovascular system, central angiotensin II and substance P injection and, R28
- central cardiovascular effects of endothelin-1 in, H1177
- central TxA_2 /PGH₂ receptors, vasopressin release by, H1927
- cerebral arteries
 - dilation by ATP and ADP, H1472
 - melatonin-induced constriction, H1530
- cerebral blood flow
 - activity-dependent, laminar analysis of, H1166
 - regulation, H878
- cerebral vascular smooth muscle cells, pH_i - and pH_o -induced vasomotion in, H434
- cholangiocytes
 - gastrin receptors, G1061
 - secretion, purinergic stimulation of, G1108
- cholecystokinin release in, dietary lectins and, G946
- chronic decerebrate, reward comparison in, R479
- chronic renal failure in, and lipoprotein lipase expression, F925
- circadian clock, suppression, persistent T lymphocyte rhythms with, R1891
- circadian locomotor activity, portacaval anastomosis and, G1218
- circumventricular organs, and fever, R1690
- cirrhotic
 - cardiomyocytes, potassium currents in, G537
 - sodium transport in thick ascending limb of Henle's loop, R568
 - vascular smooth muscle cell responsiveness to growth factors in, G883
- colitis in, effects on smooth muscle contractility, G928
- colon, inhibitory action of neurotensin in, nitric oxide and, G491
- colorectal distension in, viscerosensitive response to, CGRP and, G191
- conditioned taste preferences in, R1230
- corticosterone response to stress, maternal deprivation and, in adult, R1332
- cremaster muscle, microcirculation, NO and EDHF in, anesthetics and, H618
- dehydroepiandrosterone in, protection against obesity and insulin resistance, R1704
- diabetes mellitus model, *see* **Diabetes mellitus, rat model**
- diabetic
 - see also* **Diabetes mellitus, rat model**
 - exercise, before and during gestation, effects on maternal and neonatal outcomes, E727
 - glucagon-like peptide 2 in, and intestinal growth, E815
 - renal glucose transporter expression in, regulation by IGF-I, F27
 - renal medulla urea transporter, regulation by glucocorticoids, F949
 - sciatic nerve blood flow in, E164
 - sciatic nerve blood flow in, effects of surgical exposure on, E174
 - superoxide dismutase and islet microcirculation in, E376
- dietary sodium supplementation and angiotensin II administration in, synergistic vascular effects, H1275
- diet selection, carbohydrate source and, R2040
- diving in, bradycardia during, R814
- with DOCA-salt hypertension, natriuretic peptide receptor gene expression in, C1427
- dorsal root ganglion neurons, activation by eosinophils, L1096
- dorsomedial medulla, control of fluid intake, R1299
- duodenal secretion, angiotensin II and, R942
- duodenum, function, neurokinin A and, G1077
- eating behavior
 - N-methyl-D-aspartate receptor glycine site and, R790
 - prepiriform cortex and, R554
- Eker, TSC2 gene product and, H1619
- endothelial cells, microvascular and macrovascular, differential nitric oxide production, L275
- endotoxin-induced cardioprotection in, H725, H1894
- enterocytes
 - glycolysis in, G968
 - mature and immature, insulin receptor expression, G217
 - parathyroid hormone and, C1349
- erythropoietin gene expression in, in inflammation, R1067
- fat-fed, insulin resistance in, and protein kinase C in skeletal muscle, E915
- fatty acid ethyl ester metabolism, in vivo, G184
- feeding behavior, stimulation by cAMP, R838
- female
 - see also* **Rats, pregnant**
 - lipid deposition in, steroid hormones and, E355
 - liver, β - and α -adrenergic glycogenolysis, corticosteroids and, R153
- fetal malformations, nitric oxide-independent, R1031
- fibroblasts, oncogene-transfected, isolated from spheroids, mitochondrial function, C1487
- focal cerebral ischemia, potassium channels in, R583
- food intake and body weight, effect of restraint stress on, time of day and, R1612
- forebrain parasympathetic control of heart activity in, H2926
- gastric branch vagotomy in, effects on gastric emptying of glucose, R1786
- gastric emptying in, GLP-1 effects on, G920
- gastric ischemia-reperfusion injury, nitric oxide-releasing aspirin derivative effects on, G1246
- gastric smooth muscle, nitric oxide synthase induction in, G1101
- gastrocnemius muscle, length dependence of staircase potentiation in, C198
- genetically diabetic, potassium currents in ventricular cardiomyocytes of, E695
- genetic hypertension model, renin-angiotensin system in, R1793
- glucose-6-phosphatase expression in sepsis, R1709
- glucose transporters in heart and skeletal muscle, chronic hypoxia and, R1734
- GRK6 splice variants, molecular cloning of, C953
- guanylin, structure and activity, E957
- gut hypoplasia during total parenteral nutrition, prevention by GLP-2, G559
- heart
 - atrioventricular contractile differences in, sarcoplasmic reticulum function and, H2498
 - contractile function, during ischemia, inorganic phosphate and coronary perfusion pressure and, H566
 - contractile function, stimulation frequency and, H1246
 - endocrine function, regulation by stretch and ET-1, H2678
 - glucose uptake in myocardial ischemia, insulin and, H2170
 - intracellular sodium concentration, stimulation frequency and, H1246
 - ischemic preconditioning, and intracellular pH during ischemia, H2257
 - mechanical workload-mycardial water content relationship in, H271
 - phospholipase D signaling in, ischemic preconditioning and, H1860
 - protection against ischemia, heat stress and, H1333
 - rate-dependent abbreviation of calcium transient in, H695
 - reperfusion, ET-1 in, H1119
- heart failure model
 - genetic, age-dependent augmentation of endothelial nitric oxide synthase in, H1223
 - isopeptide-specific induction of myocardial ET-1 in, H1727
 - plasma renin activity in, H228
 - and reflex control of heart rate and sympathetic nerve activity, H2580
- heart rate, control, after myocardial infarction, H2240

- heart ventricles, remodeling, angiotensin II inhibition and, H1824
- heat stress, hemodynamic adjustment to, nitrosyl factors and, H1537
- heatstroke, hemodynamic changes during, H2072
- hemodynamics, *S*-nitroso-penicillamine and, H1493
- hemorrhage, resuscitative effect of diaspirin cross-linked hemoglobin after, H827
- hemorrhagic hypotension in attenuation by glycyl-L-glutamine, R1598
- inhibitor GP515 in, G1297
- hemorrhagic shock model and alveolar fluid clearance, L296
- plasma atrial natriuretic peptide in, R1623
- renal atrial natriuretic peptide receptors in, R1623
- hepatocyte growth factor elimination mechanisms in, E891
- hepatocytes
- inducible nitric oxide synthase gene expression, glucocorticoids and, G1290
 - permeability to potassium, fructose 1,6-bisphosphate and, C473
 - pH-dependent reperfusion injury, mitochondrial permeability transition in, C1783
 - purine metabolism in, regulation, G239
 - sodium-taurocholate cotransport, regulation, G842
- high-fat feeding, and hypothalamic-pituitary-adrenal activity, E1168
- hindlimb vasculature, nitric oxide-containing factors in, H228
- hormone and glucose metabolic response to endotoxin, sensory nerves and, E328
- hypercholesterolemic, reperfusion injury in, H854
- hyperoxic, alveolar sodium resorption in, L1191
- hypertensive
- see also **Spontaneously hypertensive rats**
 - neural regulation of kidney function in, R1749
 - nitric oxide and arterial hemodynamics in, H1816
 - pulmonary vascular regulation in, L113
 - transgenic, angiotensin levels in proximal tubular fluid, kidney and blood of, F246
- hyperthyroid, cardiac hypertrophy in, renin-angiotensin system and, H593
- hypobaric trained, cardiac natriuretic peptide synthesis in, R344
- hypoglycemic, catecholamine release in, R1758
- hypotensive, oxytocin release in, R1474
- hypoxia-induced hypothermia in, nitric oxide and, R967
- hypoxic
- autonomic cardiovascular response in, R747
 - mitochondrial function in, C852
 - nitric oxide synthase gene expression in, R905
- ileum, *Clostridium difficile* toxin A enterotoxigenicity, inhibition by IL-11, G333
- insulin-resistant JCR:LA-*cp*, postischemic cardiac performance in, H1187
- intestinal transplants, intrinsic nervous system in, chronic allograft rejection and, G413
- intestine
- adaptation, dietary lipids and, G713
 - indomethacin-induced inflammation, dietary diosgenin and, G355
 - iron uptake in, G636
 - ischemia, local and remote injuries after, α_1 -acid glycoprotein and, G1031
 - NHE3 expression during ontogeny, C1937
 - sodium/hydrogen exchanger isoforms in, C1496
 - stress-induced transport abnormalities, cholinergic nerves and, G486
 - wall movements, analysis in vitro, G776
- intramuscular glucose metabolism, E139
- iridial arterioles
- electrical properties of, H2465
 - neuropeptide Y in, H2119
- jejunum, SGLT-1 transport activity, up-regulation induced by glucagon-like peptide-2, R1965
- kallikrein-kinin system, cyclosporin A effects on, F783
- kidney
- AE2 anion exchanger in, immunocalcification, F601
 - afferent arterioles, contractile state, F768
 - angiotensin AT₁ receptor immunohistochemical localization in, F170
 - bicarbonate secretion, kallikrein and, F807
 - cortical collecting ducts, ROMK in, F404
 - cortical tubules, sodium/hydrogen exchanger isoforms, C1064
 - development, R1421
 - development, ALK-5 gene expression in, F386
 - distal tubule acidification in vivo, ET-1 and, F586
 - dopamine DA₁ receptor coupling with G proteins in, F53
 - function, nitric oxide and angiotensin II interactions and, R1676
 - ischemia, villin redistribution in, F1003
 - localization of glutamate transporter EAAC1 in, F1023
 - local renin-angiotensin systems, response to chronic changes in dietary NaCl, F892
 - loop of Henle, respiratory acid-base effects on bicarbonate transport in, F698
 - mechanoreceptors, in chronic hypoxia, F712
 - medullary tissue ion content and blood flow in, F658
 - mesangial cells, actin stress fiber assembly in, F283
 - mesangial cells, migration, IGFBP-5 and, F899
- mesangial cells, platelet-activating factor receptor expression in, F445
- mesangial cells, protein kinase C- ζ isoform and iNOS and COX-2 expression in, C130
- nephrogenesis, cyclooxygenase-2 in, F994
- nephron segments, isolation, F650
- peptide YY receptors in, F545
- potassium channels in thick ascending limb, F421
- proximal tubular fluid reabsorption, angiotensin II receptor blockade and, R510
- proximal tubule epithelial cells, β_2 -adrenoceptors in, and PKC activity, F193
- ROMK protein distribution in, F739
- sodium/hydrogen exchanger isoforms in, C1496
- sodium-potassium ATPase, regulation by protein kinases, C1981
- syntaxin isoforms in, F718
- TxA₂/PGH₂ receptor expression, salt loading and, F976
- vasoconstriction to endothelin-1 and angiotensin II, R293
- leptin metabolism in, E1102
- leptin-responsive gastric vagal afferents, R833
- lipoprivic feeding in, ontogeny of, R1649
- liver
- α_1 -adrenergic signaling cascade, E1063
 - indocyanine green clearance, G227
 - inflammatory dysfunction, nitric oxide synthesis and, G530
 - insulin-sensitive enzymes, in offspring of protein-restricted dams, G899
 - phospholipase A₂ expression, transcriptional regulation in sepsis, G706
 - regeneration, after partial hepatectomy, G905
- with liver cirrhosis, glucose metabolism in, IGF-I effects on, E1189
- lower airway irritation, spinal cord neuronal responses to, in rat, R1147
- low-T₃ syndrome in, cardiac function and gene expression in, E951
- lung
- fetal, elastin gene expression in, L410
 - fetal, fibroblast proliferation and collagen in, hyperoxia and, L726
 - fetal, glycogen mobilization in, L389
 - fetal, insulin-like growth factor binding protein expression, L1174
 - glutamine synthetase gene expression in endotoxemia, L1182
 - ischemia-reperfusion injury, L46
 - microvascular leukocyte entrapment in, H2361
 - microvascular permeability, L22
 - perinatal insulin-like growth factor binding protein expression, L1174
 - reoxygenation versus ischemia in, L112
 - silica-treated, SP-A gene expression in, L395
- Lyon hypertensive, renin-angiotensin system in, R1793
- macrovascular compliance in, PDGF BB isoform and, H1719

Rats (continued)

- meal patterns, macronutrients and, R1916
- mesenteric artery function, chondroitin-dermatan sulfate-containing proteoglycans and, H952
- mesenteric collecting lymphatics, effects of α -adrenergic stimuli on, R331
- mesenteric small arteries, structure, blood flow and, H1699
- microvascular ICAM-1 expression, H138
- middle cerebral artery, nitric oxide-synthesizing perivascular nerves in, R661
- muramyl dipeptide and IL-1 effects on sleep in, R1663
- myocardial cells, heparin-releasable LPL activity, inhibition by fatty acids, E759
- myocardium
 - calcium currents, endurance training and, H1193
 - calcium handling by, extracellular ATP effects on, H1347
 - growth in volume hypertrophy, mechanical regulation, H1198
- myometrium, contractions, intracellular mechanisms underlying, E665
- neuropeptide Y release, and feeding behavior, R2112
- neutrophils, glutamine utilization, C1124
- newborn
 - A5 noradrenergic cells, H2280, H2290
 - A6 noradrenergic cells, H2290
 - cardiomyocytes, myosin isoforms, hormonal and neurogenic control, C489
 - cardiomyocytes, sodium-potassium ATPase, hormonal and neurogenic control, C489
 - corticosteroid production, adrenal vasoactive intestinal peptide and, R1163
 - heart, inotropic responses, H1113
 - heart cells, myosin heavy chain gene expression in, C394
 - lipoprivic feeding in, R1649
 - lung fibroblast gene expression in, peroxisome proliferators and, L1249
 - sleep regulatory mechanisms, development, R472
 - tumor necrosis factor- α tolerance in, R1158
 - ureteral obstruction, AT₁ and AT₂ receptors in, R503
- normotensive
 - neural regulation of kidney function in, R1749
 - nitric oxide and arterial hemodynamics in, H1816
- nucleus accumbens, medullary inputs to, R2080

 and circadian rhythms in malnutrition, R1321
 neurotransmitters in, vitamin B₁₂ and, R359
 tapeworm infestation, effects on intestinal transit and enteric aerobic bacteria, G480
 taste receptor cells, intracellular pH, acid-induced changes in, C1008
 thyroid status
 and adenylyl cyclase activity in brown adipose tissue, R762
 and adenylyl cyclase subtype gene expression in brown adipose tissue, R762
 tissue-specific adaptations to glucose oversupply, E1
 TNF- α - and endotoxin-treated, leucine metabolism in, E1052
 trabeculae, intracellular calcium in, C2046
 trachea
 γ -glutamyl transpeptidase-related enzyme in, L1082
 mucus in, L1036
 transesophageal echocardiography in, intravascular ultrasound catheter for, H2078
 transgenic, hypertensive, estrogen-mediated antihypertensive mechanisms in, R1908
 tubuloglomerular feedback effector mechanism in, R1414
 tumor growth in, effects of methionine deficiency and IGF-I on, E10
 uremic, accelerated glycogenolysis in, E17
 urinary bladder, hyperactivity induced by cerebral infarction, anesthesia effects on, R1900
 uroguanylin, structure and activity, E957
 uterine artery, reactivity during gestation and postpartum, H1148
 vagal CCK-A receptors, and pancreatic secretion, G679
 vagus nerve
 and febrile response to endotoxin, R407, R777
 and IL-1 β -induced sleep and fever, R1246
 and thermoregulation, R784
 vascular smooth muscle, α_{2D} -adrenergic receptor gene expression in, CRE-like response element and, H85
 vasopressin secretion, dehydration and, R35
 ventricles

Kv4 potassium channels, modulation by PKC, H1775
 transient outward potassium current, H1775
 ventrolateral medulla, serotonin changes in, during muscle contraction, H2899
 weight-lifting exercise, skeletal muscle hyperplasia after, C246
 Wistar-Kyoto
 calcium ATPase isoforms in, F76
 G protein mRNA expression in renal vasculature in, F877
 wound healing in, extracellular insulin degradation in, E657
 zinc kinetics in, compartmental model, R1117
Reactive nitrogen species
 molecular and phenotypic responses of lung epithelial cells to, L789
Reactive oxygen species
 in hepatic inflammation, antioxidant status and, G1304
 mitochondrial, G7
 molecular and phenotypic responses of lung epithelial cells to, L789
 nitrogen dioxide-induced, extracellular, L1265
 and NNMU-induced lung injury, L1167
 in septic liver, G1118
Receptor-mediated endocytosis
 of hepatocyte growth factor uptake, E891
Rectum
 compliance, hyperglycemia and, G859
 mechanosensory perception, hyperglycemia and, G859
 motor function, hyperglycemia effects on, in humans, G859
Red blood cells, *see* Erythrocytes
Reentry
 modeling, in embryonic chick heart cell aggregates, C331
 reentrant wavefront instabilities induced by acetylcholine in, H356
 sympathetic and vagal effects on, H805
Reference indicator
 for kinetic measurements, R828
Regulatory volume decrease
 in HeLa cells, C999
 in rabbit distal bright convoluted tubules, F680
Reindeer
 feces, for estimation of isotopic abundance in doubly labeled water studies, R1451
Renal sympathetic nerve activity
 direct central inhibition by angiotensin II, in sheep, R554
 in heart failure, H2664
 in hypoxic rat, R747
 multifiber recordings, prediction of mean arterial blood pressure in rat, R851
 nitric oxide in paraventricular nucleus and, R864
 and renal blood flow, in rabbit, R597
 and sodium metabolism in spontaneously hypertensive rats, R70
Renin
 glomerular, regulation by chronic changes in dietary NaCl, F892
 plasma, in heart failure, H228
 proximal tubule, regulation by chronic changes in dietary NaCl, F892

release, during exercise, in dog, H2135
 in response to novel environment, in pregnant rat, R1053
 secretion
 hydrogen-potassium ATPase inhibition effects on, in dogs, F457
 renal arterial pressure and, F200
 renal blood flow and, F200
Renin-angiotensin-aldosterone system
 calcium deficiency and, in rat, R423
 downregulation, in pressure escape with reduced renal perfusion pressure, R646
Renin-angiotensin system
 see also **Angiotensin; Angiotensin II**
 autocrine, and renal adaptation to dietary NaCl changes, F892
 and duodenal secretion in rat, R942
 and estrogen-mediated antihypertensive mechanisms in transgenic hypertensive rat, R1908
 hemorrhage-induced activation of, in rat, R58
 in kidney, in hypertension, R1980
 in Lyon hypertensive rat, R1793
 and renal Pgf_{2 α} formation, in rat, R1103
 in thyroxine-induced cardiac hypertrophy, H593
Reperfusion, *see* Ischemia-reperfusion
Reptiles
 anaerobiosis, glutathione systems in, R219
 pulmonary fluid balance, regulation by surfactant, R2013
Research
 cardiovascular, statistical problems in, H487
Resistance
 vascular
 during head-down neck flexion in humans, R1142
 in rat, R1126
 in women, H777
Resistance arteries
 functional behavior, chondroitin-dermatan sulfate-containing proteoglycans and, H952
 response to hypoxia and vasodilators during hypertension and high salt intake, H869
Resistance arterioles
 ileal, ET-1 effects on, potassium channels and, G1087
Resistance vessels
 dilation, acetylcholine-induced, H1848
 synergistic effects of high-sodium diet and angiotensin II administration on, H1275
Respiration
 see also **Breathing**
 modulation of muscle sympathetic nerve activity, R205
 regulation, in cat, R1946
Respiratory quotient
 in *Sminthopsis crassicaudata*, R161
Respiratory sinus arrhythmia
 estimation, H1012
Respiratory syncytial virus
 human airway smooth muscle interleukin production in response to, L648

Resuscitation

after hemorrhagic hypotension, adenosine kinase inhibitor GP515 and, G1297

Retina, see Eye, retina

Retinoblastoma gene

pRB gene product
in alveolar type II cells on Matrigel in presence of KGF, L572
destabilization, L941

Retinoic acid

regulation of sodium-dependent cotransporters in OK cells, F438

Retinoids

endogenous, and lung elastin gene expression, L410
and tight junctional resistance in human cervical cells, C1707

Retrosomes

intracellular cholesterol transport in, C1075

Reverse transcription-polymerase chain reaction, see Polymerase chain reaction

Rhesus monkey

sweat glands, sodium-potassium-chloride cotransporter in, R270

Rhinovirus

infection, of airway epithelial cells, L749
stimulation of IL-8, NF- κ B and, L814

Rho

in cAMP-induced actin stress fiber disassembly in rat glomerular mesangial cells, F283

Richardson's ground squirrel, see Ground squirrels

Rickets

X-linked hypophosphatemic mouse models, F113
pathophysiology, F489

Rilmidenine

antihypertensive effects, imidazoline receptors and, R1567, R1569

Rodents

see also **Mice; Rats**
diurnal

free-running rhythms, and phase response curves, R278
free-running rhythms, social cues and, R797
reentrainment after phase shifts of light-dark cycle in, R278, R739

Rubidium-86

as tracer for fluid and ion transport in corneal endothelium, C1480
uptake, and sodium-potassium-chloride cotransporter function, L211

Ruthenium red

and intracellular calcium in cardiomyocytes, C37

RX-77368

gastric hyperemic and acid responses to, G31

Ryanodine

and left ventricular function, in dog, H1561
negative chronotropic effect, ionic basis of, H2481
and sarcoplasmic reticulum function, in neonatal swine cardiomyocytes, H192

Ryanodine receptors

agonists, C1588

in atrial and ventricular myocardium, H2498

dysfunction, in stunned myocardium, H796

expression, in rat parotid acinar cells, C1306

niflumic acid and, in frog, C1588

S

Salbutamol

and ion channels in guinea pig ventricular myocytes, H1669

Salivary gland cells

human, intracellular calcium stores, IFN- γ and, C2030
rat, upregulation of P2Y₂ nucleotide receptors, C1100
ryanodine receptor expression, C1306

Salivary glands

submandibular
cystic fibrosis transmembrane conductance regulator in, C442
novel peptide from, protective effect against endotoxic and anaphylactic shock, R1017

Salt

see also **Sodium chloride**

absorption, renal, C1623
dietary, and renal thiazide receptor, R1241
intake, and resistance artery response to hypoxia and vasodilators, H869
loading
in prolonged fasting, effects on kaliuresis, F796
and rat renal sensory receptors, F712
and rat renal TxA₂/PGH₂ receptor expression, F976

Salt appetite

see also **Sodium appetite**
polyethylene glycol-induced, R587

Salt taste transduction

mechanisms, in rat, R1923

Sample size

in cardiovascular research, H487

Sapacin B

effects on calcium-activated potassium currents in pituitary cells, C289

Sarcolemma

fructose uptake, GLUT-5 and, E543
glucose transporter, and exercise, E220

Sarcopenia

in aging, E790

Sarcoplasmic reticulum

calcium ATPase
in heart failure, H12
in neonatal swine cardiomyocytes, H192

in stunned myocardium, H796

calcium channels, in rat portal vein myocytes, H2867

calcium content, and cardiac calcium channels, C1666

calcium handling

after calcium overload, H573
in defective chick heart, H1464
in fast- and slow-twitch skeletal muscle in mouse, C1915
in neonatal swine cardiomyocytes, H192

in stunned myocardium, H796

calcium release

in gastric myocytes, C1947

ryanodine-sensitive, C2090

calcium uptake
and myocardial contractile function, H2498

in neonatal swine cardiomyocytes, H192

and rate-dependent abbreviation of calcium transient in rat heart, H695

in stunned myocardium, H796

cardiac, calcium release, by cADP-ribose, H1082

diastolic calcium efflux

in atrial pacemaker cells, H886

in calcium-overloaded myocytes, H886

function

in atria and ventricles, H2498

sodium/calcium exchanger and, H2765

in muscle relaxation, C1

and sodium/calcium exchange in cardiomyocytes, H1984

Sarcoplasmic reticulum calcium-binding protein

gene expression, in low-T₃ syndrome, E951

Sarco(endo)plasmic reticulum calcium pump

inhibition by IFN- γ , C2030

SERCA2b isoform, peroxide effects on, C420

SERCA3 isoform, peroxide resistance, C420

Satiety

see also **Food intake; Meal size**

intestinal injury and, R1779
macronutrient-induced, in rat, R1916
regulation, R833

in rat, R972

Sch-28080

hydrogen-potassium ATPase sensitive to, in MDCK cells, F499

SCH-32615

and natriuresis in heart failure, H2372

Sciatic nerve

blood flow, in diabetic rats, E164

effects of surgical exposure on, E174

Scymnol sulfate

enterohepatic circulation, in elasmobranch, G1023

Seabirds

digestive physiology, monitoring device for free-ranging animals, G748

Seasonality

of reproductive hormone secretion, in hamster, R2032

Sea urchins

embryos, L-type calcium channel distribution in, C822

Seawater fish

gill, chloride channels in, C874

Second messengers

see also **Adenosine 3',5'-cyclic monophosphate; Calcium ions; Signal transduction**

in airway smooth muscle, L775

in CF/T43 cells, L363

in pulmonary vasoreactivity to serotonin, L142

Secretin

ductal secretion induced by, gastrin effects on, G1061

Secretin receptors

gene expression, in cholangiocytes, G518

Secretory glands

aquaporins, in rat, C1541
subcellular distribution, C1549

Selectins

and gut ischemia-reperfusion, G1031
and inflammatory response
to platelet-activating factor, G56
to tumor necrosis factor, G628
in liver disease, G602
in postischemic venules of hypercholesterolemic rat, H854

Senescence, *see* Aging

Sensory nerves

in hormone and glucose metabolic response to endotoxin, E328
in spinal cord, calcitonin gene-related peptide release, E92

Sepsis

see also Infection

cardiomyocyte contractile function in, H1403
endothelial intercellular adhesion molecule 1 in, C1571
glucose-6-phosphatase expression in, in rat, R1709
hepatocellular damage in, nitric oxide, peroxynitrite and reactive oxygen species in, G1118
insulin secretion and TNF activity in, E433
and leukocyte adhesion and transmigration in liver vasculature, G1169

SERCA, *see* Sarco(endo)plasmic reticulum calcium pump

SERCA2, *see* Sarcoplasmic reticulum, calcium ATPase

Serotonin

and activity-dependent entrainment of circadian clock, in mouse, R265
cerebrovascular mast cell exocytosis, inhibition by norepinephrine, R845
and colonic motility, G68
extracellular, in ventrolateral medulla, during muscle contraction, H2899
and IL-1-induced fever, in rat, R1663
interaction with thyrotropin-releasing hormone, at dorsal vagal complex, R1607
and muramyl dipeptide and IL-1 effects on sleep, in rat, R1663
in portal vein plasma and mesenteric lymph, during ischemia-reperfusion, H1135
pulmonary vasoreactivity to, L142
and sleep-wake cycle regulation, R451
turnover, in brain, prenatal dexamethasone exposure and, R1669

Serotonin receptors, *see* 5-Hydroxytryptamine receptors

Serpin enzyme complex receptor

gene transfer via, into hepatoma cells, G545

Serum amyloid P component

serum, in Turkish hamster, R934

Sevoflurane

and cardiac inward rectifier current, H324
and parasympathetic reflex vasodilation, in cat, R168

Sex differences, *see* Gender differences

Sex steroid hormones

and endothelium-dependent relaxation in coronary arteries, H2325
and immunocompetence, in deer mice, R655
male, and macrophage function after trauma-hemorrhage, C1335
and regulation of endothelial nitric oxide synthase and ET-1, H1962
responses to, in Turkish hamster, R934

SGLT, *see* Sodium-dependent glucose transporter

Shark

rectal gland, salt secretion, guanylyl cyclase receptors and, R1400
renal sodium-D-glucose cotransport, R134

Shear stress

downregulation of VCAM-1 gene transcription, C1506
and endothelial nitric oxide production, H347
and interendothelial cell adhesion, H2396
and intracellular calcium in articular chondrocytes, C30
in mesenteric small arteries, H1699
and microvascular blood flow resistance, H2272
in skeletal muscle arteries, H2423
in spinal resistance-sized small arteries, H2217

Shear stress responsive element

in endothelial cells, C1441

Sheep

airway parasympathetic innervation, development, R121
brain, selective cooling, R1108
fetal
cerebral circulation during hypoxia, H1994
congenital bilateral urinary obstruction, role of TGF- β 1 in, F372
growth effects of hypoxemia in, R1094
hypoxemic, cardiac β -adrenergic receptor function in, R2022
pressure-overload cardiac hypertrophy, angiotensin II in, R1501
gastrointestinal tract protein metabolism, with lucerne forage, G1200
heart, maturational changes in, H1977
heart failure model, natriuretic peptide metabolism in, H2372
immature lambs, glucocorticoids and surfactant components in, L1048
neonatal, pulmonary catecholamine clearance and spillover at birth, L264
newborn, phlebotomy-induced anemia in, effects of iron supplementation on, R2124
placenta, glucose transporters, developmental increases in, R1132
renal sympathetic nerve activity, direct central inhibition by angiotensin II, R554
thirst and sodium appetite, angiotensin II in, R187

Shift work, *see* Diurnal rhythms

Shigatoxin

transcellular transport of, G1349

Shock

see also Heat stress

anaphylactic, protection against, by novel peptide from rat salivary glands, R1017

circulatory

see also Shock, hemorrhagic
and calcitonin gene-related peptide release in spinal cord, E92

endotoxic

mesenteric synthesis of cytokines after, G314

protection against, by novel peptide from rat salivary glands, R1017
tumor necrosis factor- α in, H164

hemorrhagic

and alveolar fluid clearance, L296
granulocyte colony-stimulating factor production in, L1058

hepatic leukocyte adhesion in, adenosine kinase inhibitor GP515 and, G1297

mesenteric synthesis of cytokines after, G314

myocardial ischemia in, energy metabolism and blood flow distribution in, H600

nitric oxide-releasing aspirin derivative in, G1246

rat model, plasma atrial natriuretic peptide in, R1623

rat model, renal atrial natriuretic peptide receptors in, R1623

resuscitative effect of diaspirin cross-linked hemoglobin in, H827

hypotonic, cellular response to, C57

PAF-induced, P-selectin and, G56
septic, hepatic dysfunction in, G706

Short-circuit current

in A6 distal nephron cells, stimulation by prostaglandin E₂, C548

Signal transducer and activator of transcription, *see* Stat signaling pathway

Signal transduction

see also Second messengers

in β_2 -adrenergic receptor-dependent sodium transport in proximal tubules, F193

α_1 -adrenoceptor, and ischemic preconditioning in human myocardium, H902

in adult cardiomyocytes, H1044

in alcoholic hepatocytes, G7

in alveolar type II cells, during injury, L1242

by angiotensin II, and renal vascular responsiveness in hypertension, F877

in apoptosis, L1029

bile acid-related, in modulation of ductal bile secretion, G518

calcium-related
changes in ATP during, C1416

in myogenic response, H175

by CCK receptor, in pancreatic acini, G1226

in *c-fos* transcription, C2037

in CFT43 cells, L363

by cholecystokinin peptides, and pancreatic secretion, G735

cholinergic modulation, in neuroblastoma cells, C612

in cyclic nucleotide-gated channels, E1140

EGF pathway, in fetal lung mesenchymal cells, L374

Signal transduction (continued)

- EGFR-induced, in gastric mucosa of aging rats, G389
 - in endothelin-1-induced ANP release in rat cardiomyocytes, E922
 - endotoxin-induced, R1870
 - in epithelial cell growth and differentiation, G759
 - in gastric acid secretion, G1263
 - for glucose transporter expression, E68
 - G protein-coupled, in renal epithelial cells, F883
 - by G protein-coupled receptors, G586
 - guanylin, in stomach and intestine, G93
 - in hepatic stellate cell activation, G804
 - for hexose transport, in heart, H2170
 - by histamine H₂-receptor, G987
 - for HSP27 phosphorylation in airway smooth muscle, L930
 - in hypoxia-induced mesangial cell proliferation, F954
 - insulin, in mature and immature rat enterocytes, G217
 - in lipoprotein-stimulated surfactant secretion in alveolar type II cells, L634
 - in liver, after burn injury, G1153
 - in liver cell necrosis, G795
 - in lung injury, L459
 - mechanochemical, H175, H347
 - of microvascular hyperpermeability, H2442
 - for mucin secretion by airway goblet cells, L201
 - in myometrial contractions, E665
 - in myosin heavy chain gene expression in neonatal rat heart cells, C394
 - in osmo-mechanically induced calcium influx into renal epithelial cells, F120
 - osteoblastic, aging and, E776
 - parathyroid hormone, in LLC-PK₁ cells, E383
 - phospholipase D, in rat heart, H1860
 - by platelet-derived growth factor receptor, and mesangial cell proliferation and migration, F931
 - by protein kinase C, in rat mesangial cells, C130
 - in rat enterocytes, parathyroid hormone effects on, C1349
 - in regulation of free cytosolic calcium in clonal gonadotrophs, E850
 - in regulation of red blood cell filterability, C1828
 - of smooth muscle contractions induced by sodium nitroprusside and cGMP, G247
 - in thyroid cells, TNF- α and, E638
 - in TNF-induced oxidative stress, G7
 - and transendothelial migration of monocytes, E453
 - and upregulation of cyclooxygenase-2 in cerebral microvascular endothelial cells, C277
 - uroguanylin, in stomach and intestine, G93
 - in vascular smooth muscle cells, H971
- Silica**
- apoptosis induced by, in alveolar macrophages, ICE family of proteases in, L760
 - pulmonary surfactant protein A gene expression in response to, L395

Sinoatrial node

- cells, diastolic function, H886
- C-type natriuretic peptide and, in dog, H1933
- denervation
- and aortic coarctation hypertension in rat, H2648
- and autonomic control after acute exercise, H2738
- pacemaker cells, negative chronotropic effect of ryanodine on, ionic basis of, H2481
- sympathetic and parasympathetic outflows to, H2857

Skate

- enterohepatic circulation of scymnol sulfate in, G1023
- renal sodium-D-glucose cotransport, R134

Skeletal muscle, see Muscle, skeletal

Skin

- blood flow
- angiotensin II and, H2620
- autonomic control and, H1867
- functional β -adrenoceptors and, H1038
- sympathetic outflow, during head-down neck flexion in humans, R1142
- temperature, oscillations, in normal humans, R1173
- vasoconstriction, vagus nerve and, in rat, R784

Sleep

- and cardiac effects of autonomic nervous system, H1761
- IL-1 β -induced, in vagotomized rat, R1246
- interleukin-1 and, after serotonin depletion, in rat, R1663
- muramyl dipeptide and, after serotonin depletion, in rat, R1663
- octreotide-induced changes in, in rat, R1484
- propensity, nocturnal melatonin onset and, R364
- rapid eye movement (REM) generation, in rat, R896
- regulation, pontine cAMP and PKA in, in cat, R1430

Sleep deprivation

- responses to, IL-1 inhibition and, in rabbit, R677

Sleep-wake cycle

- diurnal organization, in rat, R472
- regulation, R364
- GABA release in dorsal raphe nucleus and, R451
- serotonin and, R451

Small intestine, see Intestine, small

Sminthopsis crassicaudata

- brown fat in, R161
- energy balance in, mechanisms, R161

Smoking

- and baroreflex sensitivity in humans, H1555
- and chylomicron metabolism, in rats, G158
- and endothelium-dependent vasodilation, H1644

Smooth muscle, see Muscle, smooth

SMR1, see Submandibular rat 1 protein

SNPEN, see S-Nitroso-penicillamine

Sodium appetite

- see also Salt appetite

- in aging rat, R1441
- angiotensin II in, in sheep, R187
- in rat, R1381

Sodium-bicarbonate cotransport

- in bovine retinal pigment epithelium, C456

- in cardiomyocytes, in adult rat, H2596

Sodium/calcium exchange

- in canine airway smooth muscle, L322
- in cardiomyocytes
- carbachol and, H1984
- and contraction, in newborn rabbit, H837
- in perfused rat heart, H1246

Sodium currents

see also Sodium channels

- persistent, in A5 noradrenergic cells, H2280

Sodium-dependent glucose transporter

- SGLT-1
- in skate and shark, R134
- upregulation by GLP-2, in rat jejunum, R1965
- SGLT-2, in skate and shark, R134
- Sodium-dicarboxylate cotransporter**
- NaDC-2
- expression cloning of, G267
- functional properties, G267

Sodium-glucose cotransport

inhibition, in chronic ileitis, G913
in LLC-PK₁ cells, protection and enhancement by heat stress, F530

Sodium-glutamic acid cotransport

retinoic acid effects on, in OK cells, F438

Sodium/hydrogen antiporter (sodium/hydrogen exchanger)

in airway epithelia, distribution, L148
dual modulation by atrial natriuretic factor, in rat aortic smooth muscle cells, C643

and electrochemical gradients across lung lamellar body membrane, L427

in hepatic stellate cells, and regulation of pH_i, G39

in ischemia-reperfusion injury, H2232
isoforms

in rat cortical tubules, C1064
in rat intestine and kidney, C1496

and negative chronotropic effect of ryanodine, H2481

NHE3

functional and molecular characterization during rat intestinal ontogeny, C1937

immunohistochemical localization in rat kidney, F289

in nonpigmented ciliary epithelium, C1700

and regulation of cytosolic pH in two-cell mouse embryo, C405

in renal inner medullary collecting duct cells, C1194

retinoic acid effects on, in opossum kidney cells, F438

and salt taste transduction in rat, R1923

Sodium-hydrogen ATPase

regulation of intracellular pH in rabbit collecting duct cells, F340

Sodium/hydrogen exchange

in airway epithelia, in cystic fibrosis, L148

Sodium ions

absorption

in chronic ileitis, G913

electrogenic, in cystic fibrosis, studies in mouse, C734

in gene-targeted mouse model of cystic fibrosis, G258

molecular biology, G571

alveolar resorption, hyperoxia and, L1191

depletion, renal adaptation to, in rat neonatally treated with enalapril, R1421

distal delivery, in prolonged fasting, effects on kaliuresis, F796

excretion, impairment, at low urine flow rate, in humans, R1726

flux, apical angiotensin II-stimulated PLA₂ activity and, F554

handling, in pressure escape, R646

homeostasis, in rat neonatally treated with enalapril, R1421

intracellular, in rat heart, stimulation frequency and, H1246

loading, renal adaptation to, in rat neonatally treated with enalapril, R1421

renal handling of, see **Natriuresis**

and sodium-dicarboxylate cotransporter NaDC-2, G267

transport

alveolar, and fluid resuscitation in hemorrhagic shock, L296

calcium-sensing receptors and, in rat thick ascending limb, F421

substrate-dependent expression of, in renal epithelium, C434

in thick ascending limb of Henle's loop, in cirrhotic rat, R568

Sodium nitroprusside

smooth muscle contractions induced by, signal transduction in, G247

Sodium-phosphate cotransporter

renal

acidic pH effects on, in OK cells, F396
growth-related, R928

retinoic acid effects on, in OK cells, F438

Sodium-potassium ATPase

activity

β-adrenergic agonists and, C893

protein kinase A and, C893

in alveolar cells

in hyperoxic rats, L1191

hypoxia and, L797

upregulation by dexamethasone, L825

E327 mutations of, rubidium-86 uptake in, C2065

in fast-twitch skeletal muscle of rabbit, C297

in frog esophagus mucociliary cell membranes, C1842

gene expression, in vascular smooth muscle cells, C1088

IGF-I regulation of, in vascular smooth muscle, E113

isoforms, in alveolar cells, differential expression of, L246

in neonatal rat cardiomyocytes, C489

in rat terminal inner medullary collecting ducts, F857

regulation by protein kinase C and protein kinase A, C1981

renal

activation by β₂-adrenergic receptors, role of protein kinase C in, F193

receptor-mediated inhibition of, C1458

subunits, dopamine-induced endocytosis, C1458

upregulation after birth, guinea pigs, F254

renal dopamine D₁ receptor activation and, F53

Ser-943, phosphorylation, and effect of PKC on activity of, C1981

and sodium-glucose cotransport in chronic ileitis, G913

Sodium-potassium-chloride cotransporter

and antisense oligonucleotide to PKC-δ, C1632

and fluid and ion transport in corneal endothelium, C1480

in rabbit colon, C148

in rat terminal inner medullary collecting ducts, F857

Sodium-potassium-chloride cotransporter

in alveolar epithelial cells, hypoxia and, L797

in bovine aortic endothelial cells, molecular characterization, C188

and electrochemical gradients across lung lamellar body membrane, L427

and furosemide-induced airway relaxation, L211

in macula densa cells, F817

in mammalian type I vestibular hair cells, C1972

NKCC1, molecular characterization, C188

in renal epithelial cell lines, mathematical models, F473

secretory epithelial isoform, C188

in simian eccrine clear cells, R270

Slc12a2 gene, partial cloning and characterization, C1267

Sodium-proline cotransport

retinoic acid effects on, in OK cells, F438

Sodium/proton exchange

in bovine retinal pigment epithelium, C456

Sodium pump, see Sodium-potassium ATPase

Sodium-sulfate cotransport

retinoic acid effects on, in OK cells, F438

Sodium-taurocholate cotransport

hepatic, regulation

cAMP in, G842

in hepatic regeneration, G621

Sodium-taurocholate cotransport polypeptide

in hepatocytes, G842

Soleus muscle

denervated, lysosomal proteolysis in, in rat, R1562

flow-induced arterial dilation in, in rat, H2423

human, peak isometric force and unloaded shortening velocity after bed rest, C1690

mechanical work, determinants of, C1049

myosin heavy chain isoform plasticity with hindlimb unweighting, C579

single-fiber and whole muscle analysis, C944

power production in situ, optimal shortening velocities for, C1057

remodeling, with hindlimb unweighting, C579

Somatostatin

release, from rat fundic D cells, bombesin-like peptides and, G686

secretion, in gastric fundus, G106

Sorbitol

effects on aldose reductase activity, F1048

Spaceflight

see also **Microgravity**

and skeletal muscle atrophy, C1690

Spectral analysis

in atrial fibrillation, H2811

of cardiac activity, H1427, H1761

in smokers, H1555

of cardiovascular time series, R1201

of cerebral autoregulation, H2209

of heart rate, G1135

in pregnant rat, H1794

of renal blood flow, in rabbit, R597

Spectral imaging

of critical P_{O₂} in myocytes, C1613

Spectroscopy

optical, for measurement of microvascular oxyhemoglobin saturations, H2910

Spermidine

and intestinal smooth muscle contractility, C77

Spermine

and intestinal smooth muscle contractility, C77

Spermine NONOate

and endothelial permeability, C1581

Spermophilus richardsonii, see

Ground squirrels

Sphingosine

antiproliferative action, in airway smooth muscle, C928
in regulation of mitogen-activated protein kinase, in airway smooth muscle, C928

Spinal cord

injury
electrically stimulated leg cycling after, effects on body composition, R1072
rat model for, H1266
transection, cardiovascular responses after, in rat, R1361

Spine

NMDA and AMPA receptors, and episodic hypertension in conscious spinal rat, H1266
resistance-sized small arteries, dilation, nitric oxide and prostaglandin dependence, H2217

Spontaneously hypertensive rats

arterial pressure in, after exercise, sinoatrial denervation and, H2738
calcium ATPase isoforms in, F76
cardiac output, dynamics of, H66
cardiac sympathetic tonus in, after exercise, sinoatrial denervation and, H2738
cardiomyocytes, troponin I phosphorylation in, H1440
cerebral nitric oxide synthase kinetics, maturation and, R1367
diltiazem-induced natriuresis, dopamine receptors and, R317
dopamine receptors in, R317
endothelial nitric oxide synthase in, H1223

G protein mRNA expression in renal vasculature in, F877
hemodynamic effects of exercise training in, H2627
natriuresis in, after carotid baroreceptor activation, R70
obese, insulin receptor signaling in, E1014
renal transplantation studies in, R175
resistance arteries, response to hypoxia and vasodilators, H869
sodium excretion, enalapril and, F104
stroke-prone, neural regulation of kidney function in, R1749
T helper cell subset responses in, promotion by cholera toxin adjuvant, R1509
vascular relaxation in, effects of cholesterol and atherogenic diets on, H647

SQ-29548

and nitric oxide synthase activity in human platelets, H1854

Squalus acanthias, see Shark

Stable isotope tracers

see also Isotopomer analysis
for amino acids, in muscle protein metabolism after exercise, E122
for cholesterogenesis and hepatic apoB-100 secretion, E462
for determination of interstitial glycerol in subcutaneous adipose tissue, in women, E1033
for gastrointestinal tract protein metabolism, in sheep given lucerne forage, G1200
for glucoregulation during intense exercise, in humans, E348
for glucose turnover in humans, E284
for gut and liver proteolysis in dogs, E1073
for hepatic glucose output, E192
for intestinal glutathione synthesis in pigs, E408
for intravenous glucose tolerance test two-compartment minimal model, E1024
for lipolysis and fat oxidation during exercise, E768
for magnesium kinetics in adolescent girls, R710
for renal magnesium handling, F939
for skeletal muscle myosin heavy-chain and sarcoplasmic protein synthesis, E790
for splanchnic phenylalanine metabolism in piglets, G1208
for substrate turnover during exercise, E297

Staphylococcus aureus

enterotoxin B, cytotoxicity, in pulmonary endothelial cells, L31

Starling forces

and pressure-natriuresis mechanisms of kidney, R1

Starling relationship

assessment, in open- versus closed-chest mice, H2528

Statistical error

in cardiovascular research, H487

Statistical power

low, in cardiovascular research, H487

Statistics

use of, in cardiovascular research, H487

Stat signaling pathway

activation, in liver, after burn injury, G1153

Stellate ganglion

left, stimulation, and Q-T interval prolongation, H1696

Steroidogenesis

ovarian
angiotensin-converting enzyme and, in frog, R2089
angiotensin II and, in frog, R2089

Steroids

see also Sex steroid hormones
adrenal, secretion, ultradian rhythm, in rats, E363
and lipid deposition in female rats, E355

Stomach

accommodation reflexes, G464
acid secretion
cephalic-phase, gastrin and, G399
GLP-1 effects on, G920
inhibitors, G31

mitogen-activated protein kinase pathway in, G1263
monitoring device, for free-ranging animals, G748
regulation, G106, G374
adaptive cytoprotection, G365
antrum, gastrin release from G cells, regulation, G281
cell culture from, G686
distension, accommodation reflexes and, G464
dopamine release from, in guinea pigs, G1044
emptying
aging and, R755
of corn oil emulsions, effect of oral versus gastric delivery on, R1263
in ethanol metabolism, in humans, G951
as function of nutrient and delivery route, R1263
GLP-1 effects on, G920
inhibition by GLP-1, E981
during and after intragastric glucose infusion, gastric branch vagotomy and, R1786
lipase and, G612
regulation, G374
in ethanol metabolism, in humans, G951
fundus
D cells, function, bombesin and, G686
histamine H₂ receptors in, G106
lipid-induced relaxation, loxiglumide effect on, G118
gastrogastric reflexes in
regulation of gastric tone, G464
relationship to perception, G464
gastroprotective actions of gastrin-17 in, G365
guanylin and uroguanylin signaling in, G93
human
antral G cells, gastrin release, G281
gastrogastric reflexes in, G464
mucin biosynthesis, G296
tone, G464
hyperemia, mechanisms mediating, G31
mucin biosynthesis, G296
mucosa
calcium receptor in, in *Necturus*, G1051
protection, by pancreatic spasmolytic polypeptide, G112
muscle, cholinergic neurotransmission in, nitric oxide and, G456
myocytes
high- and low-voltage-activated calcium currents, feedback mechanisms, C883
intracellular calcium, calcium current and, C1947
pH, monitoring device, for free-ranging animals, G748
sensory and motor responses to distension, duodenal nutrients and, G721
smooth muscle, nitric oxide synthase induction in, G1101
tone, gastrogastric reflexes and, G464

Strain
and aortic wall, in hypercholesterolemic rabbit, H1142

cyclic, in endothelial cells, and tissue plasminogen activator gene expression, C1441
distribution in guinea pig duodenum, G865
in midanterior canine left ventricle, H1968
and myocardial growth in volume hypertrophy, in rat, H1198
residual, H1968
in duodenum, G865
ventricular wall, incremental, and incremental chamber pressure and volume, H2044

Streptozocin

effects on islet microcirculation in rats, E376

Stress

see also **Shear stress**

acute phase response induced by, in rat, R1998
and aortic wall, in hypercholesterolemic rabbit, H1142
corticosterone response to, maternal deprivation and, in adult rat, R1332
cross-fiber, in cardiac contraction, H1003
effects on food intake and body weight, time of day and, in rat, R1612
hyperthermia induced by, in pregnant rat, R1053
hypoxic, in liver, and gut ischemia-perfusion, G1007
metabolic, and glucose transporter expression, E68
and myocardial growth in volume hypertrophy, in rat, H1198
social
arrhythmias during, in rat, H1754
electrocardiography during, in rat, H1754
heart rate variability during, in rat, H1754
and insulin-like growth factor-I suppression in baboon, R1346
and vascular wall mechanics, in resistance arteries, H952
ventricular wall, incremental, and incremental chamber pressure and volume, H2044

Stress proteins

in lung, L1
regulation, L1

Stretch

and acetylcholinesterase expression in skeletal muscle, C2002
atrial, and atrial natriuretic peptide secretion, R301
and brain natriuretic peptide gene expression in heart, H2678
cell signaling in, H175
and heart failure with volume overload, H961
vascular smooth muscle, mitogen-activated protein kinase activation induced by, C1819

Stroke

therapeutic approaches to, R1861

Stroke work

in heart failure, H1058

Submandibular rat 1 protein

pentapeptide, circulating, in vivo tissue targets for, R1309

Substance P

central, cardiovascular effects, R28
and electrolyte transport across endometrium, C67
expression
in developing lung, hyperoxia and, L40
in rat alveolar macrophages, L1073
and ileal secretomotor responses in guinea pig, G1127
release, from dorsal root ganglion neurons, eosinophils and, L1096
and rostral ventrolateral medulla in rat, R805
and submucosal NK₁ receptors, in guinea pig ileum, G670
vasodilator response to, effect of tetraethylammonium on, R414

Substance P receptors

in angiogenesis, in chronic airway inflammation, L565

Substantia nigra

stimulation, cardiovascular depressor responses to, H2549

Succinate

transport, by sodium-dicarboxylate co-transporter NaDC-2, G267

Sucrase-isomaltase

gene expression, regulation in transgenic mice, G83

Sudden death, see Cardiac hypertrophy

Sulfate

colonic secretion of, C148

Sulfhydryl group

extracellular, in slow delayed rectifier current enhancement, H208

Superoxide

and cardiac neural stunning, H1569
endothelial dysfunction due to, in canine cerebral artery, H718
and gelatinase activity, L445

Superoxide dismutase

extracellular, upregulation, after NF- κ B activation, L1002
and islet microcirculation, in diabetic rats, E376
and late preconditioning against myocardial stunning, H1651

Suprachiasmatic nucleus

and circadian rhythms in malnutrition, in rat, R1321
fetal transplants, effects on diurnal rhythm of CRH and POMC mRNA in rat, R1764

Surfactant

cellular processing of, L339
effects
on alveolar macrophages, in hypersensitivity pneumonitis, L1258
on cNOS and ATP levels in alveolar type II cells, L339
Exosurf, enhancement of adenovirus gene transfer vector targeting, L741
film formation, surfactant convertase and, L907
glucocorticoid regulation of, in premature lambs, L1048
intra-amniotic, uptake by fetal lung, L55
metabolism
cell culture for study of, L347
GM-CSF and, L709

reptilian, regulation of pulmonary fluid balance, R2013
reuptake, L468
secretion, lipoprotein-stimulated, in alveolar type II cells, L634
small-aggregate fraction, preferential uptake of, in vitro, L468
tubular myelin form, conversion to small vesicular form, L907
utilization by fetal lung, L55

Surfactant convertase

and surfactant film formation, L907

Surfactant proteins

SP-A

activation of NF- κ B, in THP-1 monocytes, L382
anti-influenza activity, L1156
cellular distribution in guinea pig lung, L900
degradation, by macrophages, L831
effects on endocytosis of SP-C, L159
gene expression, in response to silica, L395

SP-B

effects on endocytosis of SP-C, L159
and pulmonary mechanics, in neonatal mice, L875

SP-C, endocytosis by pulmonary epithelial cells, L159

SP-D, anti-influenza activity, L1156
expression, in fetal lung development, L55

stress response and, L1

Swallowing

airway protection during, in humans, G854
electromechanical function in, G470
esophageal bolus transport in, dynamics of, G958
lingual modulation of, G1071

Sweat glands

chloride conductance in, C426
sodium-potassium-chloride cotransporter in, in monkey, R270

Sweating

body core temperature threshold for, hyperosmolality and, in humans, R197

Swim stress-induced analgesia

metabolic correlates, in mouse, R337

Sympathetic nervous system

activity

see also **Muscle sympathetic nerve activity**; **Renal sympathetic nerve activity**
and brown adipose tissue, R554
and intestinal microvascular endothelium, H426
splenic, endotoxin effects on, prostaglandin and, R609
and aortic coarctation hypertension, H2648
and baroreceptors, interactions in cat, R1932
and baroreflex control of heart rate, in pregnant rabbit, R960
in blood pressure regulation, H38
and body weight, E448
cardiac afferent reflex, in canine model of heart failure, H2664
cardiac effects
during exercise, in dog, H2135
interstitial norepinephrine and, H1107
monitoring, in conscious rat, H2850

Sympathetic nervous system

(continued)

- in rat, H786
- in rat model of heart failure, H2580
- sleep and, H1761
- cardiovascular effects
 - angiotensin II and, H2620
 - in hypertension, R1749
 - in perinatal period, R457
 - in rabbit, R1696
- in central cardiovascular effects of endothelin-1, in rat, H1177
- control of vascular tone, in hibernating hamsters, H148
- cutaneous activity, during head-down neck flexion in humans, R1142
- discharge, 10-Hz rhythm in, pontine neurons and, in cat, H1909
- and duodenal secretion in rat, R942
- in heat stress, in rat, H1537
- response to exercise, daily exercise and, H1606
- and sodium-potassium ATPase in neonatal rat cardiomyocytes, C489
- in TxA_2 /PGH $_2$ -induced hypertension, H734
- vasomotor tone
 - excitatory drive of rostral ventrolateral medullary neurons and, R487
 - in rat, R805
 - visceral afferents, in ischemia, H1135, H2726
- Synaptobrevin**
 - in renal epithelial cells, clostridial toxins and, F1054
- Synaptosomal-associated protein-25**
 - in inner medullary collecting duct cell line, F1054
- Syndrome X**
 - rat model, insulin receptor signaling in, E1014
- Synovium**
 - fibroblasts, electrophysiology of, interleukin-1 β and, R1822
- Syntaxins**
 - isoforms, in kidney, F718
 - in renal epithelial cells, clostridial toxins and, F1054
- Syrian hamster**, see **Hamsters, Syrian**
- Systemic inflammatory response syndrome**
 - glucose-6-phosphatase expression and activity in, in rat, R1709
 - and leucine metabolism, in TNF- α - and endotoxin-treated rats, E1052
- Systemic lupus erythematosus**
 - mathematical modeling of nephrotic syndrome, F158
- Systemic vascular resistance**
 - and isocapnic hypoxia, in humans, H1126

T

Tachycardia

- exercise-related, modulation by vasopressin in nucleus of solitary tract, R1271
- reentrant, experimental model of, C331
- Tachykinin receptors**
 - NK $_1$, and ileal secretomotor responses in guinea pig, G1127
 - NK $_2$, antagonist, effects on duodenal function in rats, G1077

- NK $_3$, and ileal secretomotor responses in guinea pig, G1127
- in guinea pig ileum, G670
- Tachykinins**
 - expression in rat alveolar macrophages, L1073
 - and hyperoxic lung injury in newborn, L40
 - and ileal secretomotor responses in guinea pig, G1127
- Tachyphylaxis**
 - in hemodynamic effects of intracoronary vascular endothelial growth factor, H1317
- Tamoxifen**
 - effects on estrogen-stimulated eNOS activity in fetal lung, L119
- Tapeworms**
 - luminal, interactions with rat host, G480
- Taste receptor cells**
 - intracellular pH, acid-induced changes in, C1008
- Taste responses**
 - conditioned, in rat, R1230
 - sodium depletion and, in rat, R1381
- Taurine**
 - effects on aldose reductase activity, F1048
 - efflux, in HeLa cells, C999
 - and myocardial ischemic injury, H1956
 - swelling-activated efflux, in endothelial cells, C214
- Taurine channels**
 - volume-sensitive, characterization, C57
- Taurocholate**
 - transport, during hepatic regeneration, G621
 - uptake, in ileum, upregulation by glucocorticoids, G197
- Taxol**
 - effects on cardiac sodium channel availability and activation, H1832
- TBARS**, see **Thiobarbituric acid-reactive substances**
- TCV-116**
 - and ventricular remodeling in pressure-overload hypertrophy, H1824
- Temperature**
 - low, effects on substrate fluxes in fish, R2046
 - myocardial, and contractile efficiency, H2891
- Temperature, body**
 - adjuvant arthritis and, in rat, R1550
 - circadian rhythm, in degus, R1058
 - regulation, see **Thermoregulation**
- Teratology**
 - in diabetic rats, E727
- Testosterone**
 - and macrophage function after trauma-hemorrhage, C1335
 - secretion, aging and, in healthy men, R1407
- Testosterone receptors**
 - blockade, after trauma-hemorrhage, and organ function in males, H2919
- Tetanus toxin**
 - protein targets in renal epithelial cells, F1054
- Tetraethylammonium**
 - mediation of vasodilator responses, in cat, R414

Tetrahydrobiopterin

synthesis, inhibition, and endothelium-dependent relaxation, H718

Tetraplegic subjects

body composition in, effects of electrically stimulated leg cycling on, R1072

Thalamic nuclei

reunions nucleus, in regulation of body weight, in hamster, R226

Thermogenesis

in brown adipocytes, adrenergic regulation of, C1136

in brown adipose tissue, leptin and, E226

nonshivering, hormonal control of, in ducklings, R1638

in *Sminthopsis crassicaudata*, R161

Thermoregulation

brain, after serotonin depletion, in rat, R1663

central mechanisms, R554

ethanol and, in mouse, R696

in hibernating hamster, serotonergic neuromodulation in, R1291

in hibernating marsupial, R2097

human, osmotic inhibition of, R197

in mouse, R1631

PKC inhibitors and, in rat, R873

in Siberian hamsters, effects of midline thalamic lesions, R226

vagus nerve and, in rat, R784

Thiazolidinedione

effects on protein kinase C isoenzymes in skeletal muscle, E915

[5-(3-Thienyl)tetrazol-1-yl] acetic acid monohydrate

sucrose-fed diabetic rats treated with, electroretinogram in, E965

Thimerosal

effects on slow delayed rectifier current, H208

Thiobarbituric acid-reactive substances

as index of oxidative stress, in smokers, H1644

Thioperamide

effects on somatostatin and histamine secretion in gastric fundus, G106

Thirst

in aging rat, R1441

angiotensin II in, in sheep, R187

vasopressin actions on subfornical organ neurons and, in rat, R2105

THP-1 cells

5-lipoxygenase in, regulation by activated lymphocytes, C2057

Threonine

in prepiriform cortex, and eating behavior, R554

Thrombin

angiogenesis-promoting effect in vivo, C239

and cAMP-induced actin stress fiber disassembly in rat glomerular mesangial cells, F283

promotion of endothelial cell alignment in Matrigel, C239

Thrombin receptors

activation, and endothelial permeability, C1756

Thrombolysis

gene-targeting studies, H2091

- Thrombomodulin**
effects in pulmonary vascular injury, L889
- Thrombosis**
and cancer growth and metastases, C239
in transgenic mice, H2091
- Thromboxane A₂**
in bronchial muscle response to allergen, L1118
and nitric oxide synthase activity in human platelets, H1854
- Thromboxane A₂/prostaglandin endoperoxide receptors**
renal renal expression of, salt loading and, F976
- Thromboxane receptors**
TxA₂/PGH₂
prolonged activation, hypertension during, H734
vasopressin release by, H1927
- Thymeleatoxin**
and inotropic responses of neonatal rat heart, H1113
- Thyroid gland**
disorders, TNF- α in, E638
maternal and fetal, and iodine uptake by, with iodine deficiency during pregnancy, E1121
- Thyroid hormones**
see also **Thyroxine; Triiodothyronine**
and antiviral activity of IFN- γ , C1225
in fetal development, E1121
and myosin heavy chain isoform plasticity in skeletal muscle, C944
status, and hepatic α_1 -adrenoceptor responsiveness, E1063

- catalase overexpression, and myocardial protection, H1090
- with disrupted glucokinase allele, hepatic glucose production in, E743
- growth hormone-binding protein in, E549
- hypoxic stimulation of preendothelin-1 promoter activity in, L848
- ICAM-1-deficient, lung inflammation in, L513
- inner medullary collecting duct cell lines, hyperosmotic stress induction of HSP-72 gene expression, F9
- liver regeneration in, creatine kinase isoenzymes and, C741
- lung growth and type II cell hyperplasia in, GM-CSF and, L715
- overexpressing copper-zinc superoxide dismutase, intestinal ischemia-reperfusion in, C1130
- overexpressing skeletal muscle lipoprotein lipase, prevention of diet-induced obesity in, R683
- sucrose-isomaltase gene regulation in, G83

Transgenic rats

- hypertensive, estrogen-mediated antihypertensive mechanisms in, R1908

Transient outward current

- and Wenckebach-like rhythms, in isolated rabbit ventricular cells, H1

Transin

- gene expression, in hepatic stellate cells, G804

Trauma

- muscle and liver protein synthesis after, E898
- testosterone receptor blockade after, and organ function in males, H2919

Trefoil peptides

- expression, regulation by neuropeptides and acetylcholine, G348
- gastric mucosal protectant properties, G112
- secretion, regulation by neuropeptides and acetylcholine, G348

Triacylglycerol

- intracellular transport, in enterocytes, G18

Triglycerides

- metabolism, interaction of corticosterone and gonadal steroids in, in female rats, E355
- plasma levels, in chronic renal failure, F925
- synthesis, development, in humans, G62
- tissue, and insulin production and action, E708

Triiodothyronine

- effects on adenyl cyclase system in brown adipose tissue, E247
- in fetal development, E1121
- and low-T₃ syndrome, cardiac function and gene expression in, E951
- and myosin heavy chain isoform plasticity in skeletal muscle, C944

Trimethylamine N-oxide

- promotion of microtubule polymerization, R669

Trinitrophenyladenosine 5'-triphosphate

- modulation of chloride transport, in small intestinal villus enterocytes, G1141

Troponin I

- phosphorylation, in spontaneously hypertensive rat heart, H1440

Trout

- anoxia in, and calcium homeostasis in hepatocytes, R307
- chromaffin cells, catecholamine secretion from, angiotensin and, R49
- oxidative substrate fluxes, hypoxia and low temperature and, R2046
- veins
 - natriuretic peptide effects on, R527
 - nitroprusside effects on, R527

Trypsin

- activity, effects of lectins on, in rats, G946
- secretion, lipase and, G612
- survival during small bowel transit, G553

Tuberous sclerosis complex

- cardiomyocyte DNA synthesis and, H1619
- characteristics, H1619

Tubulin

- phosphorylation, bradykinin-stimulated, in mesangial cells, F916
- polymerization, promotion by trimethylamine N-oxide, R669

Tubuloglomerular feedback

- in angiotensin AT_{1A} receptor-deficient mice, F315
- dynamics, F625
- spectral analysis, F625, F635
- TxA₂ receptors and, F976

Tumor invasion

- three-dimensional cell cultures and, C1109

Tumor metastasis

- three-dimensional cell cultures and, C1109

Tumor necrosis factor

- TNF- α
 - action in thyroid cells, E638
 - and activated hepatic stellate cells, G804
 - and calcium responses in airway smooth muscle, L1020
 - and capillary permeability, H200
 - and endothelial cell adhesion molecule expression in gene-targeted mice, H1903
 - in endotoxic shock, H164
 - and endotoxin-induced cardioprotection, H1894
 - and epinephrine inhibition of endotoxin-induced IL-1 β production, R1885
 - and erythropoietin gene expression, in rat, R1067
 - gene expression, after intestinal ischemia-reperfusion, G314
 - gene expression, by alveolar macrophages, in interstitial lung disease, L676
 - guinea pig, airway inflammation induced by, L524
 - hyaluronic acid-specific regulation of, by human uterine fibroblasts, C1151

- and inducible nitric oxide synthase gene expression in hepatocytes, G1290
- induction by endotoxin and muramyl dipeptide, in guinea pig, R1529
- and leucine metabolism, E1052
- leukocyte rolling induced by, nitric oxide synthesis and, G628
- and *Pneumocystis carinii*-induced ICAM-1 expression in lung epithelial cells, L1103
- and regulation of gelatinase and TIMP-1 in bronchial epithelial cells, L866
- stimulation of protein kinase C, in bronchial epithelial cells, L1007
- tolerance, in newborn rat, R1158
- and vascular barrier dysfunction, H2565
- in zymosan-mediated inflammation, in IL-1 β knockout mice, R400
- apoptosis mediated by, hyaluronidase induction of, C1987
- effects on human microvascular endothelial tight junctions, H286
- endotoxin-induced, heat stress and, R858
- inhibition, by catecholamines, E1203
- mitochondria as target of, G7
- secretion, from pancreatic islets, E433

Tumor necrosis factor receptors

- expression, in monocytes, catecholamines and, E1203

Tumor spheroids

- applications, C1109
- fibroblasts isolated from, mitochondrial function, C1487

Tumor suppressor protein

- p53, in alveolar type II cells on Matrigel in presence of KGF, L572

Tunicamycin

- and intracellular calcium levels in aortic endothelial cells, C1298

Turkish hamster, *see* **Hamsters**, **Turkish**

Turtles

- anoxia tolerance, glutathione systems and, R219
- anoxic, electroencephalography in, R911
- pulmonary fluid balance, surfactant and, R2013

Type II error

- in cardiovascular research, H487

Tyrosine

- dietary intake, effects on renal dopamine secretion, in diabetic rat, R80
 - phosphorylation
 - intestinal epithelial disruption by, G812
 - in pancreatic acini, G1226
 - in smooth muscle contraction, G247
- Tyrosine kinase**
- activity, in gastric mucosa of aging rats, G389
 - insulin receptor, endogenous substrate pp120, signaling by, E801
 - in oxidant-induced apoptosis of mesangial cells, F206

U

U-46619

- effects on pressor response, in rat, H1927

tubuloglomerular feedback response to, salt loading in rats and, F976

U-63557A
and nitric oxide synthase activity in human platelets, H1854

UES, *see* **Upper esophageal sphincter**

Ulcerative colitis
source of colonic ENA-78 in, G75

UL-FS-49
and heart rate, H2155

Ultradian rhythms
in adrenal secretion of corticosterone, in rats, E363
of cardiac output, in spontaneously hypertensive rat, H66

Ultrasound
of brachial artery diameter, H1644
of carotid diameter in humans, H1629
intravascular catheter for, H2078
pulsed Doppler, in mouse, H494

Umbilical cord
compression, repeated, fetal cardiovascular response to, H2351

Uncoupling protein
expression, leptin and, E226
in *Sminthopsis crassicaudata*, R161

Upper esophageal sphincter
see also **Pharyngo-UES contractile reflex**
electromechanical function of, G470
function, in swallowing, G1071

Urea
see also **Vasopressin-regulated urea transporter**
effects
on aldose reductase activity, F1048
on esophageal epithelial structure and function, G647
excretion
in diabetes mellitus, F949
factors affecting, R1726
inhibition of inducible nitric oxide synthase in macrophages, C1882

Urea transporters
DNA cloning for, F321
in renal collecting ducts, reviews, F321
vasopressin-regulated, in diabetic rat inner medulla, regulation by glucocorticoids, F949

Uremia
accelerated glycogenolysis in, E17

Ureter
development, F757
myocytes, electrophysiology, C962
neonatal, obstruction, AT₁ and AT₂ receptors in, R503
obstruction, effects on water excretion and aquaporin-2 expression in rats, F213
peroxisome proliferator-activated receptor expression in, F1013

Ureteric bud
regulation of renal progenitors, F757

Urethan
and bladder hyperactivity induced by cerebral infarction, R1900

Urinary bladder, *see* **Bladder, urinary**

Urinary obstruction
congenital bilateral, role of TGF- β 1 in, F372

Urinary tract
peroxisome proliferator-activated receptor distribution in, F1013

Urine
concentration, and sodium excretion, R1726
flow rate, low, impaired sodium excretion at, in humans, R1726

Urodilatin
cardiomyocyte protection by, H244

Uroguanylin
from rats, structure and activity, E957
signaling, in stomach and intestine, G93

Ursodeoxycholate
and nitric oxide synthase induction, in human intestinal epithelial cells, G131

Uterus
arcuate artery, reactivity during gestation and postpartum, in rat, H1148
C-type natriuretic peptide gene expression in, regulation by estrogen, H2672
endometrium, electrolyte transport across, C67
human
fibroblasts, hyaluronic acid-specific regulation of cytokines, C1151
myocytes, large-conductance potassium channels, C1721

V

Vagosympathetic interaction
in atrial fibrillation, in dog, H805
and left ventricular contractility, H534

Vagus nerves
see also **Dorsal vagal complex; Vago-sympathetic interaction**
afferent pathways
cardiac, bradykinin sensitivity in heart failure, R637
in cytokine-induced anorexia, in rat, R1193
gastric, types responsive to leptin, R833
and GLP-1 effects on gastric function, G920
hepatic, food intake and, R442
intraganglionic laminar endings, function in rat stomach, G661
in atrial fibrillation, H805
CCK-A receptors, and pancreatic secretion in rats, G679
control of heart, in rat, H2926
and counterregulatory response to insulin-induced hypoglycemia, E1178
and febrile response to endotoxin, R407, R777
gastric, and hypocalcemia in rat, R1492
in gastric acid secretion, G31
and gastric emptying of glucose, during and after intragastric glucose infusion, R1786
and heart rate, ionic channel antagonist effects on, H2155
and IL-1 β -induced sleep and fever, in rat, R1246
inhibition of atrioventricular conduction, in dog, H1800
stimulation, negative chronotropic effect on left ventricular contractility, H534
and thermoregulation
in inflammation, R407
in rat, R407, R784

Vapreotide
effects on intestinal wall movement, analysis in vitro, G776

Variance
in cardiovascular research, H487

Vascular cell adhesion molecule 1
cytokine-induced expression, inhibition by *N*-acetylcysteine, H817
and leukocyte-endothelial cell adhesion, H2490
transcription, downregulation by shear stress, C1506

Vascular endothelial growth factor
gene-targeting studies, H2091
hypoxia-induced expression, in myocardial vascular smooth muscle cells, H628
intracoronary delivery, hemodynamic effects, H1317
and microvascular permeability, H687
regulation, H2224
uteroplacental, in pregnancy, H938

Vascular hyperplasia
blood flow and, H1699

Vascular hypertrophy
blood flow and, H1699

Vascular remodeling
see also **Heart ventricles, remodeling**
arterial, H2030
in atherosclerosis, H1415
and platelet-derived growth factor A-chain transcription in smooth muscle cells, H1415
in pulmonary vasculopathy, H2549
in rat mesenteric small arteries, blood flow and, H1699

Vascular smooth muscle
calcium, pressure dependence of, H175
contractile response, NOS inhibition and, H2756
in coronary circulation, heterogeneity of L-type calcium current density in, H2083
cytosolic calcium, hindlimb suspension and, in rat, H2867
 α_{2B} -adrenergic receptor gene expression in, CRE-like response element and, H85
effects of dietary sodium supplementation and angiotensin II administration on, H1275
heme oxygenase-1 gene expression in, H317
myogenic response
cell signaling in, H175
in human coronary arterioles, H257
renal afferent arteriole
integrins in, F768
intracellular calcium, F768
response to hypoxia and vasodilators during hypertension and high salt intake, H869
stereoselective *S*-nitrosothiol recognition sites, H1493
stress-strain relationship, in hypercholesterolemia, H1142
tone, control of, in hibernating hamsters, H148
and upregulation of cyclooxygenase-2 in cerebral microvascular endothelial cells, C277

Vascular smooth muscle cells
angiotensin II receptors, regulation by epidermal growth factor, C1241

Vascular smooth muscle cells

(continued)

- anion exchanger AE expression in, F1039
 - arterial, mitogenesis, regulation by kinins, C7
 - calcium-activated chloride currents, activation by metabolic inhibition, C520
 - calcium spark frequency, protein kinase C and, C2090
 - calcium transients, protein kinase C and, C2090
 - cerebral, pH_i - and pH_o -induced vasomotion in, H434
 - growth, regulation, H2586
 - heme oxygenase-1 gene expression, regulation by nitric oxide, L980
 - human, potassium channels, effects of pinacidil on, C161
 - mitogenic signaling in, c-Ha-ras^{EJ} modulation of, H1920
 - myocardial, hypoxia-induced vascular endothelial growth factor expression in, H628
 - PKC-dependent regulation of AT_1 promoter in, H655
 - responses
 - to diphenyleneiodonium and hypoxia, L603
 - to growth factors, in cirrhotic rats, G883
 - sodium/hydrogen antiport, modulation by atrial natriuretic factor, C643
 - sodium-potassium ATPase expression, regulation by serum, C1088
 - sodium pump, IGF-I regulation of, E113
 - vascular endothelial growth factor expression
 - glucose and, H2224
 - hypoxia-induced, H628
 - vasopressin enhancement of cAMP stimulation in, H971
- Vascular tone**
- atrial and C-type natriuretic peptides and, in humans, R1457
- Vasculature**
- atrial and C-type natriuretic peptides and, in humans, R1457
 - formation, molecular analysis, H2091
 - growth, and collapsible pressure-area relationship, H2030
 - pressure-area model, H2030
 - renal
 - localization of vasopressin receptors in, R243
 - pregnancy-induced changes in, in rats, R22
 - wall, mass transfer in, simulation of, H464
- Vasoactive drugs**
- effect on carotid diameter in humans, H1629
- Vasoactive intestinal peptide**
- adrenal, and neonatal corticosteroid production in rat, R1163
 - effects on tyrosine phosphorylation in pancreatic acini, G1226
 - in liposomes, vasodilation elicited by, R287
- Vasoactivity**
- and nonshivering thermogenesis, in avian muscle, R1638
- Vasoconstriction**
- cold-induced, R880

- coronary, reduction of coronary flow oscillations, H2746
 - cyclosporin A-induced, F783
 - effects of dietary sodium supplementation and angiotensin II administration on, H1275
 - to endothelin-1 and angiotensin II, eicosanoids and, R293
 - in mesenteric arteries, in hibernating hamsters, H148
 - myogenic
 - cell signaling in, H175
 - in human coronary arterioles, H257
 - platelet-mediated, in diabetes, H371
 - pulmonary, and activation of calcium-activated chloride currents, C520
 - in rat iridial arterioles, H2119
 - and regional pulmonary perfusion, in rabbit, R1465
 - regulation, in perfused rat tail artery, C834
 - in response to $[\text{Pro}^{11}, \text{D-Ala}^{12}]$ angiotensin I, E1059
 - smoking-induced, H1644
- Vasodilatation**
- renal, glucocorticoid-induced, nitric oxide and, R1972
- Vasodilation**
- see also **Vasorelaxation**
 - coronary, norepinephrine-induced, adenosine in, H557
 - cumulative conducted, in single arteriole, H310
 - cutaneous, hyperosmolality and, in humans, R197
 - elicited by vasoactive intestinal peptide in liposomes, R287
 - endothelium-dependent, in smokers, H1644
 - during exercise, H2186
 - hyperosmotic, coronary microvascular, ATP-sensitive potassium channels in, H104
 - in mesenteric arteries, in hibernating hamsters, H148
 - neurogenic, in rat hindlimb, H228
 - peripheral, in menstrual cycle, F777
 - platelet-mediated, in diabetes, H371
 - tetraethylammonium and, R414
 - triggered by motor nerves, H156
 - vascular endothelial growth factor-induced, uteroplacental, in pregnancy, H938
- Vasomotion**
- chaotic agonist-induced, membrane ion transport and, H909
- Vasomotor tone**
- in normal humans, R1173
- Vasopressin**
- actions on angiotensin II-sensitive neurons in subfornical organ of rat, R2105
 - and adenylyl cyclase activity in rat kidney, C323
 - and baroreflex function, R457
 - and cAMP-induced actin stress fiber disassembly in rat glomerular mesangial cells, F283
 - and cardiovascular-related nucleus of solitary tract neurons, R143
 - changes in, during acute exposure at 3 atm abs air, R259
 - and chloride transport in medullary thick ascending limb, F1030

- in endotoxin-induced fever, in pig, R1046
 - enhancement of cAMP stimulation in vascular smooth muscle cells, H971
 - hypotension-induced release, in rat, R1474
 - neurohumoral interaction via area postrema and blood pressure, R1696
 - effects on body fluid, R1696
 - in nucleus of solitary tract, and exercise tachycardia, R1271
 - regional blood flow response to, sexual dimorphism in, in rat, R1126
 - release
 - by central $\text{TxA}_2/\text{PGH}_2$ receptors, H1927
 - during exercise, in dog, H2135
 - during osmotic stimulation in rat, nitric oxide and, R1024
 - in response to novel environment, in pregnant rat, R1053
 - secretion
 - dehydration and, in rat, R35
 - hemorrhage and, in rat, R58
- Vasopressin receptors**
- V_1 , antagonists, effects on cardiovascular-related nucleus of solitary tract neurons, R143
 - V_{1a} , localization in renal cortical and medullary circulation, R243
 - V_2 , localization in renal cortical and medullary circulation, R243
- Vasopressin-regulated urea transporter**
- in diabetic rat inner medulla, regulation by glucocorticoids, F949
- Vasoreactivity**
- see also **Vasoconstriction**; **Vasodilation**; **Vasorelaxation**
 - regulation, in perfused rat tail artery, C834
- Vasoregulation**
- in cerebral circulation, in rat, H434
- Vasorelaxation**
- see also **Vasodilation**
 - ceruloplasmin effects on, H2843
 - endothelial nitric oxide synthase and, H265
 - in hypertension, hypercholesterolemia and, H647
 - in pulmonary vasculature, ATP-sensitive potassium channels in, L950
- Vector autoregressive modeling**
- for analyzing feedback regulation between heart rate and blood pressure, H478
- Veins**
- α_{2D} -adrenergic receptor gene expression in, CRE-like response element and, H85
 - natriuretic peptide effects on, in trout, R527
 - nitroprusside effects on, in trout, R527
- Ventilation**
- in isocapnic hypoxia, in humans, H1126
- Ventral tegmental area**
- stimulation, cardiovascular depressor responses to, H2549
- Ventricles**
- cardiac, see **Heart ventricles**
- Ventricular fibrillation**
- in preconditioned pig hearts, H2804
- Ventricular tachycardia**
- cesium-induced, H1377

Venules

- leukocyte accumulation in, low-flow reperfusion after myocardial ischemia and, H1154
- postcapillary, ICAM-1 expression, in rat, H138

Verapamil

- effects
 - on ammonium permeability in macula densa cells, F817
 - in intestinal inflammation, G785
- and energetics of heart beat with high potassium perfusion, H2343
- and myosin heavy chain gene expression in neonatal rat heart cells, C394

Verotoxins

- VT-1, translocation across T84 monolayers, G1349

Very-low-density lipoproteins

- plasma levels, in chronic renal failure, F925

Vesicle-associated membrane proteins

- in renal epithelial cells, clostridial toxins and, F1054

Vesicle-targeting receptors

- in renal collecting ducts, F718

Vestibular dark cells

- potassium secretion, inhibition by P_{2U} purinergic receptor, C2022

Vestibular function

- effects on carotid-cardiac baroreflexes, R615

Vestibul sympathetic reflexes

- in humans, R1142

Vibrio cholerae

- infection, nitric oxide production during, G1160

Villin

- redistribution in renal ischemia, F1003

villin gene

- controlled spatiotemporal expression of, G759

Vinculin

- in cardiomyocytes, effects of mechanical forces on, H546
- phosphorylation, and endothelial barrier function, H608

Visceral afferents

- and colorectal motor and sensory function, in hyperglycemia, G859
- sensitization, from gastrointestinal origin, CGRP in, G191

Visceral pain

- colorectal distension-induced, calcitonin gene-related peptide in, G191

Vitamin B₁₂

- and neurotransmitters in rat suprachiasmatic nucleus, R359

Vitamin C

- see also **Ascorbate**
- and endothelial dysfunction in smokers, H1644

Vitamin D

- see also **1,25-Dihydroxyvitamin D**
- effects on preosteoblasts, E599

Vitamin E

- and monocyte adhesion to endothelial cells, H634

Volume expansion

- see also **Salt, loading**
- rat renal sensory receptor response to, in chronic hypoxia, F712

Volume flow

- in airway epithelium, C21

Volume overload

- and baroreflex sensitivity, H2580

Volume-sensitive organic osmolyte anion channel, see VSOAC

VRUT, see Vasopressin-regulated urea transporter

VSOAC

- in HeLa cells, C999

W

Water

- deprivation, central angiotensin II receptors and, in rats, E156
- excretion
 - and aquaporin-2 expression in ureteral obstruction, F213
 - and hypertension, R1
- handling, in pressure escape, R646
- influxes, in anoxic plasma membrane disruption, C1341
- intake, dorsomedial medulla and, in rat, R1299
- pharyngeal stimulation, see **Pharyngeal water stimulation**

Water channels

- see also **Aquaporin**
- cysteine residue substitution effects on structure-activity relationships, F451

Waterfall phenomenon

- in coronary collateral circulation, H2296

Water permeability

- of barrier epithelia, mucins effects on, F67

Weightlessness

- effects on human muscle tone, microvibration and physiological tremor, R86

White blood cells, see Leukocytes

Women, see Females; Gender differences

Work

- in skeletal muscle, C1049, C1057

Work loop

- in skeletal muscle, C1049, C1057

Work-strain relationship

- in skeletal muscle, C1049

Wortmannin

- and p70^{s6k} activation by cholecystokinin, C101

Wound healing

- extracellular insulin degradation in, E657

X

Xanthine

- cardiac action of, C909
- effects on intracellular calcium and contractile responses in cardiomyocytes, C909
- promotion of neutrophil-endothelial adhesion, G342

Xanthine oxidase

- activity, in reoxygenation versus ischemia, in rat lung, L1112
- and nuclear factor- κ B regulation in lungs, L185
- promotion of neutrophil-endothelial adhesion, G342

Xenobiotics

- metabolism, nitric oxide synthesis and, G530

Xenopus laevis

- intestinal sodium-dicarboxylate cotransporter NaDC-2, G267
- oocytes
 - human sodium-dependent purine nucleoside transporter expression in, F1058
 - maxi K⁺ channel α -subunit expression in, F615

X-linked hypophosphatemic rickets

- pathophysiology, F489

Z

Zeitgebers

- nonphotic
 - in diurnal rodent, R797
 - in Siberian hamster, R1540

Zinc

- kinetics, compartmental analysis, in rat, R1117

Zinterol

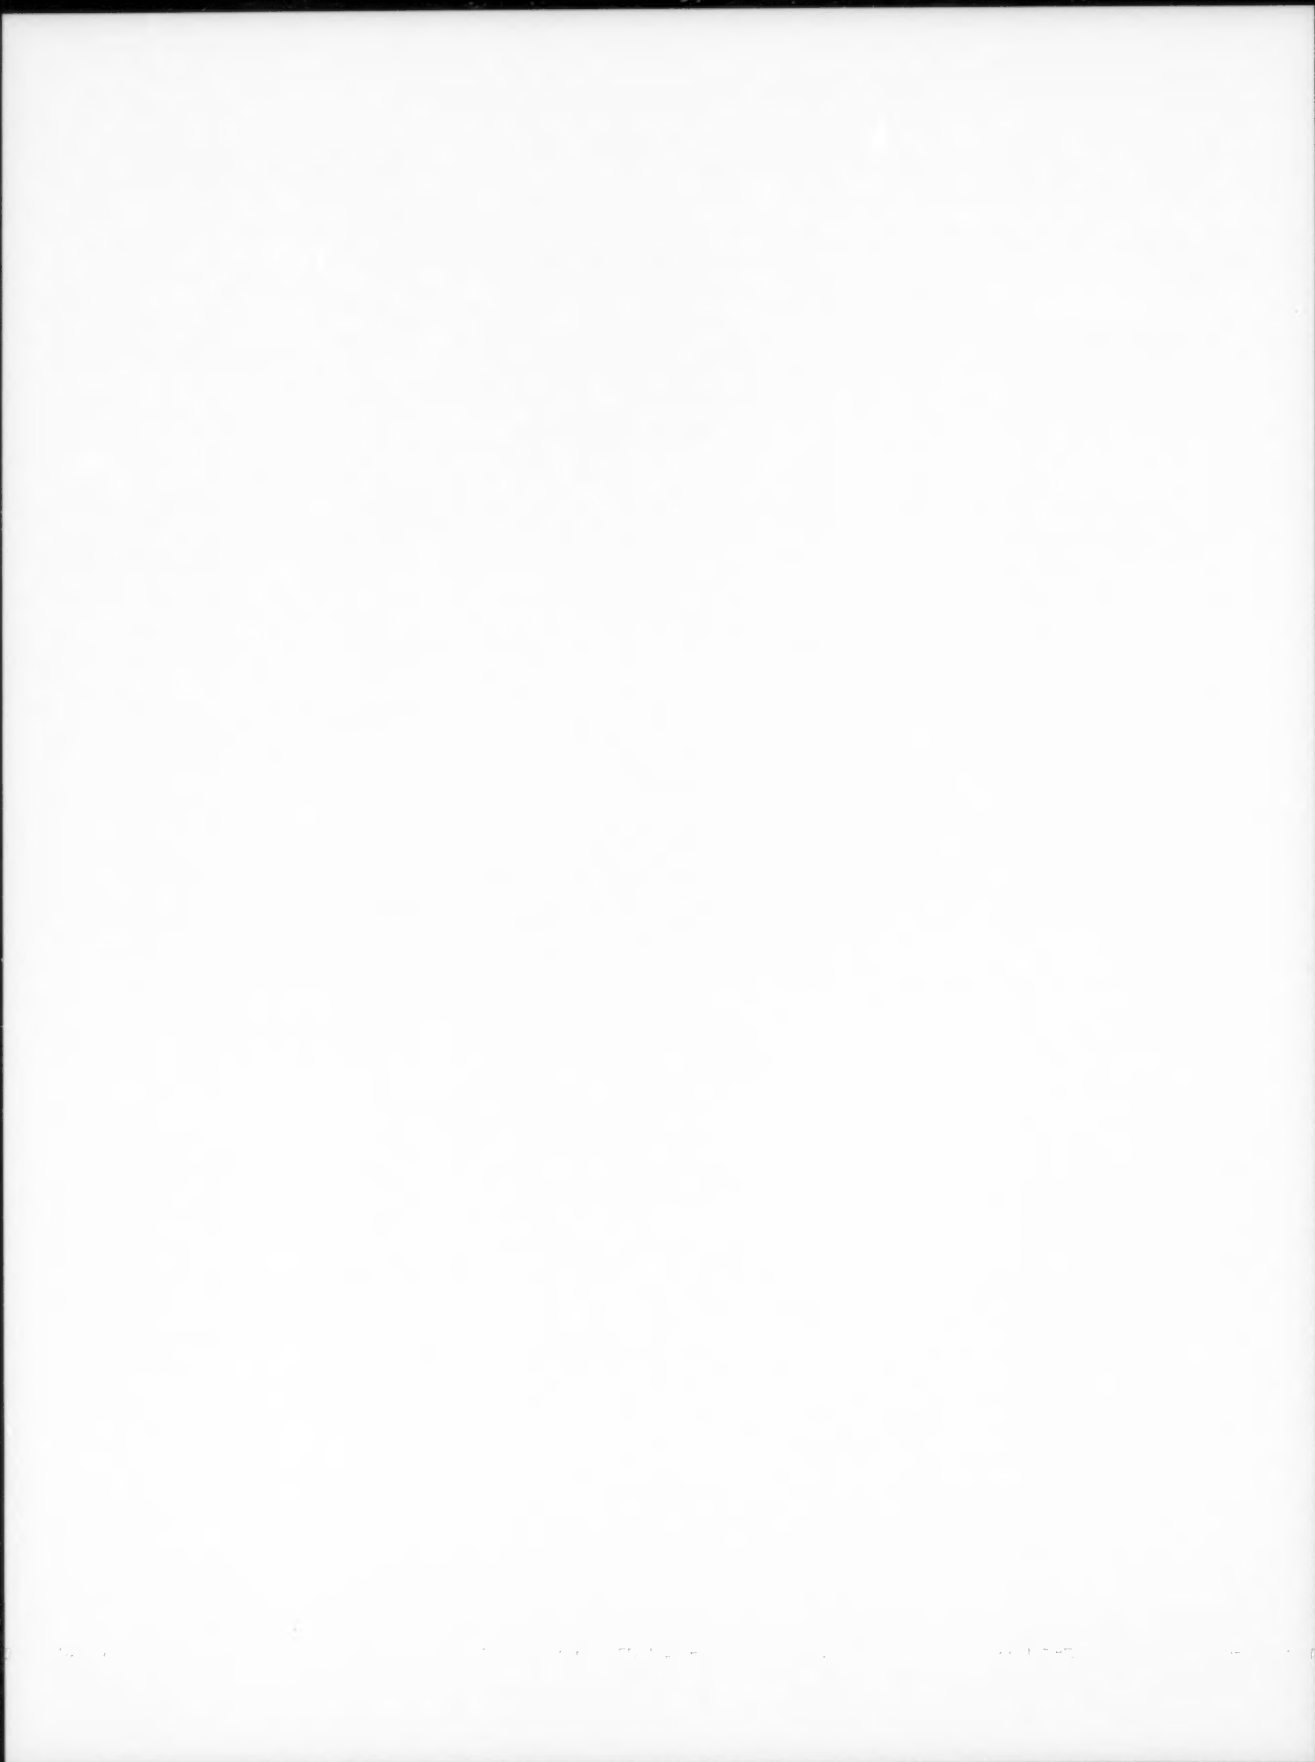

- and ion channels in guinea pig ventricular myocytes, H1669

Zis gene

- expression in juxtaglomerular cells, F731

ZMP

- formation, in rat skeletal muscle, E1107
